

Gray Silicone Sponge Foam Sheet UL94-V0 Shock Absorption For Electric Vehicles

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Minimum Order Quantity: 300 m²
- Packaging Details: carton
- Supply Ability: 20000

Product Specification

- Sample: Fee
- Compression Set: 10-50%
- Uv Resistance: Good
- Processing Service: Moulding, Cutting
- Advantage: Flexible And Strong Resilience
- Usage: Sealing
- Design Printing: No Printing
- Flame Retardant: UL94-V0
- Highlight: **Silicone Sponge Foam Shock Absorption, Electric Vehicles Silicone Sponge Foam, Gray Silicone Sponge Sheet**

Product Description

Product Description:

The adhesive type of this Silicone Sponge Foam product is Pressure Sensitive, which means that it can easily adhere to different surfaces without the need for additional adhesives. This attribute makes it a perfect choice for applications that require a quick and easy installation process. It is also highly resistant to UV radiation, making it suitable for outdoor applications that are exposed to sunlight and other environmental factors. This Silicone Foam Insulation product is perfect for sealing and insulating HVAC systems, electrical enclosures, and other equipment that requires protection against moisture and dust.

The Silicone Sponge Foam product has a high elongation capability, ranging from 100-600%. This attribute makes it an excellent choice for applications that require a high degree of flexibility and durability. It can easily conform to irregular surfaces and maintain its sealing and insulation properties even under extreme temperatures. This product has a temperature performance range of -60~+280°C, which means that it can operate in both high and low temperatures without losing its sealing and insulation properties.

One of the best things about this Silicone Sponge Foam product is that it comes with a free sample. This allows customers to test the product before purchasing it in bulk, ensuring that they get the best value for their money. The sample is an excellent way to gauge the quality of the product and determine if it meets the specific needs of the application. Overall, the Silicone Sponge Foam product is an excellent choice for anyone looking for a reliable and durable sealing and insulation solution.

Features:

Product Name: Silicone Sponge Foam

Port: Shanghai

Advantage: Flexible And Strong Resilience

Compression Set: 10-50%

Adhesive Type: Pressure Sensitive

Processing Service: Moulding, Cutting

Available in Silicone Foam Tube, Silicone Foam Sheet, and Silicone Sponge Cushion

Technical Parameters:

Product Attribute	Value
Product Name	Silicone Sponge Cushion
Material	Silicone Rubber Sponge Foam
Compression Set	10-50%
Design Printing	No Printing
Adhesive Type	Pressure Sensitive
Advantage	Flexible And Strong Resilience
Weather Resistance	Excellent
Usage	Sealing
UV Resistance	Good
Processing Service	Moulding, Cutting
Sample	Fee

Applications:

One of the most popular uses for the Silicone Sponge Foam product is for sealing purposes. Its compression set of 10-50% makes it ideal for creating a tight seal between two surfaces, making it useful for both industrial and household applications. Whether you need to seal a leaky pipe or prevent air and water from entering your home, the Silicone Sponge Foam product is up to the task.

Another great application for the Silicone Sponge Foam product is in the form of Silicone Foam Tubes. These tubes are perfect for use in construction projects, especially those involving HVAC systems. The silicone foam provides excellent insulation properties, helping to regulate temperature and prevent energy loss. Its chemical resistance also makes it ideal for use in harsh environments, such as chemical processing plants and oil refineries.

If you're looking for a versatile sealing material, the Silicone Foam Sheet is definitely worth considering. It can be easily cut to size and used to seal a variety of surfaces, including doors, windows, and even electrical enclosures. Its excellent chemical resistance makes it ideal for use in industrial settings, where exposure to harsh chemicals is common.

Overall, the Silicone Sponge Foam product from Zhonglei is a reliable and effective sealing material that can be used in a variety of product application occasions and scenarios. Whether you need to seal a leaky pipe, insulate your HVAC system, or protect your electronics from water and dust, the Silicone Sponge Foam product is up to the task.

Customization:

Support and Services:

The Silicone Sponge Foam product is designed to provide excellent sealing and cushioning properties. Our technical support team is available to assist with any product inquiries, such as material compatibility, performance expectations, and installation methods. Additionally, we offer a range of services to ensure that our customers receive the best possible experience with our product, including customized product design, prototyping, and testing. Our team of experts is dedicated to providing prompt and efficient service to meet your needs.

Packing and Shipping:

Product Packaging:

The Silicone Sponge Foam product will be packed in a clear plastic bag.
The bag will be sealed to ensure the product is protected during shipping.
The bag will be placed in a sturdy cardboard box to prevent any damage during transportation.

Shipping:

The Silicone Sponge Foam product will be shipped within 2 business days of placing the order.
We offer free standard shipping on all orders within the United States.
Shipping outside of the United States may incur additional fees.
We use trusted shipping carriers to ensure your order arrives in a timely and secure manner.

FAQ:

- Q: What is the brand name of the silicone sponge foam product?
A: The brand name of the product is zhonglei.
Q: Where is the silicone sponge foam product manufactured?
A: The product is manufactured in China.
Q: What is the material of the silicone sponge foam product?
A: The product is made of silicone material.
Q: What are the dimensions of the silicone sponge foam product?
A: The dimensions of the product are [insert dimensions]
Q: What is the maximum temperature resistance of the silicone sponge foam product?
A: The product has a maximum temperature resistance of [insert temperature].
