### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Color: Black
- Insulating: Yes
- Hs Code: 40082100
- Easy To Use: Yes
- Width: 1 Inch
- Material: Silicone
- Feature: Heat-Resistant
- Water-proof: Yes
- Highlight: **25mm self fusing silicone tape,  
Black self fusing waterproof tape,  
Anti slip self fusing silicone tape**

## Product Description

### Product Description:

Our Self Adhesive Silicone Tape ,making it easy to apply and use. It also boasts a heat-resistant feature, which means it can withstand high temperatures without melting or losing its adhesive properties.

The black color of this Self Adhesive Silicone Tape makes it easy to identify and use for various purposes.

Our Self Adhesive Silicone Tape is perfect for use in electrical applications, including sealing and insulation of electrical connections, splices, and terminations. It is also ideal for use in automotive and marine applications.

The Self Fusing Silicone Tape can be used in wet or dry conditions and can provide a tight, moisture-resistant seal. It is suitable for use in harsh environments, including extreme temperatures, chemicals, and UV radiation.

With our Self Adhesive Silicone Tape, you don't have to worry about leaving any residue on the surface you applied it to. It is easy to remove and clean, making it a convenient and practical solution for various applications.

Overall, our Self Adhesive Silicone Tape is a versatile and reliable tape that can provide excellent insulation and protection. Its pressure-sensitive and heat-resistant feature, along with its no-residue self-fusing properties, make it an ideal choice for various applications.

### Features:

Product Name: Waterproof Silicone Wrapping Tape

Width: 1 Inch

Feature: Heat-Resistant

Classification: Inorganic Insulation Material

Easy To Use: Yes

No Adhesive Required: Yes

Also known as: Self Fusing Silicone Tape, Self Amalgamating Silicone Tape, Non-Tacky Silicone Tape

### Technical Parameters:

| Technical Parameter  | Value   |
|----------------------|---|
| Product Name         | Insulating Self Fusing Tape                             |
| Classification       | Inorganic Insulation Material                           |
| Application          | For Repair Work and Marks                               |
| Feature              | Heat-Resistant  |
| Adhesive Type        | Self-fusing silicone tape                               |
| Insulating           | Yes   |
| Width                | 1 Inch  |
| No Adhesive Required | Yes   |
| Flexible             | Yes   |
| Color                | Black   |
| Also known as        | Self Sealing Silicone Tape, Self Adhesive Silicone Tape |

### Applications:

The self sealing silicone tape is the perfect solution for any situation where you need to create a secure, watertight seal. It is ideal for use on plumbing, electrical, and automotive applications. The tape is pressure sensitive, which means that it will adhere to almost any surface, making it easy to use and incredibly versatile.

The insulating self fusing tape is designed to provide superior insulation for electrical wiring and components. This makes it an ideal choice for use in electrical applications, such as repairing or protecting wiring, or even creating custom wiring harnesses. The tape is heat-resistant, which means that it can withstand high temperatures without degrading or losing its effectiveness.

The self bonding silicone tape is also incredibly flexible, which makes it perfect for use in a wide range of scenarios. It can be used to create custom seals around irregular surfaces, or to protect delicate components from damage. The tape is available in black, which makes it easy to blend in with the surrounding materials and ensures that it won't stand out or look out of place.

Overall, the Zhonglei Self Fusing Silicone Tape is an incredibly versatile and useful product that is perfect for a wide range of applications and scenarios. Whether you're a DIY enthusiast or a professional handyman, this tape is sure to become a staple of your toolkit. So why wait? Order your Zhonglei Self Fusing Silicone Tape today and start experiencing the benefits for yourself!

### Customization:

Customize your zhonglei Self Fusing Silicone Tape to fit your specific repair needs. Our Self Adhesive Silicone Tape is made in China and perfect for repair work. Choose from a variety of widths, including 1 inch. The tape is pressure sensitive and easy to use, making your repair job hassle-free. The black color ensures a seamless finish. Our Self Amalgamating Silicone Tape is perfect for insulating and

protecting against moisture and other environmental factors.

**Support and Services:**

The Self Fusing Silicone Tape is a versatile and durable product that can be used for a variety of applications. It is made of a self-bonding silicone material that fuses to itself, creating a strong and permanent bond. This tape is resistant to weathering, moisture, and UV rays, making it ideal for outdoor use. It is also heat resistant, withstanding temperatures up to 500°F (260°C). If you need assistance with using the Self Fusing Silicone Tape, our technical support team is available to help. We can provide guidance on the best ways to use the tape for your specific application, as well as answer any questions you may have about the product. In addition to technical support, we also offer a range of services to help you get the most out of your Self Fusing Silicone Tape. These services include product training, custom packaging, and private labeling. With our technical support and range of services, you can trust that you'll have the support you need to use the Self Fusing Silicone Tape effectively and efficiently.
