Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Easy To Use: Yes
- Classification: Inorganic Insulation Material
- Insulating: Yes
- Feature: Heat-Resistant
- Width: 1 Inch
- Application: For Repair Work
- Hs Code: 40082100
- Operating Temperature: -60°C ~+200°C
- Shore Hardness: 50±5 A
- Highlight: **blue self fusing silicone tape,**
blue self fusing waterproof tape,
silicone self fusing waterproof tape

Product Description

Product Description:

The Self Fusing Silicone Tape is a durable and long-lasting solution for repairing and sealing leaks and cracks. It is made of a high-quality silicone material that is stretchable and easy to manipulate. The tape is pressure sensitive, which means that it will adhere to surfaces without the need for any additional adhesive.

The Self Sealing Silicone Tape can be used for a variety of applications, including plumbing, automotive, electrical, and more. It is ideal for use in both indoor and outdoor settings, as it is resistant to water, heat, and UV rays. The tape is also highly insulating, which makes it a great choice for use in electrical applications.

The Insulating Self Fusing Tape is made of inorganic insulation material, which means that it is highly resistant to heat and other environmental factors. It is also flexible and stretchable, which allows it to conform to irregular shapes and surfaces. This makes it ideal for use in a variety of applications, including sealing and repairing pipes, hoses, and cables.

Overall, the Self Fusing Silicone Tape is a reliable and effective product for repairing and sealing leaks and cracks. Its pressure-sensitive adhesive and inorganic insulation material make it a versatile and durable solution for a variety of applications. Whether you need to repair a broken pipe or seal a leaky hose, this tape is sure to do the job.

Features:

Product Name: Self Fusing Silicone Tape

Feature: Heat-Resistant

Application: For Repair Work

Pressure Sensitive: Yes

HS Code: 40082100

Easy To Use: Yes

This Self Fusing Silicone Tape is also known as Waterproof Silicone Wrapping Tape or Self Amalgamating Silicone Tape.

Technical Parameters:

Classification	Inorganic Insulation Material
Flexible	Yes
Material	Silicone
Pressure Sensitive	Yes
Easy To Use	Yes
Color	Blue
Hs Code	40082100
Tear Resistant	Yes
Width	1 Inch
Feature	Heat-Resistant

Applications:

The no-residue Self Fusing Tape is an excellent choice for electrical insulation, plumbing, automotive repairs, and much more. The tape is waterproof, making it an ideal choice for outdoor repairs. The unique self-fusing technology ensures that the tape adheres to itself, creating a long-lasting and secure bond. The tape is also flexible, making it easy to wrap around irregular shapes and surfaces.

The product is perfect for various occasions and scenarios, including electrical insulation of wires and cables, plumbing repairs and maintenance, automotive repairs, marine repairs, and much more. The Self Fusing Silicone Tape is an excellent solution for emergency repairs and quick fixes, providing a long-lasting and durable solution to various issues.

The Waterproof Silicone Wrapping Tape is easy to use and doesn't require any special tools or equipment. The tape can be easily wrapped around the surface, stretched to create a tight seal, and cut to the desired length. The no-residue feature of the tape ensures that it doesn't leave any sticky residue after removal, making it easy to clean up and maintain.

The Self Adhesive Silicone Tape is a reliable and durable solution that can be used in various scenarios. It provides an excellent alternative to traditional adhesive tapes and is perfect for situations where a long-lasting and secure bond is required. The flexibility and waterproof features of the tape make it an ideal choice for outdoor and indoor repairs, providing a durable and reliable solution that can withstand harsh weather and environmental conditions.

Customization:

With our customization services, you can choose the color and length of your tape to fit your specific needs. We can also add your logo or design to make the tape unique to your brand.

Trust in our zhonglei Self Adhesive Silicone Tape for all of your repair needs. Contact us today to learn more about our product customization services.

Support and Services:

The Self Fusing Silicone Tape is a high-quality, self-adhesive tape that is ideal for a wide range of applications. It is made from a specially formulated silicone rubber that provides excellent insulation properties and is resistant to heat, chemicals, and weathering. The tape is self-fusing, which means that it bonds to itself when wrapped around an object, creating a strong, permanent seal.

Our product technical support team is available to answer any questions you may have about the tape's specifications, application, and usage. We can provide guidance on how to select the right tape for your specific needs and offer advice on how to use it most effectively. In addition, we offer a range of services to support our customers, including product training, technical documentation, and on-site support. Our goal is to ensure that you get the most out of your Self Fusing Silicone Tape and that you are completely satisfied with your purchase.

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape comes in a sturdy plastic container with a screw-on lid. The container is compact and lightweight, making it easy to store and transport. The tape is neatly wrapped around a spool inside the container, ensuring that it stays clean and protected until use.

Shipping:

The Self Fusing Silicone Tape is shipped in a secure box to prevent any damage during transit. The box is labeled with the product name and a brief description for easy identification. We ship our products through reliable carriers to ensure prompt and safe delivery to our customers.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a high-quality, self-adhesive tape that is commonly used for sealing and repair work. It is made from silicone rubber and fuses to itself when stretched and wrapped around a surface.

Q: What are the features of zhonglei Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape from zhonglei is made from high-quality silicone rubber, making it resistant to extreme temperatures, chemicals, and UV light. It is also waterproof, electrically insulating, and easy to apply and remove.

Q: Where is zhonglei Self Fusing Silicone Tape made?

A: zhonglei Self Fusing Silicone Tape is made in China, where it is produced to the highest quality standards using the latest manufacturing techniques.

Q: How do I apply zhonglei Self Fusing Silicone Tape?

A: To apply zhonglei Self Fusing Silicone Tape, simply clean and dry the surface you wish to repair or seal, then stretch the tape and wrap it around the surface, overlapping the edges as you go. The tape will fuse to itself and create a strong, waterproof seal.

Q: What are some common applications for zhonglei Self Fusing Silicone Tape?

A: zhonglei Self Fusing Silicone Tape is commonly used for sealing and repairing pipes, hoses, electrical wires, and other surfaces. It is also useful for emergency repairs and can be used to temporarily fix leaks and other issues until a permanent solution can be found.
