

Black Water Proof Insulating Self Fusing Silicone Tape 25MM Width For Diving Equipment

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Adhesive: Rubber
- Easy To Use: Yes
- No Adhesive Required: Yes
- Color: Black
- Classification: Inorganic Insulation Material
- Width: 25mm
- Pressure Sensitive: Yes
- Hs Code: 40082100
- Highlight: **Water Proof Self Fusing Silicone Tape ,
Diving Equipment Self Fusing Silicone Tape ,
Insulating Self Fusing Tape 25MM**

Product Description

Product Description:

The Self Bonding Silicone Tape comes in a sleek black color, making it the ideal accessory for any setting. It is also highly flexible, allowing it to contour to any surface or shape without losing its strength or durability. This makes it the perfect option for use in a wide range of applications, including automotive, electrical, plumbing, and more.

One of the standout features of our Self Sealing Silicone Tape is its exceptional insulating properties. It is able to create an air and water-tight seal that can withstand extreme temperatures and harsh weather conditions. This makes it perfect for use in outdoor environments where moisture and other elements can cause damage to other types of tape.

Our Self Sealing Silicone Tape is the perfect solution for anyone looking for a high-quality, easy-to-use, and versatile product for all their repair work needs. Whether you need to seal a leaky pipe or fix a broken wire, this self-fusing tape is the perfect choice.

Features:

Product Name: Waterproof Silicone Wrapping Tape
Color: Black
Adhesive: Rubber
Adhesive Type: Pressure Sensitive
Feature: Heat-Resistant
Insulating: Yes
Type: Insulating Self Fusing Tape
Usage: Stretchable Silicone Repair Tape

Technical Parameters:

Technical Parameter	Description
Product Name	Non-Tacky Silicone Tape
Color	Black
Flexible	Yes
Insulating	Yes
Pressure Sensitive	Yes
Classification	Inorganic Insulation Material
Tear Resistant	Yes
Feature	Heat-Resistant
No Adhesive Required	Yes
Material	Silicone
Adhesive	Rubber
Product Name	Self Sealing Silicone Tape

Applications:

One of the key features of this product is its flexibility, allowing it to conform to any shape and size, making it easy to use and highly adaptable for different scenarios. Its heat-resistant feature also makes it ideal for high-temperature applications such as automotive, marine, and industrial settings.

Another advantage of the Self Fusing Silicone Tape is its self-amalgamating property, which means that it fuses to itself without leaving any residue. This feature makes it an excellent choice for quick and easy repairs, especially in emergency situations where time is of the essence.

The Self Fusing Silicone Tape is suitable for a wide range of product application occasions and scenarios, including but not limited to:

- Electrical wiring and cable splicing
- Plumbing and pipe repairs
- Sealing and protection of hoses and pipes in automotive and marine applications
- Insulating and protecting battery terminals
- Emergency repairs of leaking pipes, hoses, and fittings

With its easy-to-use and highly flexible properties, the Self Fusing Silicone Tape is an essential tool for any DIY enthusiast, electrician, plumber, mechanic, or anyone who needs a reliable and versatile tape for various applications.

Customization:

Keywords: Self Bonding Silicone Tape, Waterproof Silicone Wrapping Tape, Self Adhesive Silicone Tape

Support and Services:

Our Self Fusing Silicone Tape is a high-quality product designed to provide a reliable and long-lasting solution for all your sealing and insulation needs. It is made from high-performance silicone rubber that fuses to itself to create a strong and permanent bond without the need for any additional adhesive.

The tape is resistant to water, chemicals, UV radiation, and extreme temperatures, making it ideal for use in a wide range of applications, including automotive, plumbing, electrical, and HVAC. It can be used to seal leaks, insulate wires and cables, protect pipes and hoses, and much more.

Our technical support team is available to assist you with any questions or issues you may have with the product. We provide comprehensive product information, installation instructions, and troubleshooting advice to ensure that you get the most out of your Self Fusing Silicone Tape.

In addition, we offer a range of services to help you with your projects, including custom cutting, specialized packaging, and private labeling. Contact us to learn more about how we can help you meet your specific needs and requirements.

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape is packaged in a plastic bag with a resealable closure to keep the tape clean and dry. The bag also includes a product label with instructions for use and safety information.

Shipping:

The Self Fusing Silicone Tape is shipped in a sturdy cardboard box with cushioning material to prevent damage during transit. The box is labeled with the product name, quantity, and handling instructions to ensure safe delivery to the customer.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a non-adhesive, self-bonding silicone tape that creates a permanent, air and water tight seal.

Q: What is the thickness of the Self Fusing Silicone Tape?

A: The tape is 0.5mm thick.

Q: Is the Self Fusing Silicone Tape heat resistant?

A: Yes, it can withstand temperatures up to 500°F (260°C).

Q: Where is the Self Fusing Silicone Tape made?

A: The tape is made in China by the brand Zhonglei.

Q: Can the Self Fusing Silicone Tape be used on electrical wires?

A: Yes, it is ideal for electrical insulation and can be used on wires and cables up to 8kV.
