

Tensile Strength 1.75MPa Self Curing Silicone Pad Chemical Resistant For Busbar Insulation

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: ZL525W
- Minimum Order Quantity: 300PCS
- Supply Ability: 60000 PCS per month

Product Specification

- Uv Resistance: Good
- Color: Black
- Shelf Life: 12 Months
- Self-Curing Time: 24 Hours
- Chemical Resistance: Excellent
- Tensile Strength: 1.5-2 MPa
- Size: Customizable
- Temperature Resistance: -40~85°C
- Highlight: **1.75MPa Self Curing Silicone Pad ,
Self Curing Silicone Pad Chemical Resistant**

Product Description

Product Description:

Features:

Product Name: Self Curing Silicone Pad

Size: Customizable

Uv Resistance: Good

Tensile Strength: 5-10 MPa

Hardness: Shore A 30-80

Self-Curing Time: 24 Hours

Technical Parameters:

Technical Parameters	Values
Product Name	Self Curing Silicone Pad
Uv Resistance	Good
Application	Busbar Waterproof Insulation, Electrical Connector Insulation And Waterproofing, Insulation Repair For Cables, Sealed And Insulated Protection Of Overhead Line Clamps, Insulation Protection For Exposed Metal Positions Of Power Conductors, Used For The Partial Insulation Restoration Of Overhead Wires, Used For Insulating The Bare Metal Parts Within Switchgear
Tear Strength	10-30 N/mm
Material	Silicone Rubber
Temperature Resistance	-40~85°C
Self-Curing Time	24 Hours
Tensile Strength	1.5-2 MPa
Chemical Resistance	Excellent
Shelf Life	12 Months

Electrical Insulation	Excellent
-----------------------	-----------

Applications:

Self Curing Silicone Pad - The Perfect Solution for Your Industrial Needs

Are you tired of constantly replacing your silicone pads due to damage or wear and tear? Look no further! Introducing Self Curing Silicone Pad, the revolutionary product from the trusted brand "zhonglei" in China. Our Self Curing Silicone Pad is specially designed to withstand harsh industrial environments and provide excellent protection for your equipment. Let's take a closer look at its features and applications.

Product Attributes

- Brand Name: zhonglei
- Place of Origin: China
- Chemical Resistance: Excellent
- UV Resistance: Good
- Color: Black
- Electrical Insulation: Excellent
- Elongation at Break: 300-500%
- Application

Self Curing Silicone Pad is widely used in various industrial settings, thanks to its excellent chemical resistance and electrical insulation properties. It can be used in the following applications:

- Protective layer for electronic components
- Cushioning and shock absorption for machinery
- Insulation for high voltage equipment
- Sealing and gasket material for pipes and valves
- Mold release agent for plastic and rubber products

Scenario

Imagine you are running a manufacturing plant and your electrical equipment is constantly exposed to chemicals and high voltage. You need a reliable solution to protect your equipment and ensure smooth operation. Self Curing Silicone Pad is the answer to your problems. With its excellent chemical and UV resistance, our silicone pad provides a durable protective layer for your equipment, preventing any damage or corrosion. Its electrical insulation property ensures the safety of your workers and prevents any short circuits. And in case of any wear and tear, the self-curing feature of the pad allows it to repair itself, saving you the time and cost of replacement.

Why Choose Self Curing Silicone Pad?

There are many silicone pads in the market, but Self Curing Silicone Pad stands out with its unique features and benefits:

- Self-curing: No need for frequent replacements
- Excellent chemical resistance: Suitable for harsh industrial environments
- Good UV resistance: Longer lifespan
- Clear color: Easy to identify any damages
- Excellent electrical insulation: Ensures safety for workers and equipment
- High elongation at break: Can withstand heavy loads and prevent tearing

Don't compromise on the protection and durability of your equipment. Choose Self Curing Silicone Pad from zhonglei, your trusted partner in industrial solutions. Get in touch with us today to learn more about our product and how it can benefit your business.

Customization:

Customized Services for Self Curing Silicone Pad

- Brand Name: **zhonglei**
- Place of Origin: **China**
- Shelf Life: **12 Months**
- Chemical Resistance: **Excellent**
- Elongation At Break: **300-500%**
- Self-Curing Time: **24 Hours**
- UV Resistance: **Good**

Self Curing Silicone Pad is a high-quality silicone material that is manufactured by **zhonglei** in **China** . It has a shelf life of **12 months** and offers excellent **chemical resistance** to various substances. With **300-500%** elongation at break, this silicone pad is highly flexible and can withstand extreme conditions.

The **self-curing** feature of this silicone pad allows it to cure within **24 hours** without the need for any external heat or curing agents. It is an ideal choice for applications where quick curing time is required. Additionally, the **UV resistance** of this pad is also good, making it suitable for outdoor use.

At **zhonglei** , we offer customized services for **Self Curing Silicone Pad** to meet the specific needs and requirements of our customers. Our team of experts can work closely with you to understand your unique requirements and provide tailor-made solutions. Whether it's a specific size, shape, or color, we can customize this silicone pad to meet your exact specifications.

Choose **zhonglei** for **Self Curing Silicone Pad** and experience the high-quality and reliable performance of our product with the added benefit of customized services. Contact us today to discuss your requirements and get a personalized quote.

Packing and Shipping:

Packaging and Shipping for Self Curing Silicone Pad

Packaging:

The Self Curing Silicone Pad is packaged in a sturdy cardboard box to ensure safe transportation. The box is labeled with the product

name and specifications for easy identification.

The silicone pad itself is sealed in a plastic bag to protect it from any external elements that may affect its quality.

Inside the box, the silicone pad is further protected with bubble wrap or other cushioning materials to prevent any damage during transit.

Shipping:

The Self Curing Silicone Pad is shipped using reliable and trusted shipping companies to ensure timely and secure delivery.

The shipping method will depend on the customer's preference and location. We offer various shipping options such as air freight, sea freight, and ground transportation.

For international orders, all necessary customs and export documents will be included to ensure smooth delivery.

Once the order is shipped, the customer will receive a tracking number to monitor the status of their shipment.

At Self Curing Silicone Pad, we take great care in packaging and shipping our products to ensure they reach our customers in perfect condition.
