

Flame Retardant White Silicone Foam Low Stress Relaxation UV Resistant

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Compression Set: 10-50%
- Design Printing: No Printing
- Processing Service: Moulding, Cutting
- Sample: Fee
- Color: White
- Temperature Performance: -60~+280°C
- Elongation: 100-600%
- Uv Resistance: Good
- Highlight: **Flame Retardant White Silicone Foam,
White Silicone Foam UV Resistant**

Product Description

Product Description:

One of the main advantages of the Silicone Sponge Foam is its flexibility and strong resilience. This makes it an excellent choice for applications that require a material that can be easily molded into different shapes and sizes. The foam is also able to withstand a wide range of temperatures, from -60 to +280°C, making it suitable for use in both high and low-temperature environments.

The adhesive type used in the Silicone Sponge Foam is pressure-sensitive, which means that it can be easily applied to different surfaces without the need for any additional adhesive. This makes it a convenient and cost-effective choice for a wide range of applications.

The weather resistance of the Silicone Sponge Foam is excellent, making it ideal for use in outdoor applications. It is able to withstand exposure to sunlight, rain, and other weather conditions without deteriorating or losing its properties.

The compression set of the Silicone Sponge Foam is also noteworthy. It has a compression set of 10-50%, which means that it can be compressed to a certain extent without losing its shape or properties. This makes it an excellent choice for applications that require a material that can provide cushioning and support.

The Silicone Foam Mat is one example of a product that can be made from the Silicone Sponge Foam. This mat is designed to provide insulation and cushioning for various applications. It is commonly used in the automotive industry, as well as in industrial and construction applications.

The Silicone Foam Insulation is another product that can be made from the Silicone Sponge Foam. It is designed to provide insulation for pipes, tanks, and other equipment. The foam is able to withstand high temperatures and is resistant to moisture and other environmental factors, making it an ideal choice for insulation applications.

The Silicone Sponge Cushion is yet another product that can be made from the Silicone Sponge Foam. This cushion is designed to provide comfort and support for various applications, including seating and bedding. It is able to withstand compression without losing its shape or properties, making it an ideal choice for cushioning applications.

Features:

Product Name: Silicone Sponge Foam

Weather Resistance: Excellent

Advantage: Flexible and Strong Resilience

Adhesive Type: Pressure Sensitive

Color: White

Sample: Fee

Can be used as a Silicone Sponge Seal, Silicone Sponge Cushion, or Silicone Sponge Cushion

Technical Parameters:

Chemical Resistance	Excellent
Processing Service	Moulding, Cutting
Design Printing	No Printing
Temperature Performance	-60~+280°C
Port	Shenzhen
Color	White
Sample	Fee
Material	Silicone
Adhesive Type	Pressure Sensitive
Advantage	Flexible And Strong Resilience

Silicone Foam Rubber, Silicone Foam Insulation, Silicone Foam Mat

Applications:

As a Silicone Sponge Seal, it can be used to seal gaps and prevent air or water from entering or escaping. The pressure-sensitive adhesive type ensures that the seal stays in place and provides a tight fit. This makes it ideal for use in windows, doors, and other areas where air or water leakage is a problem.

Another application of Zhonglei Silicone Sponge Foam is as a Silicone Foam Gasket. The flexible and high-temperature performance of the silicone material makes it ideal for use in high-temperature environments. It can withstand temperatures ranging from -60 to +280°C, making it suitable for use in engines, ovens, and other high-temperature applications.

Whether you are looking for a padding material, a sealant, or a gasket, Zhonglei Silicone Sponge Foam is an excellent choice. It is flexible, strong, and resilient, making it ideal for use in a wide range of applications. Plus, with its origin from China, you can be sure of its quality and durability.

If you are interested in this product, you can request a sample for free. This way, you can see for yourself how the product works and whether it is suitable for your needs. Contact Zhonglei today and experience the benefits of Silicone Sponge Foam.

Customization:

We offer a variety of processing services, including moulding and cutting, to ensure that our Silicone Foam Sheet meets your exact specifications. Our foam also has a compression set of 10-50%, making it perfect for a variety of applications.

Our Silicone Foam Padding can be customized to meet your specific needs, ensuring that your project is a success. Contact us today to learn more about our product customization services and how we can help you achieve your goals.

Support and Services:

Our Silicone Sponge Foam product comes with comprehensive technical support and services to ensure that our customers have a smooth experience with our product. Our technical support team is available to answer any questions you may have regarding the product's properties, performance, and durability. We also offer training sessions to help you learn how to best use the product for your specific application.

In addition, we provide customized solutions to meet your unique needs and requirements. Our experienced engineers work closely with you to understand your needs and provide tailored solutions that meet your specific technical requirements. We also offer testing and evaluation services to ensure that our product meets your quality standards.

Finally, we offer maintenance and repair services to ensure that your Silicone Sponge Foam product is always in top condition. Our team of experts can help you troubleshoot any issues and provide timely repairs to minimize downtime and ensure that your product performs at its best.

Packing and Shipping:

Product Packaging:

The silicone sponge foam will be packaged in a clear plastic bag.

The bag will have a label with the product name and a brief description.

The bag will be placed in a cardboard box for shipping.

Shipping:

The product will be shipped via standard ground shipping.

The shipping box will be clearly labeled with the recipient's shipping address.

The shipping box will also have a label indicating that it contains fragile items.

Tracking information will be provided once the product has been shipped.

FAQ:

Q: What is the brand name of this Silicone Sponge Foam?

A: The brand name of this product is zhonglei.

Q: Where is this Silicone Sponge Foam manufactured?

A: This product is made in China.

Q: What are the dimensions of this Silicone Sponge Foam?

A: The dimensions of this product may vary. Please check the product description for specific details.

Q: Is this Silicone Sponge Foam safe for food contact?

A: This product is made of food-grade silicone and is safe for food contact.

Q: Can this Silicone Sponge Foam be used for cleaning?

A: Yes, this product is designed for cleaning and can be used for a variety of tasks.
