Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Tear Resistant: Yes
- Classification: Inorganic Insulation Material
- Flexible: Yes
- No Adhesive Required: Yes
- Hs Code: 40082100
- Easy To Use: Yes
- Water-proof: Yes
- Highlight: **Silicone Self Fusing Damping Tape ,
Self Fusing Damping Tape Anti Slip**

Product Description

Product Description:

The key attribute of this stretchable silicone repair tape is its pressure-sensitive adhesive, which allows it to adhere firmly to virtually any surface. Whether you are repairing a leaky pipe or sealing up a crack in a window, this non-tacky silicone tape provides an easy and effective solution.

One of the standout features of this silicone tape is its flexibility. Unlike many other types of tape, it can be easily stretched and molded to fit a variety of shapes and contours. This makes it ideal for use in a wide range of applications, including automotive repair, plumbing work, and general household repairs.

Another key advantage of this waterproof silicone wrapping tape is its resistance to water and other liquids. This makes it the perfect choice for use in wet or damp environments, such as bathrooms and kitchens, or for outdoor applications where exposure to rain or moisture is a concern.

In summary, if you are looking for a reliable and effective solution for your repair work, look no further than this Self Fusing Silicone Tape. With its superior performance, pressure-sensitive adhesive, flexibility, and waterproof design, it is the perfect choice for a wide range of applications.

Features:

Product Name: Self Fusing Silicone Tape

Tear Resistant: Yes

Adhesive Type: Pressure Sensitive

Easy To Use: Yes

Feature: Heat-Resistant

HS Code: 40082100

This No-Residue Self Fusing Tape is tear resistant and pressure sensitive for easy use. It is also heat-resistant, making it an ideal insulating self fusing tape for a variety of applications.

Technical Parameters:

Product Attribute	Value
Product Name	Self Fusing Silicone Tape
Color	Yellow
Feature	Heat-Resistant
No Adhesive Required	Yes
Material	Silicone
Pressure Sensitive	Yes
Classification	Inorganic Insulation Material
Insulating	Yes
Width	1 Inch
Easy To Use	Yes
HS Code	40082100

Applications:

One of the standout features of this tape is its non-tacky surface, which makes it easy to handle and apply, without leaving any residue behind. The self-bonding properties of the tape mean that it adheres to itself, creating a strong, permanent seal that is resistant to water and other liquids.

With a width of 1 inch, this tape is perfect for use in a wide range of scenarios. Whether you need to seal a leaky pipe or make a repair to an electrical wire, the Zhonglei Self Fusing Silicone Tape is up to the task. Its pressure-sensitive adhesive type ensures that it stays in place, even in tough conditions.

This tape is classified as an inorganic insulation material, which means that it is resistant to fire and does not release toxic fumes when exposed to high temperatures. This makes it an excellent choice for use in industrial and commercial settings, where safety is a top priority.

Some of the most common applications for this tape include:

Repairing leaks in pipes and hoses

Insulating electrical wires and cables

Sealing air ducts and vents

Protecting against corrosion and rust

Creating airtight seals for food containers

Damping Anti-slip for Golf Club Handles

Overall, the Zhonglei Self Fusing Silicone Tape is a versatile and reliable product that can be used in a wide range of occasions and scenarios. Its heat-resistant, non-tacky, and self-bonding properties make it an excellent choice for anyone looking for a high-quality tape that can stand up to tough conditions.
