

## UL94-V0 White Silicone Foam Sealing Low Stress Relaxation For Insulation Systems

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Uv Resistance: Good
- Design Printing: No Printing
- Chemical Resistance: Excellent
- Usage: Sealing
- Color: White
- Elongation: 100-600%
- Adhesive Type: Pressure Sensitive
- Processing Service: Moulding, Cutting
- Highlight: **UL94-V0 White Silicone Foam,  
White Silicone Foam Sealing**

## Product Description

### Product Description:

The Silicone Sponge Foam is designed for use in a wide range of weather conditions, making it an excellent choice for outdoor applications. Its excellent weather resistance ensures that it remains effective in extreme temperatures, heavy rain, and even snow. This Silicone Foam Tube and Sheet is an excellent product for sealing applications where a strong and reliable seal is required. It is perfect for use in environments where there is a high level of stress and movement, such as in automotive and aerospace applications. The Silicone Sponge Seal is also an excellent choice for use in industrial applications, as it can withstand harsh chemicals and other substances that may be present in these environments. Its high durability ensures that it can withstand even the toughest conditions and remain effective for long periods.

The Silicone Sponge Foam is available in a range of sizes and can be easily cut to fit any application. It is also available in a range of thicknesses, making it suitable for use in a wide range of applications.

One of the key benefits of the Silicone Sponge Foam is that it is designed without any printing, making it ideal for use in applications where a clean and clear appearance is important. This feature ensures that the foam will not interfere with the appearance of the product or application in which it is used.

In conclusion, the Silicone Sponge Foam is an excellent product that offers exceptional durability, weather resistance, and sealing capabilities. Its versatility and range of sizes and thicknesses make it suitable for use in a wide range of applications, from automotive and aerospace to industrial and commercial applications.

### Features:

Product Name: Silicone Sponge Foam

Processing Service: Moulding, Cutting

Color: White

Adhesive Type: Pressure Sensitive

Design Printing: No Printing

Material: Silicone

Features:

Silicone Foam Insulation

Silicone Foam Rubber

### Technical Parameters:

Product Name	Silicone Foam Sheet
Port	Shenzhen
Compression Set	10-50%
Processing Service	Moulding, Cutting
Usage	Sealing
Adhesive Type	Pressure Sensitive
UV Resistance	Good
Sample	Free
Advantage	Flexible And Strong Resilience
Color	White
Weather Resistance	Excellent

### Applications:

One common use for Silicone Sponge Foam is as a gasket material. Its flexibility and strong resilience make it an ideal choice for sealing applications, particularly in situations where there may be vibration or movement that could cause other types of gaskets to fail. Silicone Foam Gaskets can be custom-moulded to fit specific shapes and sizes, providing a tight, reliable seal.

Silicone Sponge Foam is also often used as a seal material, particularly in situations where a waterproof seal is required. Its excellent weather resistance makes it a popular choice for outdoor applications, such as sealing around windows and doors, or as a cushion for outdoor furniture.

Another common use for Silicone Sponge Foam is as a cushioning material. Its flexibility and strong resilience make it an ideal choice for situations where impact resistance is important, such as in packaging or as a cushion for delicate electronics. Silicone Sponge Cushions can be custom-cut to fit specific shapes and sizes, providing a reliable layer of protection.

Overall, the Silicone Sponge Foam product from zhonglei is a versatile and reliable material that can be used in a wide range of applications. Its flexible and strong resilience, combined with its excellent weather resistance and compression set, make it an ideal choice for gaskets, seals, and cushions. With processing services available for both moulding and cutting, this product can be custom-designed to fit a variety of specific needs.

## Customization:

Our zhonglei Silicone Sponge Cushion product from China can be customized to meet your specific needs. Choose from a variety of white colors and compression set options ranging from 10-50%. With a temperature performance range of -60~+280°C, our Silicone Foam Sheet can withstand extreme temperatures. This product is perfect for sealing applications. We offer processing services such as moulding and cutting to give you the exact size and shape you need for your project. Trust us to create the perfect Silicone Sponge Cushion for you.

## Support and Services:

Our Silicone Sponge Foam product is designed to provide excellent cushioning and sealing properties for a variety of applications. If you require technical support or services related to this product, we offer the following:

Expert guidance on product selection based on your specific needs and requirements

Customized product development and prototyping services for unique applications

Assistance with product installation and troubleshooting

Recommendations for proper maintenance and care of the product

Our team of experienced professionals is dedicated to providing top-notch technical support and services to ensure your satisfaction with our Silicone Sponge Foam product.

## Packing and Shipping:

Product Packaging:

The silicone sponge foam will be packaged in a clear plastic bag.

The bag will be placed in a cardboard box.

The box will be labeled with the product name and quantity.

Shipping:

Shipping will be done through standard ground shipping.

The product will be shipped within 1-2 business days of receiving the order.

The shipping cost will be calculated based on the destination and weight of the package.

## FAQ:

A: The brand name of this product is **zhonglei**.

2. Q: Where is this silicone sponge foam product manufactured?

A: This product is manufactured in **China**.

3. Q: Can this silicone sponge foam product be used for cleaning dishes?

A: Yes, this product is great for cleaning dishes, as well as other household surfaces.

4. Q: Is this silicone sponge foam product safe for use on delicate surfaces?

A: Yes, this product is safe for use on delicate surfaces, such as glass, as it is non-abrasive.

5. Q: How long does this silicone sponge foam product typically last?

A: The lifespan of this product can vary depending on usage, but it is designed to be durable and long-lasting.
