

Flexible Grey Colour Self Fusing Silicone Tape Pressure Sensitive For Diving Equipment

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Easy To Use: Yes
- Hs Code: 40082100
- Adhesive: Silicone Rubber
- Color: Grey
- Flexible: Yes
- Tear Resistant: Yes
- Pressure Sensitive: Yes
- Material: Silicone
- Highlight: **self fusing silicone tape Pressure Sensitive,
Flexible self fusing waterproof tape,
silicone self fusing waterproof tape**

Product Description

Product Description:

The Stretchable Silicone Repair Tape is made from high-quality silicone material, which makes it highly tear-resistant and able to handle extreme temperatures. It is perfect for use in automotive, electrical, and plumbing applications, as it can withstand heat, cold, and moisture without losing its effectiveness.

One of the best features of this product is its ability to create a tight seal around any surface it is applied to. It can be easily wrapped around pipes, hoses, and other objects, providing a secure and long-lasting seal that will not break down over time. This makes it an excellent choice for use in harsh environments, where other types of tapes may fail.

The Self Sealing Silicone Tape is also highly stretchable, which allows it to conform to any shape or size. This makes it an excellent solution for repairing irregularly shaped objects, such as pipes and hoses, as it can be easily molded to fit the contours of the object. It is also highly flexible, which allows it to move and bend with the object without losing its seal.

Another great feature of this product is its ability to withstand extreme temperatures. It is heat-resistant, making it an excellent choice for use in high-temperature applications, such as automotive and industrial applications. It can also handle cold temperatures, making it an ideal choice for use in refrigeration and HVAC systems.

In summary, the Self Sealing Silicone Tape is an excellent choice for any type of repair job that requires a strong and durable solution. Its tear-resistant, pressure-sensitive, and heat-resistant properties make it an ideal choice for use in automotive, electrical, and plumbing applications. It is also highly stretchable and flexible, allowing it to conform to any shape or size, making it an excellent solution for repairing irregularly shaped objects. If you are looking for a reliable and effective solution for your repair needs, the Self Sealing Silicone Tape is an excellent choice.

Features:

Product Name: Self Fusing Silicone Tape

Tear Resistant: Yes

Color: Black

Material: Silicone

Feature: Heat-Resistant

Width: 1 Inch

Introducing our Waterproof Silicone Wrapping Tape, perfect for all your repair needs. This Tear Resistant tape is made with high-quality Silicone material that can withstand high temperatures. Its Heat Resistant feature makes it ideal for electrical insulation and cable repairs. This Stretchable Silicone Repair Tape is also perfect for sealing pipes, hoses, and even outdoor equipment. Get your hands on our Self Fusing Silicone Tape now and experience its amazing capabilities.

Technical Parameters:

Product Name:	Self Fusing Silicone Tape
Classification:	Inorganic Insulation Material
Material:	Silicone
Color:	Grey
Width:	1 Inch
Flexible:	Yes
Pressure Sensitive:	Yes
Insulating:	Yes
No Adhesive Required:	Yes
Easy To Use:	Yes
HS Code:	40082100

Applications:

Plumbing: The self-fusing tape can be used to seal leaks or cracks in pipes. The pressure-sensitive tape will adhere to the surface and create a watertight seal.

Electrical: The insulating self-fusing tape can be used to cover exposed wires or electrical connections. The tape will protect against moisture and dust, ensuring that the connection remains safe and secure.

Automotive: The stretchable silicone repair tape can be used to fix leaks or cracks in hoses or pipes. It can also be used to wrap wires or cables, protecting them from heat and abrasion.

Outdoor: The flexible tape can be used to repair camping or hiking equipment, such as tents, sleeping bags, or backpacks. It can also be used to wrap tools or equipment, providing a non-slip grip.

Home Improvement: The self-fusing tape can be used to seal leaks or cracks in gutters, downspouts, or roofs. It can also be used to wrap pipes or wires, protecting them from the elements.

Overall, the zhonglei Stretchable Silicone Repair Tape is a must-have tool for any DIY enthusiast or professional. Its easy-to-use design and pressure-sensitive adhesion make it a reliable solution for a wide range of applications. Whether you need to fix a leaky pipe or protect electrical connections, this product has got you covered.

Customization:

Customize your zhonglei Self Fusing Silicone Tape with our product customization services. Our Non-Tacky Silicone Tape is made from high-quality silicone material sourced from China, where the tape is also manufactured. With an Hs Code of 40082100, this Waterproof Silicone Wrapping Tape is perfect for repair work that requires a durable and long-lasting solution.

Our No-Residue Self Fusing Tape is designed with a rubber adhesive that makes it pressure-sensitive and easy to apply. With our customization services, you can choose from a range of colors and sizes to suit your needs. Whether you need a small roll for quick repairs or a larger roll for more extensive projects, we've got you covered.

Support and Services:

Our Self Fusing Silicone Tape product is designed to provide a strong and durable seal for a variety of applications. It is made of high-quality silicone rubber which fuses to itself when wrapped around an object, creating a permanent bond.

The tape is resistant to water, UV rays, and high temperatures, making it suitable for use in harsh environments. It is also highly elastic and can stretch up to 300% of its original length, allowing it to conform to irregular shapes and surfaces.

Our product technical support team is available to answer any questions you may have about the tape's properties and applications.

Additionally, we offer a range of services including customized packaging, private labeling, and product customization to meet specific customer needs.

Packing and Shipping:

The self fusing silicone tape comes in a compact roll that is easy to store and transport. The roll is 1 inch wide and 10 feet long, providing ample tape for multiple uses. The tape is wrapped in a protective plastic cover to prevent any damage during shipping or storage.

Shipping:

We offer free shipping on all orders of the self fusing silicone tape. We use reliable shipping carriers to ensure timely delivery. Once your order is processed, you will receive a tracking number to track the status of your shipment. We take pride in our fast and efficient shipping process to provide you with the best possible customer experience.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a high-quality, self-adhesive tape made of silicone rubber that can be used for a variety of purposes, including sealing, waterproofing, and insulation.

Q: What are the dimensions of the tape?

A: The tape is 1 inch wide and 10 feet long.

Q: Is the tape heat-resistant?

A: Yes, the tape is heat-resistant up to 500°F (260°C).

Q: Can the tape be used for electrical insulation?

A: Yes, the tape has excellent electrical insulation properties and can be used for electrical insulation up to 8,000 volts.

Q: Where is the product made?

A: The product is made in China by the brand zhonglei.
