

## 25MM Width Red Colour Damping Anti-slip Self-fusing Silicone Tape for Rackets Handle

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Tear Resistant: Yes
- Width: 1 Inch
- Pressure Sensitive: Yes
- No Adhesive Required: Yes
- Flexible: Yes
- Hs Code: 40082100
- Easy To Use: Yes
- Highlight: 25mm self fusing silicone tape,  
25mm self fusing waterproof tape,  
red self fusing silicone tape

## Product Description

### Product Description:

The Self Fusing Silicone Tape is designed to be self-adhesive, which means it sticks to itself and not to the surface it is applied to. This feature makes it easy to apply and remove without leaving any residue or damaging the surface. The tape is also heat resistant which means it can withstand high temperatures without melting or breaking down, making it an ideal solution for automotive and industrial applications.

This Self Sealing Silicone Tape is tear-resistant, which means it can withstand abrasion, punctures, and other types of damage without tearing or breaking. This makes it an ideal solution for outdoor and marine applications where the tape may be exposed to harsh weather conditions and rough handling.

The Self Fusing Silicone Tape is also flexible, which means it can be easily wrapped around irregularly shaped objects and surfaces without losing its sealing properties. This feature makes it an excellent solution for sealing joints, seams, and gaps in a variety of applications.

The Self Fusing Silicone Tape is an excellent solution for DIY enthusiasts, plumbers, electricians, and anyone who needs a reliable and durable tape for sealing and protecting objects. It is easy to use and does not require any special tools or expertise. Simply wrap the tape around the object to be sealed, stretch it slightly, and press it down firmly to activate the self-sealing properties.

The Self Fusing Silicone Tape comes in a variety of colors and sizes to suit different applications and preferences. Whether you need a heat resistant silicone tape for automotive or industrial applications, or a tear-resistant and flexible tape for outdoor and marine applications, this product is an excellent choice.

Overall, the Self Fusing Silicone Tape is an excellent product that offers superior sealing and protection properties. Its self-adhesive and self-sealing properties make it easy to use and remove, while its tear-resistant, flexible, and heat-resistant properties make it an ideal solution for a variety of applications. So, if you're looking for a reliable and durable tape for sealing and protecting objects, the Self Fusing Silicone Tape is definitely worth considering.

### Features:

Product Name: Self Fusing Silicone Tape

Material: Silicone

HS Code: 40082100

Easy To Use: Yes

Color: Red

Width: 1 Inch

Features:

Self Adhesive Silicone Tape

Self Amalgamating Silicone Tape

Self Sealing Silicone Tape

### Technical Parameters:

Flexible	Yes
Insulating	Yes
Width	1 Inch
Adhesive Type	Self-fusing silicone
Tear Resistant	Yes
Pressure Sensitive	Yes
Classification	Inorganic Insulation Material
Color	Red
Material	Silicone
Adhesive	Silicone rubber

This is a Self Bonding Silicone Tape, also known as Self Amalgamating Silicone Tape or Self Sealing Silicone Tape.

### Applications:

This Waterproof Silicone Wrapping Tape is designed to be extremely heat-resistant, making it perfect for various applications where high temperatures are involved. The tape is made of tear-resistant silicone material that can withstand harsh environments, making it ideal for outdoor activities and industrial settings.

The Self Amalgamating Silicone Tape is an excellent choice for repairing hoses, electrical wires, and other items that require a quick fix. The tape fuses to itself, creating a strong, permanent bond that is virtually unbreakable. This makes it a versatile tool for both professionals and DIY enthusiasts.

One of the primary applications of this product is for sealing and protecting electrical connections. Due to its heat-resistant and waterproof properties, it is ideal for use in high-temperature environments, making it suitable for automotive, marine, and industrial applications. It can also be used to repair plumbing leaks, making it a must-have in every homeowner's toolbox.

The Self Amalgamating Silicone Tape is also perfect for outdoor activities such as camping and hiking. It can be used to repair tents,

sleeping bags, and other camping gear, making it an essential item for any outdoor enthusiast. Additionally, it can be used to create a non-slip grip on tools and handles, providing a secure and comfortable grip. In conclusion, the Self Amalgamating Silicone Tape from zhonglei is a revolutionary product that offers a range of benefits, including heat resistance, tear resistance, and no adhesive required. Its versatility makes it an ideal tool for various applications, and its waterproof properties make it perfect for outdoor activities. With an Hs Code of 40082100, this product is a must-have for anyone who needs a quick fix without the mess of traditional adhesives.

## Customization:

## Support and Services:

The Self Fusing Silicone Tape is a versatile and easy-to-use product that provides excellent electrical insulation and sealing properties. It is ideal for use in a wide range of applications, including automotive, marine, plumbing, and electrical. The tape is made of a special silicone compound that fuses to itself, forming a permanent bond without the need for additional adhesives. This makes it easy to apply and ensures a long-lasting, durable seal. The Self Fusing Silicone Tape is resistant to moisture, weather, and UV radiation, making it ideal for outdoor use. It can also withstand high temperatures, making it suitable for use in engines and other high-temperature applications. If you have any questions or concerns about the Self Fusing Silicone Tape, our technical support team is available to assist you. We can provide expert advice on how to use the product effectively and troubleshoot any issues you may encounter. In addition to technical support, we also offer a range of services to help you get the most out of your Self Fusing Silicone Tape. This includes training and consulting services to help you optimize your processes, as well as custom packaging and labeling options to meet your specific needs.

## Packing and Shipping:

### Product Packaging:

The Self Fusing Silicone Tape product comes in a compact and durable plastic packaging that is designed to protect the tape from damage during shipping and storage. The packaging includes clear instructions on how to use the product and safety precautions to ensure optimal usage.

### Shipping:

We offer fast and reliable shipping for our Self Fusing Silicone Tape product. Orders are typically processed within 24 hours and shipped via standard or expedited shipping options, depending on the customer's preference. We take great care in packaging our products to ensure they arrive at their destination in the same condition as when they left our facility.

## FAQ:

### Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a type of tape that fuses to itself to create a watertight seal without the need for adhesive. It is commonly used for electrical insulation, plumbing repairs, and automotive applications.

### Q: What makes zhonglei Self Fusing Silicone Tape different from other brands?

A: zhonglei Self Fusing Silicone Tape is made using high-quality silicone material, ensuring superior performance and durability. It is also manufactured in China, which helps to keep the cost affordable without compromising quality.

### Q: How do I use zhonglei Self Fusing Silicone Tape?

A: To use zhonglei Self Fusing Silicone Tape, first clean and dry the surface you want to apply it to. Then, stretch the tape to double its length and wrap it around the object, overlapping each layer by half. The tape will start to fuse to itself within minutes, creating a strong, permanent seal.

### Q: What are the temperature and pressure ratings for zhonglei Self Fusing Silicone Tape?

A: zhonglei Self Fusing Silicone Tape can withstand temperatures ranging from -60°C to 260°C and pressures up to 700 psi. It is also UV-resistant and can be used outdoors.

### Q: Is zhonglei Self Fusing Silicone Tape safe to use?

A: Yes, zhonglei Self Fusing Silicone Tape is safe to use. It is non-toxic, non-flammable, and resistant to chemicals and solvents. It also meets international safety standards for electrical insulation.
