### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Dielectric Strength: 20kv/mm
- Application: Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.
- Material: Self Fusing Silicone
- Width: 5cm
- Color: Grey
- Feature: Heat-Resistant
- Maximum Voltage: 25kv
- Highlight: **Grey Self Fusing Silicone Tape ,  
Self Fusing Silicone Tape 25kv**

## Product Description

### Product Description:

Self Fusing Silicone Tape - The Ultimate Repair Solution!

Are you tired of dealing with messy and ineffective repair tapes? Look no further, because our Self Fusing Silicone Tape is here to save the day! This amazing product is designed to provide a quick and easy solution for all your repair needs. Let's take a closer look at its key features:

Flexibility: High

Our Self Fusing Silicone Tape is incredibly flexible, making it perfect for a wide range of applications. It can easily bend and conform to any shape or surface, making it suitable for use on various objects like pipes, hoses, wires, and more.

UV Resistant: Yes

Worried about your repair tape deteriorating under the sun? Our Self Fusing Silicone Tape is specially designed to be UV resistant, ensuring that it will not crack or degrade when exposed to sunlight.

Adhesion Strength: High

When it comes to repairing, you need a tape that can withstand strong pulling forces. Our Self Fusing Silicone Tape has high adhesion strength, providing a strong and reliable hold for all your repairs.

Length: 10 Feet

With a length of 10 feet, our Self Fusing Silicone Tape offers plenty of material for all your repair needs. You won't have to worry about running out of tape in the middle of a repair job.

Temperature Resistance: Up To 500°F

Our Self Fusing Silicone Tape can withstand extreme temperatures, making it suitable for use in various environments. It can handle temperatures up to 500°F, making it perfect for both indoor and outdoor use.

Non-Tacky Silicone Tape

Unlike traditional tapes, our Self Fusing Silicone Tape does not leave any sticky residue behind. This means you won't have to deal with any mess or cleanup after using it.

Stretchable Silicone Repair Tape

Thanks to its stretchable design, our Self Fusing Silicone Tape can easily cover and repair even irregularly shaped objects. This makes it a versatile and practical choice for all your repair needs.

Self Amalgamating Silicone Tape

Our Self Fusing Silicone Tape has the unique ability to fuse to itself, creating a strong and permanent bond. This eliminates the need for any adhesives or additional tools, making it a hassle-free repair solution.

Weather Resistant, Waterproof, Insulating, Durable

Our Self Fusing Silicone Tape is designed to withstand various weather conditions, making it suitable for both indoor and outdoor use. It is also waterproof, providing reliable protection against leaks and moisture. Additionally, it has insulating properties, making it perfect for electrical repairs. And with its durable construction, you can trust it to last for a long time.

Easy to Use

Our Self Fusing Silicone Tape is incredibly easy to use. Simply stretch and wrap it around the object to be repaired, and it will fuse to itself, creating a strong and long-lasting bond. No need for any special skills or tools.

Order Your Self Fusing Silicone Tape Today!

With its high flexibility, UV resistance, strong adhesion, and other amazing features, our Self Fusing Silicone Tape is the ultimate repair solution. Don't wait any longer, order yours today and experience the convenience and effectiveness of our product for yourself!

### Features:

Product Name: Self Fusing Silicone Tape

Material: Self Fusing Silicone

Flexibility: High

Temperature Resistance: Up To 500°F

Waterproof: Yes

Feature: Heat-Resistant

Self Bonding Silicone Tape

Self Amalgamating Silicone Tape

Self Sealing Silicone Tape

Self Adhesive Silicone Tape

### Technical Parameters:

Product Name	Waterproof Silicone Wrapping Tape
Product Type	Self Adhesive Silicone Tape
Dielectric Strength	400 V/mil
Flexibility	High
Maximum Voltage	35kv
Width	5 CM

HS Code	40082100
Color	Grey
Length	5 M
Waterproof	Yes
Application	Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.
UV Resistant	Yes

### Applications:

#### Self Fusing Silicone Tape

Self fusing silicone tape, also known as stretchable silicone repair tape, self bonding silicone tape or self sealing silicone tape, is a versatile and innovative product that can be used in a variety of applications. With its unique properties, it has become a must-have item for both industrial and home use.

#### Product Attributes

Hs Code: 40082100

Width: 1 Inch

Temperature Resistance: Up To 500°F

Length: 10 Feet

Classification: Inorganic Insulation Material

Waterproof and Heat Resistant

One of the main uses of self fusing silicone tape is for its waterproof and heat resistant properties. It is able to withstand temperatures up to 500°F, making it ideal for use in hot and humid environments. This makes it perfect for outdoor repairs, such as sealing leaking pipes or repairing hoses. It can also be used to wrap electrical wires and cables, protecting them from moisture and heat.

#### Electrical Insulation

Due to its inorganic insulation material classification, self fusing silicone tape is a popular choice for electrical insulation. It is able to provide a strong and reliable seal, protecting wires and electrical components from moisture and heat. This makes it a valuable tool for electricians and DIY enthusiasts alike.

#### Industrial Equipment

Self fusing silicone tape is also widely used in industrial settings for maintenance and repairs. Its waterproof and heat resistant properties make it ideal for sealing and protecting machinery and equipment. It can also be used to fix leaks and cracks in pipes and hoses, saving time and money on expensive repairs.

#### Home Repairs

Self fusing silicone tape is a handy product to have for any household. Its waterproof and heat resistant properties make it perfect for fixing leaks and cracks in pipes, hoses, and even roofs. It can also be used for general repairs around the house, such as sealing windows and doors, repairing appliances, and even creating airtight seals for food storage.

Overall, self fusing silicone tape is a versatile and reliable product that can be used in a wide range of applications. Its unique properties make it a valuable tool for both industrial and home use, providing a strong and durable seal that can withstand high temperatures and harsh environments. Whether you're a professional in need of a reliable repair solution or a homeowner looking for a quick fix, self fusing silicone tape is the perfect choice.

### Customization:

#### Customized Service for Self Fusing Silicone Tape

Our Self Fusing Silicone Tape is the perfect solution for all your heat-resistant needs. With an HS code of 40082100, this tape is designed to withstand high temperatures and provide long-lasting durability. Available in a sleek black color, it is made from our premium Self Fusing Silicone material, ensuring the best quality for your projects.

Our tape comes in a width of 1 inch, making it versatile for various applications. But what sets our product apart is its unique non-tacky feature, making it easy to handle and apply without leaving any sticky residue.

With our Waterproof Silicone Wrapping Tape, you can confidently use it in any weather condition, as it provides excellent water resistance. It also has a stretchable property, allowing it to conform to any shape for a secure and tight seal.

Our Stretchable Silicone Repair Tape is a must-have for any DIY enthusiast or professional. It is suitable for a wide range of uses, from electrical insulation and plumbing repairs to automotive maintenance and more. It is a versatile and reliable solution for all your heat-resistant needs.

Choose our Self Fusing Silicone Tape and experience the best quality, durability, and customization for your projects. Trust us to provide the perfect solution for your specific needs. Order now and see the difference it makes!

### Packing and Shipping:

## Packaging and Shipping

The Self Fusing Silicone Tape is carefully packaged to ensure safe and intact delivery to our customers. Each roll of tape is wrapped in a plastic sleeve and then placed in a sturdy cardboard box with protective foam inserts.

#### Packaging Details

Roll length: 5 meters

Roll width: 25mm or 50mm

Roll weight: 0.2kg

Box dimension: 15cm x 15cm x 6cm

Box weight: 0.5kg

Our packaging is designed to prevent any damage to the tape during transit. We also offer custom packaging options for bulk orders and

special requests.

#### Shipping

We offer worldwide shipping for our Self Fusing Silicone Tape. Our standard shipping options include:

Standard Shipping: 7-15 business days

Expedited Shipping: 3-5 business days

For larger orders, we also offer sea freight and air freight options for more cost-effective shipping. Customers can choose their preferred shipping method during checkout.

Once your order is shipped, you will receive a tracking number and updates on the delivery status. Please note that shipping times may vary depending on your location and any potential customs delays.

For any inquiries or concerns regarding packaging or shipping, please contact our customer service team. We are committed to providing a smooth and hassle-free shopping experience for our customers.
