

Black Self Fusing Silicone Tape Waterproof Insulation Electrical Connector Tape

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Adhesion Strength: High
- Waterproof: Yes
- Uv Resistant: Yes
- Hs Code: 40082100
- Application: Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.
- Material: Self Fusing Silicone
- Width: 2Inch
- Feature: Heat-Resistant
- Highlight: **Black Self Fusing Silicone Tape,
Self Fusing Silicone Tape Insulation,
Waterproof Electrical Connector Tape**

Product Description

Product Description:

Self Fusing Silicone Tape

This 1 inch wide silicone tape is a revolutionary product that is perfect for quick and easy repairs. Made from stretchable silicone material, it is self-sealing and can be used in a variety of applications.

Product Attributes:

Width: 2 Inch

UV Resistant: Yes

Dielectric Strength: 20KV/mm

Flexibility: High

Waterproof: Yes

Stretchable Silicone Repair Tape: This tape is designed to stretch and conform to any shape, making it perfect for repairing irregular surfaces or objects.

Self Sealing Silicone Tape: The tape has a self-fusing property, which means it bonds to itself without the need for any additional adhesive. This makes it easy to use and mess-free.

Waterproof Silicone Wrapping Tape: The tape is waterproof, making it ideal for outdoor use or for repairing items that are exposed to moisture.

High Flexibility and UV Resistant Adhesive Tape: The tape is highly flexible, allowing it to be used on curved or uneven surfaces without losing its adhesive properties. It is also UV resistant, making it suitable for both indoor and outdoor use.

Whether you need to repair a leaky pipe, fix a torn hose, or seal a cracked surface, this Self Fusing Silicone Tape is the perfect solution. Its versatility and strength make it a must-have for any household, workshop, or emergency kit. Don't wait for a small problem to turn into a big one, get your hands on this amazing product today!

Features:

Product Name: Self Fusing Silicone Tape

Feature: Heat-Resistant

Width: 2 Inch

Temperature Resistance: Up To 500°F

Flexibility: High

UV Resistant: Yes

Insulating Self Fusing Tape

Self Adhesive Silicone Tape

Non-Tacky Silicone Tape

Technical Parameters:

Classification	Inorganic Insulation Material
Maximum Voltage	35kv
Flexibility	High
Dielectric Strength	20kv/mm
Adhesion Strength	High
Hs Code	40082100
Feature	Heat-Resistant
Width	2 Inch
Uv Resistant	Yes
Color	Black
Product Name	Self Fusing Silicone Tape
Other Names	Self Sealing Silicone Tape, Stretchable Silicone Repair Tape, Silicone Self Amalgamating Tape
Classification	Inorganic Insulation Material
Maximum Voltage	35kv
Flexibility	High
Dielectric Strength	20kv/mm
Adhesion Strength	High
Hs Code	40082100
Feature	Heat-Resistant

Width	2Inch
Uv Resistant	Yes
Color	Black

Applications:

Self Fusing Silicone Tape

Self Fusing Silicone Tape is a revolutionary product that is designed to provide a strong and reliable solution for all your sealing and bonding needs. This versatile tape is perfect for various applications and is highly recommended for its waterproof and inorganic insulation properties. With its unique self-sealing and self-bonding abilities, this tape is a must-have for any household, workshop, or outdoor adventure.

Waterproof

Say goodbye to troublesome water leaks and damages with Self Fusing Silicone Tape. This tape is specially designed to be waterproof, making it perfect for outdoor use and for sealing pipes, hoses, and other water-related applications. Whether you're repairing a leaky hose or sealing a damaged roof, this tape will provide a strong and durable seal that can withstand even the harshest weather conditions.

Classification

Self Fusing Silicone Tape is classified as an inorganic insulation material, which means it is made of non-organic substances that provide excellent insulation properties. This makes the tape suitable for use in electrical applications, as it can withstand high temperatures and has a maximum voltage of 35kv. So whether you're repairing a wire or insulating a cable, this tape will provide a reliable and safe solution.

Length and Width

Each roll of Self Fusing Silicone Tape measures 10 feet in length and 1 inch in width. This makes it perfect for various applications, as it provides enough tape to cover a large surface area while still being manageable and easy to use. Whether you need to seal a small crack or cover a larger area, this tape has got you covered.

Self Sealing and Self Bonding

The most unique and convenient feature of Self Fusing Silicone Tape is its self-sealing and self-bonding abilities. This means that the tape will bond to itself when wrapped around an object, creating a strong and watertight seal without the need for adhesives. This also means that there will be no residue left behind when the tape is removed, making it easy to clean up and reuse.

Applications and Scenarios

Self Fusing Silicone Tape is a versatile product that can be used in a wide range of applications and scenarios. Its waterproof and inorganic insulation properties make it perfect for outdoor adventures, such as camping, hiking, and boating. It can also be used for household repairs, such as sealing leaks, repairing broken objects, and insulating wires. In a workshop, this tape can be used for repairing tools, securing pipes, and protecting electrical connections. The possibilities are endless with this powerful and reliable tape.

Conclusion

In conclusion, Self Fusing Silicone Tape is a must-have product for anyone looking for a strong and reliable solution for sealing and bonding. Its waterproof and inorganic insulation properties, along with its self-sealing and self-bonding abilities, make it perfect for various applications and scenarios. With a length of 10 feet and a width of 1 inch, this tape provides enough coverage while still being manageable and easy to use. Say goodbye to messy and ineffective adhesives and switch to the convenient and powerful Self Fusing Silicone Tape.

Customization:

Customized Services for Self Fusing Silicone Tape

HS Code: 40082100

Length: 10 Feet

Flexibility: High

Application: Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.

Temperature Resistance: Up To 500°F

Key Words: Self Sealing Silicone Tape, Self Amalgamating Silicone Tape, Heat Resistant Silicone Tape, Waterproof Silicone Tape, Customized Services

Our Self Fusing Silicone Tape is a versatile and reliable solution for a variety of applications. With our customized services, we can tailor the tape to meet your specific needs and requirements.

Our Self Sealing Silicone Tape is made of high-quality silicone material that has excellent self-fusing and self-amalgamating properties. This allows the tape to create a strong and permanent bond without the need for any additional adhesive.

With our Customized Services, we can adjust the length of the tape to fit your specific project. Whether you need a longer or shorter length, we can provide you with the perfect size.

The flexibility of our Self Fusing Silicone Tape allows it to conform to any shape or surface, making it ideal for various applications such as electrical insulation, pipe repair, and emergency hose repair.

Our Heat Resistant Silicone Tape can withstand temperatures up to 500°F, making it suitable for use in high-temperature environments. It is also waterproof, making it perfect for outdoor and marine applications.

At [Company Name], we understand that every project is unique and requires a personalized approach. That's why we offer customized services for our Self Fusing Silicone Tape to meet your specific needs and specifications. Contact us today to learn more about our customized services and how we can assist you with your next project.

Packing and Shipping:

Packaging and Shipping for Self Fusing Silicone Tape

Our Self Fusing Silicone Tape is packaged and shipped with care to ensure its safe arrival at your doorstep. Here's what you can expect when you order:

Packaging:

The tape is wrapped in a plastic bag to protect it from dust and moisture.

The bag is then placed in a sturdy cardboard box to prevent any damage during shipping.

The box is sealed with strong packing tape to keep the contents secure.

Shipping:

We offer fast and reliable shipping options to get your Self Fusing Silicone Tape to you as quickly as possible.

For domestic orders, we use USPS First Class or Priority Mail, depending on the weight and size of the package.

For international orders, we use USPS International Priority Mail or DHL Express, depending on the destination.

Tracking information will be provided for all orders so you can keep an eye on your package's journey to you.

Our team takes great care in packaging and shipping your order to ensure it arrives in perfect condition. If you have any questions or concerns about your shipment, please don't hesitate to contact us.
