Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Supply Ability: 50000 Rolls per month

Product Specification

- Material: Silicone
- Flexible: Yes
- No Adhesive Required: Yes
- Width: 1 Inch
- Classification: Inorganic Insulation Material
- Color: Black
- Tear Resistant: Yes
- Water-proof: Yes
- Highlight: **silicone self fusing waterproof tape,
insulation self fusing silicone tape,
insulation self fusing waterproof tape**

Product Description

Product Description:

Whether you need to insulate electrical wires, seal leaks in pipes or hoses, or repair damaged equipment, our Self Fusing Silicone Tape has got you covered. With its unique self-fusing properties, this tape creates a strong, permanent bond that is both waterproof and tear-resistant, ensuring long-lasting protection and performance.

As an inorganic insulation material, our Silicone Tape is highly effective at preventing electrical conductivity and heat transfer, making it a popular choice for electrical and automotive applications. Its rubber adhesive also provides a secure grip and easy application, even in hard-to-reach areas.

One of the standout features of our Silicone Tape is its stretchability, which allows it to conform to any shape or size for a seamless and professional-looking finish. This makes it ideal for wrapping and sealing irregular surfaces, such as pipes and cables.

Overall, our Heat Resistant Silicone Tape is a versatile and reliable solution for all your repair and insulation needs. Its waterproof and tear-resistant properties, along with its inorganic insulation classification, make it a top choice for electrical, plumbing, and automotive applications. Plus, its stretchability and rubber adhesive ensure easy and secure application, making it a must-have for any DIY enthusiast or professional repair technician.

Features:

Product Name: Self Fusing Silicone Tape

Pressure Sensitive: Yes

Feature: Heat-Resistant

Adhesive: Rubber

Material: Silicone

Application: For Repair Work

Introducing the Heat Resistant Silicone Tape - the ultimate solution for your repair needs. This Stretchable Silicone Repair Tape is pressure-sensitive and comes with a rubber adhesive that ensures a strong and long-lasting hold. Made with high-quality silicone material, this tape is heat-resistant and can withstand extreme temperatures. Whether it's a plumbing leak or a broken electrical wire, this Self Fusing Silicone Tape is perfect for all kinds of repair work.

Technical Parameters:

| | |
|----------------------|----------------------------------|
| Product Name | Stretchable Silicone Repair Tape |
| Pressure Sensitive | Yes |
| Insulating | Yes |
| Application | For Repair Work |
| Adhesive | Rubber |
| Easy To Use | Yes |
| No Adhesive Required | Yes |
| Material | Silicone |
| Color | Black |
| Tear Resistant | Yes |
| Classification | Inorganic Insulation Material |

Applications:

One of the key features of this product is that it requires no adhesive, making it easy to apply and remove without leaving any residue behind. This makes it ideal for use in situations where adhesive residue could be a problem, such as in electrical applications or when wrapping pipes.

The Zhonglei No-Residue Self Fusing Tape is also waterproof, making it perfect for use in outdoor applications where moisture resistance is important. Its flexible design means that it can be used on a variety of surfaces, making it versatile and practical.

This product is 1 inch wide, making it suitable for a range of different applications. It is perfect for use in plumbing, automotive, and electrical applications, as well as for general household use. The no-residue self fusing tape is also ideal for emergency repairs, such as fixing a leaking pipe or a broken electrical wire.

Overall, the Zhonglei No-Residue Self Fusing Tape is a high-quality product that is suitable for a wide range of applications. Its waterproof design, flexibility, and no-adhesive required feature make it a practical and versatile choice for anyone in need of a reliable and durable wrapping tape. Order yours today and experience the benefits of this innovative product for yourself!

Customization:

Customize your Non-Tacky Silicone Tape with our product customization services. Our Insulating Self Fusing Tape is tear resistant and leaves no residue. This No-Residue Self Fusing Tape is made of high-quality silicone material and has a width of 1 inch. Our product is

manufactured in China under the brand name zhonglei and has an Hs Code of 40082100. Choose from our selection of colors and make your tape stand out.

Support and Services:

The Self Fusing Silicone Tape is a versatile and durable product that can be used for various applications. Our technical support team is available to assist you with any questions or concerns you may have about the product, including:

Proper usage and application techniques

Compatibility with different materials

Temperature and weather resistance

Storage and handling recommendations

In addition, we offer a range of services to ensure that you get the most out of your Self Fusing Silicone Tape, including:

Customized product solutions for specific needs

Technical training and education for your team

Product testing and analysis

Fast and efficient product delivery

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape product comes in a sealed plastic bag to ensure its quality and durability.

The bag contains one roll of self-fusing silicone tape, measuring 10 feet in length and 1 inch in width.

Shipping:

The Self Fusing Silicone Tape product is shipped via standard shipping.

The product is carefully packed in a sturdy box to protect it during transportation.

Delivery time may vary depending on the location, but customers can expect their product to arrive within 5-7 business days.

Customers will receive a shipping confirmation email with a tracking number once their order has been shipped.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a unique adhesive tape that fuses to itself, creating a permanent bond without the need for any additional adhesive.

Q: What is the Brand Name of this product?

A: The Brand Name of this product is zhonglei.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: What are the main applications of Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is commonly used for electrical insulation, plumbing repair, and automotive applications.

Q: Is Self Fusing Silicone Tape waterproof?

A: Yes, Self Fusing Silicone Tape is highly resistant to water, making it ideal for outdoor and marine applications.
