

## Green Colour Water-proof Insulation Self -fusing Silicone Tape for Cable Breakage Repair

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Color: Green
- Dielectric Strength: 400 V/mil
- Hs Code: 40082100
- Length: 10 Feet
- Uv Resistant: Yes
- Material: Self Fusing Silicone
- Waterproof: Yes
- Temperature Resistance: Up To 500°F
- Flame Retardant Grade: UL94-V0
- Highlight: **green self fusing silicone tape,  
green self fusing waterproof tape,  
insulation self fusing silicone tape**

Product Description

Product Description:

Self Fusing Silicone Tape

The Self Fusing Silicone Tape is a revolutionary product that has been designed to provide a quick and effective solution for various repair needs. This non-tacky silicone tape has the unique ability to fuse to itself, creating a strong and durable bond without the need for any external adhesive. With a high level of heat resistance, flexibility, and waterproof properties, this tape is suitable for a wide range of applications.

Feature: Heat-Resistant

The Self Fusing Silicone Tape is designed to withstand high temperatures, making it ideal for use in extreme environments. It has a maximum operating temperature of up to 500°F (260°C), ensuring that it remains intact and effective even in the most challenging conditions.

Flexibility: High

This self-adhesive silicone tape is highly flexible, allowing it to conform to any shape or surface. It can be stretched up to 300% of its original length, making it suitable for use on irregular surfaces. This flexibility also ensures that the tape is easy to apply and can be used for various repair purposes.

Classification: Inorganic Insulation Material

The Self Fusing Silicone Tape is made from inorganic materials that provide excellent insulation properties. It is highly resistant to moisture, chemicals, and UV rays, making it a durable and long-lasting solution for both indoor and outdoor use.

Application: Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.

Due to its high heat resistance and insulation properties, this tape is commonly used for electrical insulation purposes. It can also be used to repair pipes and hoses, providing a quick and effective solution for emergency situations. Additionally, the tape can be used for various other purposes, making it a versatile product to have on hand.

Maximum Voltage: 35kv

The Self Fusing Silicone Tape has a maximum voltage rating of 35kv, making it suitable for use in high voltage applications. It can be used to insulate wires, cables, and other electrical components, providing a safe and reliable solution for electrical repairs.

Overall, the Self Fusing Silicone Tape is a must-have product for any toolbox. Its self-fusing, non-tacky, and stretchable properties make it a convenient and effective solution for various repair needs. With its high heat resistance, waterproof features, and inorganic insulation material, this tape provides a long-lasting solution that can withstand even the most challenging conditions.

Features:

**Product Name:** Self Fusing Silicone Tape

**Temperature Resistance:** Up To 500°F

**UV Resistant:** Yes

**Adhesion Strength:** High

**Application:** Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.

**Color:** Green

**Key Features:**

Heat Resistant Silicone Tape

Waterproof Silicone Wrapping Tape

Insulating Self Fusing Tape

Technical Parameters:

Technical Parameter	Description
Waterproof	Yes
Material	Self Fusing Silicone
Adhesion Strength	High
Color	Green
Feature	Heat-Resistant
Length	10 Feet
Application	Electrical Insulation, Pipe Repair, Emergency Hose Repair, Etc.
Flexibility	High
Temperature Resistance	Up To 500°F
Maximum Voltage	35kv
Self Adhesive Silicone Tape	Yes
Self Bonding Silicone Tape	Yes
Stretchable Silicone Repair Tape	Yes

## Applications:

### Self Fusing Silicone Tape: The Versatile Solution for All Your Repair Needs

The Self Fusing Silicone Tape is a revolutionary product that combines the flexibility of a tape with the strength of silicone adhesive. Its unique self-bonding and self-amalgamating properties make it an indispensable tool for a wide range of applications, including household repairs, plumbing, automotive, and more. Designed to withstand extreme conditions, this tape is a must-have for any DIY enthusiast or professional tradesperson.

Flexibility: High

The Self Fusing Silicone Tape is highly flexible, allowing it to conform to any shape or surface. This makes it ideal for use in tight spaces or on irregular surfaces where traditional tapes may not be effective. Its flexibility also makes it easy to wrap around objects of different sizes, making it a versatile solution for a variety of repair needs.

Feature: Heat-Resistant

One of the most impressive features of the Self Fusing Silicone Tape is its ability to withstand high temperatures. With a temperature resistance of up to 500°F, this tape is perfect for use in applications where heat is a concern. It can be safely used on hot pipes, exhaust systems, and other high-temperature surfaces without melting or losing its adhesion strength.

Width: 2 Inch

The Self Fusing Silicone Tape comes in a standard width of 1 inch, making it easy to handle and apply. This width is perfect for most repair jobs and allows for a secure and tight seal. It can be easily cut to size for smaller repairs or layered for added strength and protection.

Temperature Resistance: Up To 500°F

This product is specifically designed to withstand high temperatures without losing its adhesion strength. Its unique silicone formula is heat-resistant up to 500°F, making it ideal for use in a variety of applications. Whether you need to repair a hot water pipe or seal a leaky exhaust, this tape has got you covered.

Adhesion Strength: High

The Self Fusing Silicone Tape has a strong adhesive that bonds instantly upon contact. Once applied, it forms a tight seal that is incredibly strong and durable. It can withstand extreme pressure and tension, making it suitable for use in heavy-duty applications such as automotive and industrial repairs.

Self Bonding Silicone Tape, Self Adhesive Silicone Tape, Self Amalgamating Silicone Tape

The Self Fusing Silicone Tape is often referred to as self-bonding, self-adhesive, or self-amalgamating tape due to its unique properties. This means that it bonds to itself without the need for any additional adhesive or heat source. Simply stretch and wrap the tape around the object you want to repair, and it will fuse together to form a strong and durable seal.

With its high flexibility, heat resistance, 1-inch width, and strong adhesion, the Self Fusing Silicone Tape is the go-to solution for all your repair needs. Keep a roll handy in your toolbox, garage, or kitchen, and you'll be prepared for any unexpected repairs that come your way. Get yours today and experience the versatility and convenience of this amazing product!

## Customization:

Customized Service for Self Fusing Silicone Tape

Our Self Fusing Silicone Tape is a top-quality, highly customizable product that offers superior performance and durability. Made from self fusing silicone material, it provides excellent adhesion strength and is completely waterproof, making it ideal for a variety of applications. With our customized service, you can tailor this Stretchable Silicone Repair Tape to meet your specific needs and requirements. Whether you need a specific length, width, or color, we can provide a solution that best suits your project.

Material: Self Fusing Silicone

Made from high-quality self fusing silicone, our tape offers superior strength and durability. It is flexible and stretchable, allowing it to conform to irregular shapes and surfaces for a secure and long-lasting bond.

Waterproof: Yes

Our Waterproof Silicone Wrapping Tape is designed to provide a reliable seal that can withstand exposure to water, moisture, and other harsh environmental conditions. It is perfect for use in outdoor and marine environments.

Adhesion Strength: High

Our Self Fusing Silicone Tape offers high adhesion strength, ensuring a strong and secure bond that can withstand extreme temperatures, pressure, and tension. It is suitable for use in various industries, including plumbing, electrical, and automotive.

Feature: Heat-Resistant

Our Heat Resistant Silicone Tape is capable of withstanding high temperatures without losing its adhesion or structural integrity. It is an ideal solution for applications that require heat resistance, such as automotive engine repairs, HVAC systems, and more.

Color: Black

This Self Fusing Silicone Tape is available in black, providing a sleek and professional look. However, we also offer custom color options for a more personalized touch.

Choose our customized service for your Self Fusing Silicone Tape needs and experience the best combination of quality, performance, and flexibility. Contact us today to discuss your requirements and receive a personalized quote.

## Packing and Shipping:

Packaging and Shipping

Packaging:

The Self Fusing Silicone Tape comes in a sturdy plastic case to ensure safe transportation and storage. The case is labeled with the product name, size, and usage instructions for easy identification. Each case contains one roll of the tape.

Shipping:

The Self Fusing Silicone Tape is shipped in a secure package to protect it from damage during transit. The package is labeled with the product name, size, and usage instructions for easy identification. The package also includes any necessary safety precautions for handling the tape.

We offer different shipping options to suit your needs, including standard ground shipping and expedited shipping for urgent orders.

Shipping costs may vary depending on the destination and shipping method selected.

For international orders, please note that additional customs fees and taxes may apply. These fees are the responsibility of the customer and may vary depending on the destination country.

## FAQ:

Q: What is the material of Self Fusing Silicone Tape?

A: The material of Self Fusing Silicone Tape is silicone rubber.

Q: Is it waterproof?

A: Yes, Self Fusing Silicone Tape is waterproof and can even be used underwater.

Q: How does it work?

A: Self Fusing Silicone Tape works by fusing to itself upon stretching, creating a strong and durable bond.

Q: Can it be used for electrical insulation?

A: Yes, Self Fusing Silicone Tape is an excellent insulator and can withstand high temperatures and electrical currents.

Q: Is it suitable for outdoor use?

A: Absolutely, Self Fusing Silicone Tape is UV resistant and can withstand extreme weather conditions.
