### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Supply Ability: 50000 Rolls per month

### Product Specification

- No Adhesive Required: Yes
- Color: Red
- Flexible: Yes
- Hs Code: 40082100
- Tear Resistant: Yes
- Pressure Sensitive: Yes
- Easy To Use: Yes
- Width: 1 Inch
- Highlight: **Tear Resistant self fusing silicone tape,  
self fusing waterproof tape 25mm,  
red self fusing silicone tape**

## Product Description

### Product Description:

One of the biggest advantages of this Self Amalgamating Silicone Tape is that it is tear-resistant. This means that it can withstand even the toughest conditions and won't easily break or rip. This is especially important when you are using it on something that is going to be exposed to water or other harsh elements.

The adhesive used in this Rubber Silicone Tape is incredibly strong and will not come loose over time. This means that once you wrap it around something, it is going to stay in place for the long haul. This is especially important if you are using it to seal up a leak or protect something from moisture.

Overall, the Waterproof Silicone Wrapping Tape is a high-quality, versatile tape that every DIY enthusiast should have in their toolbox. It is incredibly easy to use, tear-resistant, and features a durable rubber adhesive. Whether you are using it for plumbing repairs, electrical work, or just to keep your tools organized, this Self Sealing Silicone Tape is sure to get the job done.

### Features:

Product Name: Self Fusing Silicone Tape

Flexible: Yes

Color: Red

Material: Silicone

No Adhesive Required: Yes

Application: For Diving Equipment Marks and Repair

Features:

No-Residue Self Fusing Tape

Non-Tacky Silicone Tape

Waterproof Silicone Wrapping Tape

### Technical Parameters:

Hs Code	40082100
Adhesive	Rubber
Width	1 Inch
Pressure Sensitive	Yes
No Adhesive Required	Yes
Insulating	Yes
Classification	Inorganic Insulation Material
Flexible	Yes
Color	Red
Feature	Heat-Resistant

### Applications:

One of the key features of this product is its ease of use. It can be applied without any special tools or equipment, making it a convenient choice for both professionals and DIY enthusiasts. Its self-adhesive property eliminates the need for messy adhesives, ensuring a clean and hassle-free application.

The Self Bonding Silicone Tape is highly flexible, allowing it to conform to any shape or contour. This makes it ideal for use in a variety of applications, including electrical, plumbing, and automotive repairs. Its heat-resistant feature also makes it suitable for use in high-temperature environments, providing reliable protection against heat and fire.

Another benefit of this product is its no-residue self-fusing tape. Once applied, it fuses to itself to create a strong and permanent bond, without leaving any sticky residue behind. This ensures a neat and professional look, making it a popular choice among professionals. The Self Bonding Silicone Tape is available in black, making it discreet and suitable for use in a variety of settings. Its versatility and durability make it a must-have in any repair kit or toolbox.

Some common application occasions and scenarios where this product can be used include:

Repairing hoses, pipes, and tubing

Fixing electrical wires and cables

Sealing leaks in plumbing systems

Mending damaged automotive parts

Securing and protecting outdoor cables and wires

Overall, the Self Bonding Silicone Tape is a reliable and effective solution for all your repair needs. Whether you're a professional or a DIY enthusiast, this product is easy to use and will provide long-lasting results.

## Customization:

Choose from our standard black color and take advantage of its self amalgamating properties to create a tight seal. This tape is perfect for quick fixes and can be customized to fit your specific needs.  
The zhonglei Self Fusing Silicone Tape has an HS Code of 40082100 and is a great option for those looking for a long-lasting and reliable tape for repair work.

## Support and Services:

Our Self Fusing Silicone Tape is a high-performance product designed to provide a reliable and durable solution for a wide range of applications. Our technical support team is available to assist with any questions you may have regarding the product's performance, installation, or maintenance.

We offer a range of services to ensure that our Self Fusing Silicone Tape meets your specific needs. These services include:

Customized product design and development

Technical consulting and support

On-site product training

Product testing and validation

Warranty services

Our team of experts is committed to providing you with the highest level of service and support. Contact us today to learn more about how we can help you with your Self Fusing Silicone Tape needs.

## Packing and Shipping:

Product Packaging:

Each roll of Self Fusing Silicone Tape is individually packaged in a plastic bag to protect it from dust and moisture.

The roll is then placed in a cardboard box with clear labeling for easy identification.

Shipping:

All orders for Self Fusing Silicone Tape will be shipped within 24 hours of purchase.

We use standard shipping methods to deliver your product to you in a timely and cost-effective manner.

Tracking information will be provided to you as soon as your order is shipped so you can keep track of its progress.

## FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a versatile and durable silicone rubber tape that fuses to itself to create a strong, waterproof, and airtight seal. It is ideal for repairing, sealing, and protecting a wide range of surfaces and objects.

Q: What are the benefits of using Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is easy to use, has excellent electrical insulation properties, and is resistant to weathering, heat, and chemicals. It can be used in a variety of applications, including plumbing, automotive, electrical, and marine.

Q: How do I use Self Fusing Silicone Tape?

A: To use Self Fusing Silicone Tape, simply clean and dry the surface to be repaired or protected, wrap the tape around the object, and stretch it slightly as you wrap to ensure a tight seal. The tape will fuse to itself within 24 hours to create a permanent bond.

Q: What are the specifications of Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is 0.5mm thick, 25mm wide, and 3m long. It is temperature resistant up to 260°C and has a tensile strength of 700psi.

Q: Where is Self Fusing Silicone Tape made?

A: Self Fusing Silicone Tape is made by zhonglei in China.
