

1 Inch 25MM Width Green Damping Anti slip Self fusing Silicone Tape for Golf Club Handles

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Pressure Sensitive: Yes
- Classification: Inorganic Insulation Material
- Material: Silicone
- Easy To Use: Yes
- No Adhesive Required: Yes
- Width: 1 Inch
- Highlight: **Golf Club self fusing silicone tape,
1 Inch self fusing waterproof tape,
green self fusing silicone tape**

Product Description

Product Description:

This tape is also highly insulating, providing a protective layer for electrical wiring and cables. It can withstand high temperatures and is resistant to moisture, ensuring a long-lasting and durable repair. With a width of 1 inch, this tape is perfect for various applications and can be easily cut to size depending on your repair needs.

The Self Fusing Silicone Tape is also referred to as Self Sealing Silicone Tape, Self Bonding Silicone Tape, and Self Adhesive Silicone Tape. It is a versatile product that can be used for a variety of repair work, including in the automotive, plumbing, and electrical industries. Whether you need to fix a leaky pipe or repair damaged electrical wiring, the Self Fusing Silicone Tape is the perfect tool for the job. It is easy to use and requires no special skills or tools. Simply wrap the tape around the damaged area and watch as it bonds to itself, creating a tight seal that will last for years to come.

Invest in the Self Fusing Silicone Tape today and make sure you always have a reliable solution for any repair work that comes your way. With its high-quality design and reliable performance, this tape is the perfect addition to any toolbox or repair kit.

Features:

Product Name: Self Fusing Silicone Tape

Width: 1 Inch

Material: Silicone

Classification: Inorganic Insulation Material

Features:

Waterproof Silicone Wrapping Tape

Insulating Self Fusing Tape

No-Residue Self Fusing Tape

Technical Parameters:

Parameter	Value
Product Name	Stretchable Silicone Repair Tape
Adhesive Type	Pressure Sensitive
Material	Silicone
Color	Green
Feature	Heat-Resistant
Flexible	Yes
Insulating	Yes
Tear Resistant	Yes
Application	For Repair Work and Marks
Self Adhesive	Yes

Applications:

One of the most significant benefits of the zhonglei No-Residue Self Fusing Tape is its ability to provide a tight, secure seal. This makes it an ideal choice for anyone who needs a dependable way to keep things tightly sealed and protected. Whether you're working on a plumbing project or need to secure electrical connections, this tape is an excellent solution that won't let you down.

Thanks to its heat-resistant properties, the zhonglei No-Residue Self Fusing Tape is also an excellent choice for applications that involve high temperatures. It can withstand temperatures of up to 260 degrees Celsius, making it ideal for use in industrial settings where heat is a factor.

Another great benefit of this tape is its flexibility. It can be easily molded and shaped to fit around irregular shapes and surfaces, providing a tight seal that won't allow any moisture or air to seep in. This makes it an excellent choice for applications where a tight seal is essential, such as in automotive or marine settings.

The zhonglei No-Residue Self Fusing Tape is classified as an inorganic insulation material, which means it is ideal for use in applications where insulation is necessary. It is also incredibly easy to use, requiring no special tools or skills to apply. Simply wrap the tape around the area you want to seal, and it will bond to itself to create a secure, long-lasting seal.

The HS code for the zhonglei No-Residue Self Fusing Tape is 40082100, making it easy to identify and track. So, whether you're a DIY enthusiast or a professional contractor, this tape is an excellent choice for a wide range of applications.

Overall, the zhonglei No-Residue Self Fusing Tape is an incredibly versatile product that is perfect for a variety of different scenarios. It is easy to use, heat-resistant, flexible, and provides a tight, secure seal that won't let you down. So, if you're looking for a reliable, high-quality tape that you can count on, the zhonglei No-Residue Self Fusing Tape is an excellent choice.

Support and Services:

The Self Fusing Silicone Tape is a versatile and durable tape that can be used for a wide range of applications. It is made from a self-amalgamating silicone material that fuses to itself, creating a strong and permanent bond without the need for any adhesives. This tape is resistant to heat, cold, water, and UV radiation, making it ideal for use in harsh environments. It can be used to seal and protect electrical connections and cables, as well as pipes and hoses. It can also be used for emergency repairs on cars, boats, and other vehicles.

If you have any questions or concerns about the Self Fusing Silicone Tape, our technical support team is here to help. We can provide advice on how to use the tape for specific applications, as well as troubleshooting tips if you encounter any problems.

In addition to technical support, we also offer a range of services to help you get the most out of your Self Fusing Silicone Tape. This includes custom cutting and packaging options, as well as bulk ordering and just-in-time delivery.
