

## Anti Slip Damping Silicone Self Fusing Waterproof Tape 25MM Width For Rackets Handle

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Color: Yellow
- Easy To Use: Yes
- Application: Damping Anti-slip For Rackets Handle
- Flexible: Yes
- Material: Silicone
- Width: 1 Inch
- Highlight: **Silicone Self Fusing Waterproof Tape ,  
Anti Slip Self Fusing Waterproof Tape**

## Product Description

### Product Description:

The Self Sealing Silicone Tape is a great option for anyone looking for a reliable and easy-to-use bonding solution. With its rubber adhesive, this tape is able to bond to a wide range of surfaces, making it ideal for everything from patching up leaky pipes to repairing damaged electrical wiring.

One of the standout features of our Self Bonding Silicone Tape is its tear-resistant design. This means that it can withstand the wear and tear of everyday use, making it a great choice for those who need a tape that can stand up to heavy use.

In addition to its bonding and tear-resistant properties, our No-Residue Self Fusing Tape is also highly insulating. This makes it an ideal choice for use in electrical applications, as it can help protect against electrical shocks and shorts.

So whether you're a professional repair person or just need a reliable tape for DIY projects around the house, our Self Fusing Silicone Tape is the perfect choice. With its pressure sensitive adhesive, tear-resistant design, and insulating properties, it's sure to become a go-to tool in your toolbox.

### Features:

Product Name: Self Fusing Silicone Tape

No Adhesive Required: Yes

Easy To Use: Yes

Adhesive Type: Self-fusing silicone

Classification: Inorganic Insulation Material

Pressure Sensitive: Yes

Waterproof Silicone Wrapping Tape

Stretchable Silicone Repair Tape

No-Residue Self Fusing Tape

### Technical Parameters:

Product Name:	Self Bonding Silicone Tape
Width:	1 Inch
Adhesive:	Rubber
Classification:	Inorganic Insulation Material
Flexible:	Yes
Color:	Yellow
Adhesive Type:	Self-fusing silicone
No Adhesive Required:	Yes
Insulating:	Yes
Feature:	Heat-Resistant
Easy To Use:	Yes
Additional Features:	No-Residue Self Fusing Tape, Waterproof Silicone Wrapping Tape

### Applications:

One of the most notable features of this tape is its heat resistance, which makes it an ideal choice for use in applications where high temperatures are present. This makes it perfect for use in automotive and industrial settings, as well as in household repairs and maintenance. The tape is also highly tear-resistant, which means it can withstand heavy use and wear without breaking down or losing its effectiveness.

The zhonglei Self Fusing Silicone Tape is a pressure-sensitive adhesive type, which means it will adhere firmly to most surfaces, including metal, plastic, and rubber. This makes it ideal for use in a wide range of scenarios, including fixing leaks, sealing pipes, insulating wires, and more.

One of the most common applications for this tape is as a waterproof silicone wrapping tape. The tape is highly stretchable, which makes it easy to wrap around any surface, and its self-sealing properties ensure that it will provide a tight, waterproof seal. This makes it an ideal choice for use in marine and outdoor settings, as well as in household plumbing and other applications where water resistance is important.

Another common use for the zhonglei Self Fusing Silicone Tape is as a stretchable silicone repair tape. The tape can be used to repair a wide range of items, including hoses, wires, and other objects that require a flexible, but strong, repair solution. Its high tear-resistance also ensures that it will hold up over time, making it a reliable choice for long-term repairs.

In conclusion, the zhonglei Self Fusing Silicone Tape is a highly versatile and effective product that can be used in a wide range of application occasions and scenarios. Its heat resistance, tear-resistance, and pressure-sensitive adhesive make it an ideal choice for use in automotive, industrial, and household settings, while its waterproof and stretchable properties make it an excellent choice for marine, outdoor, and plumbing applications.

## Customization:

## Support and Services:

Our Self Fusing Silicone Tape is designed to provide high-quality technical support and services to ensure that our customers can use the product effectively and efficiently. Our technical support team is available to answer any questions you may have about the product's specifications, applications, and usage guidelines. We also offer a range of services to help you optimize the performance of the product, including installation assistance, troubleshooting, and repair services.

Our technical support and services are backed by our commitment to quality, reliability, and customer satisfaction. We strive to provide prompt and professional assistance to help you get the most out of our Self Fusing Silicone Tape product. Whether you need help with product selection, installation, or maintenance, we are here to help.

## Packing and Shipping:

Product Packaging:

Length: 10 meters

Width: 25mm

Thickness: 0.5mm

Color: Yellow

## FAQ:

### Q: What is self fusing silicone tape?

A: Self fusing silicone tape is a type of tape made from silicone rubber that fuses to itself, creating a strong, permanent seal. It is commonly used in electrical and plumbing applications.

### Q: What are the benefits of using zhonglei self fusing silicone tape?

A: Zhonglei self-fusing silicone tape is made in China and is a high-quality product that is durable, heat-resistant, and waterproof. It is also easy to use and can be applied quickly without the need for any special tools or equipment.

### Q: What are some common uses for self fusing silicone tape?

A: Self fusing silicone tape is often used in electrical and plumbing applications to create a waterproof seal around wires, cables, and pipes. It can also be used to repair hoses, pipes, and other equipment.

### Q: How do I apply self fusing silicone tape?

A: To apply self fusing silicone tape, first clean and dry the surface to be sealed. Then, stretch the tape to about double its length and wrap it tightly around the object, overlapping each layer by at least half the width of the tape. The tape will fuse to itself within a few minutes, creating a strong, permanent seal.

### Q: Is zhonglei self fusing silicone tape safe to use?

A: Yes, zhonglei self fusing silicone tape is safe to use. It is made from high-quality silicone rubber that is non-toxic and does not contain any harmful chemicals. It is also heat-resistant and can withstand temperatures up to 260°C.
