Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Flexible: Yes
- Tear Resistant: Yes
- Easy To Use: Yes
- Classification: Inorganic Insulation Material
- Adhesive: Rubber
- No Adhesive Required: Yes
- Hs Code: 40082100
- Feature: Heat-Resistant
- Highlight: **self fusing silicone tape Heat Resistant,
self fusing waterproof tape Heat Resistant,
blue self fusing silicone tape**

Product Description

Product Description:

Made from high-quality silicone material, this Heat Resistant Silicone Tape is designed to withstand extreme temperatures and harsh weather conditions. With its unique self-amalgamating properties, it can create a strong bond that is resistant to water, oil, and chemicals. It is perfect for use in a variety of applications, including automotive, plumbing, electrical, and more.

The Adhesive used in this Self Fusing Silicone Tape is made from rubber and is pressure sensitive, which means that it will stick to itself when wrapped around an object. This creates a strong bond that is resistant to vibration and shock, making it perfect for use in applications where durability is a must.

Whether you need to create a waterproof seal, repair a broken hose, or insulate a wire, our Self Fusing Silicone Tape is the perfect tool for the job. It is highly flexible, making it easy to wrap around any object, and can be cut to any length, making it easy to customize to your specific needs.

In summary, our Self Fusing Silicone Tape is a versatile and reliable tool that can be used for a variety of applications. Its unique self-amalgamating properties, combined with its heat resistance and pressure-sensitive adhesive, make it the perfect solution for creating a permanent and durable seal. So, whether you're a professional mechanic or a DIY enthusiast, our Self Fusing Silicone Tape is a must-have for your toolbox.

Features:

Product Name: Self Fusing Silicone Tape

Feature: Heat-Resistant

Adhesive Type: Self-fusing silicone

Classification: Inorganic Insulation Material

Adhesive: Silicone rubber

Hs Code: 40082100

Also known as: Self Amalgamating Silicone Tape, Self Sealing Silicone Tape, No-Residue Self Fusing Tape

Technical Parameters:

Tear Resistant	Yes
Adhesive Type	Self-fusing silicone
Adhesive	Rubber
No Adhesive Required	Yes
Width	1 Inch
Flexible	Yes
Material	Silicone
Feature	Heat-Resistant
Classification	Inorganic Insulation Material
Insulating	Yes

This is a Self Sealing Silicone Tape, Insulating Self Fusing Tape, and Heat Resistant Silicone Tape.

Applications:

One of the key features of this self bonding silicone tape is its heat-resistant properties. This makes it an excellent choice for repairing items that are exposed to high temperatures, such as automotive parts, electrical wires, and plumbing fixtures. Its ability to withstand high temperatures also makes it a popular choice for use in industrial settings.

The black color of the Zhonglei No-Residue Self Fusing Tape makes it a great choice for use in outdoor settings, as it blends in well with most surroundings. This product is also waterproof, which makes it an excellent choice for repairing items that are exposed to moisture, such as hoses, pipes, and outdoor equipment.

Some of the occasions and scenarios where the Zhonglei No-Residue Self Fusing Tape can be used include:

Repairing electrical wires and cables

Fixing pipes and hoses

Sealing leaks in plumbing fixtures

Repairing automotive parts

Fixing tools and equipment

Damping Anti-slip for Rackets Handle

Overall, the Zhonglei No-Residue Self Fusing Tape is an excellent product for anyone who needs a reliable and easy-to-use solution for repair work. Its heat-resistant properties, waterproof design, and no-adhesive-required features make it a versatile and practical choice for a wide range of occasions and scenarios.

Customization:

Support and Services:

The Self Fusing Silicone Tape product comes with comprehensive technical support and services to ensure you get the most out of your purchase. Our team of experts are available to assist you with any questions or issues you may have regarding the product.

Our technical support includes:

Assistance with installation and operation

Troubleshooting and issue resolution

Product maintenance and repair

Guidance on best practices and usage

In addition, we offer a range of services to help you maximize the value of your Self Fusing Silicone Tape product:

Training and education on product usage and maintenance

Customized solutions to meet your specific needs

Consultation and recommendations on product applications

Product upgrades and enhancements

At Self Fusing Silicone Tape, we are committed to providing exceptional technical support and services to our valued customers.

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape comes in a sturdy plastic case that provides maximum protection during shipping and storage. The case is designed to keep the tape dry and protected from any damage.

Shipping:

The Self Fusing Silicone Tape is shipped in a secure and durable cardboard box that ensures the product arrives at its destination in perfect condition. The box is labeled with the product name and includes handling instructions to prevent any mishandling during transport.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a unique adhesive tape that fuses to itself to create a permanent seal without the need for any additional adhesive.

Q: What is it made of?

A: Our Self Fusing Silicone Tape is made of high-quality silicone rubber, which provides excellent insulation properties and is resistant to heat, water, and chemicals.

Q: What are the applications of Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape can be used for a variety of applications such as electrical insulation, sealing and repair of plumbing, automotive, and marine applications.

Q: Is it easy to use?

A: Yes, it is very easy to use. Simply wrap the tape around the object you want to seal or repair and stretch it slightly as you wrap it. The tape will stick to itself and create a strong, permanent seal.

Q: Where is Zhonglei Self Fusing Silicone Tape made?

A: Zhonglei Self Fusing Silicone Tape is made in China, where we use only the highest quality materials and manufacturing processes to ensure the best possible product.
