

Self Curing Clear Silicone Pads Chemical Resistant 10 - 30 N/mm Tear Strength

Basic Information

Place of Origin: ChinaBrand Name: zhonglei

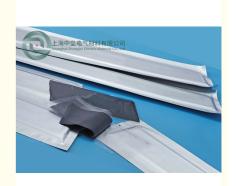

Model Number: ZL525W

Minimum Order Quantity:

• Supply Ability:

60000 PCS per month

300PCS

Product Specification

Chemical Resistance: ExcellentColor: Black

Material: Silicone Rubber

• Uv Resistance: Good

Application: Busbar Waterproof Insulation, Electrical

Connector Insulation And

Waterproofing,Insulation Repair For Cables,Sealed And Insulated Protection Of Overhead Line Clamps,Insulation Protection For Exposed Metal Positions Of Power Conductors,Used For The Partial I

Hardness: Shore A 30-80
Elongation At Break: 300-500%
Tear Strength: 10-30 N/mm

...

Product Description:

One of the most notable features of this product is its self-curing property. The Self Curing Silicone Pad does not require any external curing agents to harden. Once applied, the pad will start to cure and will reach full hardness within 24 hours. This makes it an excellent choice for those who want to save time and effort in their DIY projects.

Another advantage of the Self Curing Silicone Pad is its clear color. This attribute makes it an excellent choice for projects where transparency is essential. The clear color allows the pad to blend seamlessly with the surrounding environment, making it almost invisible. The Self Curing Silicone Pad is also highly resistant to UV rays. This means it can withstand prolonged exposure to sunlight without degrading or losing its properties. This feature makes it an excellent choice for outdoor applications such as sealing and bonding. To sum it up, the Self Curing Silicone Pad is a top-quality product that offers durability, flexibility, and ease of use. Its self-curing property, clear color, and UV resistance make it an excellent choice for a wide range of applications. Whether you are a DIY enthusiast or a professional, the Self Curing Silicone Pad is the perfect solution for your projects.

Features:

Product Name: Self Curing Silicone Pad

Color: Black Material: Silicone

Elongation At Break: 300-500% Tear Strength: 10-30 N/mm Shelf Life: 12 Months

Technical Parameters:

Self	
Curin g Time	24 Hours
Mate rial	Silicone Rubber
Hard ness	Shore A 30-80
Size	Customizable
Elect rical Insul ation	Excellent
Che mical Resi stanc e	Excellent
Tensi le Stren gth	1.5-2 MPa
Color	Black
Tear Stren gth	10-30 N/mm
Appli catio n	Busbar Waterproof Insulation, Electrical Connector Insulation And Waterproofing, Insulation Repair For Cables, Sealed And Insulated Protection Of Overhead Line Clamps, Insulation Protection For Exposed Metal Positions Of Power Conductors, Used For The Partial Insulation Restoration Of Overhead Wires, Used For Insulating The Bare Metal Parts Within Switchgear

Applications:

The Self Curing Silicone Pad is an excellent electrical insulator, making it ideal for use in electrical applications. It can withstand high temperatures of up to 250°C, making it perfect for use in high heat environments. The pad also has good UV resistance, making it suitable for outdoor use where exposure to sunlight is a concern. Its clear color makes it perfect for applications where visibility is required

This silicone pad has a wide range of application occasions and scenarios. It is perfect for use in electronics and electricals, including as a gasket or insulator. It is also great for use in industrial settings, such as in the automotive industry, where it is used for sealing and bonding. The Self Curing Silicone Pad is also ideal for use in the medical and food industries, where its excellent temperature resistance and non-toxic properties make it safe for use in these sensitive environments.

Whether you are a professional or a DIY enthusiast, the Self Curing Silicone Pad is a versatile and reliable material that can be used in a wide range of applications. Its self-curing properties make it easy to use, and its excellent electrical insulation and temperature resistance make it a go-to material for many industries. Get your hands on the Self Curing Silicone Pad by zhonglei today and experience the benefits of this innovative product for yourself.

Customization:

Our Self Curing Silicone Pad is customizable in size to meet your specific needs and requirements. Whether you need a small or large pad, we can provide a customized solution that fits your application perfectly.

Our Self Curing Silicone Pad is proudly made in China, ensuring high-quality standards and competitive pricing. Contact us today to learn more about our product customization services for Self Curing Silicone Pad.

Support and Services:

Our Self Curing Silicone Pad product comes with comprehensive technical support and services to ensure that you get the most out of your purchase. Our team of experts is available to assist you with any questions or issues that you may encounter during use. We provide detailed product documentation, including user manuals and troubleshooting guides, to help you quickly and easily resolve any technical issues. In addition, our customer service team is available to answer any questions you may have about product features, compatibility, and functionality.

We also offer repair and maintenance services for our Self Curing Silicone Pad product to ensure that it continues to perform at its best. Our team of technicians is trained to diagnose and repair any issues that may arise, and we use only genuine parts and components to maintain product quality.

Packing and Shipping:

Product Packaging:

The self-curing silicone pad comes in a protective and sturdy plastic case to prevent any damage during shipping and storage. The case has a clear lid for easy identification of the product.

Shipping:

We offer free standard shipping for all orders of the self-curing silicone pad in the United States. For international orders, shipping rates vary based on location and will be calculated at checkout. We take great care in packaging and shipping your order to ensure that it arrives in good condition and in a timely manner.

FAQ:

- Q: What is the brand name of this silicone pad?
- A: The brand name of this silicone pad is zhonglei.
- Q: Where is this silicone pad made?
- A: This silicone pad is made in China.
- Q: What is the size of this silicone pad?
- A: The size of this silicone pad is 8 \times 8 inches.
- Q: What are some of the applications of this silicone pad?
- A: This silicone pad can be used for baking, roasting, and as a non-stick surface for cooking.
- Q: Is this silicone pad dishwasher safe?
- A: Yes, this silicone pad is dishwasher safe.
