Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Classification: Inorganic Insulation Material
- Insulating: Yes
- Application: For Repair Work
- Color: Grey
- No Adhesive Required: Yes
- Feature: Heat-Resistant
- Tear Resistant: Yes
- Flexible: Yes
- Operating Temperature: -60°C ~+200°C
- Tensile Strength: ≥ 7.0 MPa
- Highlight: silicone self fusing waterproof tape,
insulation self fusing silicone tape,
insulation self fusing waterproof tape

Product Description

Product Description:

With its pressure-sensitive feature, this Insulating Self Fusing Tape is easy to apply, providing an instant and secure bond that lasts. Its black color gives it a sleek and professional look, perfect for any application. Our Self Bonding Silicone Tape is made of high-quality silicone material, ensuring durability and long-lasting use. Its insulation properties make it ideal for use in electrical and plumbing applications. It can withstand extreme temperatures, making it suitable for use in harsh environments, both indoors and outdoors. The HS Code for this Insulating Self Fusing Tape is 40082100, making it easy to identify for customs purposes. Its versatility makes it a must-have in any toolbox or workshop. So whether you're looking to seal a leaky pipe or insulate electrical wires, our Self Adhesive Silicone Tape is the perfect solution. Trust us to provide you with a reliable and durable product that will exceed your expectations. Order now and experience the benefits of our Insulating Self Fusing Tape for yourself!

Features:

Product Name: Self Fusing Silicone Tape
HS Code: 40082100
Adhesive: Rubber
Easy To Use: Yes
Classification: Inorganic Insulation Material
Flexible: Yes
Keywords: Stretchable Silicone Repair Tape, Self Sealing Silicone Tape

Technical Parameters:

Tear Resistant	Yes
Material	Silicone
Feature	Heat-Resistant
Adhesive	Rubber
Insulating	Yes
Pressure Sensitive	Yes
No Adhesive Required	Yes
Application	For Repair Work
HS Code	40082100
Flexible	Yes

Applications:

The No-Residue Self Fusing Tape is perfect for repairing and sealing leaks in pipes, hoses, and cables. It can also be used to wrap and seal damaged wires, electrical cords, and other equipment. This tape is easy to use and requires no additional adhesive, making it a hassle-free solution for all your repair needs. The Self Amalgamating Silicone Tape is perfect for use in a variety of scenarios. It is ideal for use in automotive repair, plumbing, electrical work, and more. This tape is also perfect for outdoor use as it is weather-resistant and can withstand extreme temperatures. It is perfect for use in emergency situations, such as repairing a broken hose or pipe in the middle of nowhere. The HS Code for the Self Fusing Silicone Tape is 40082100, which means it is a high-quality product that meets international standards. This tape is also flexible, which means it can be used to wrap around any shape or size. It is also easy to apply and can be cut to any length, making it perfect for any repair job. In conclusion, if you're looking for a versatile and flexible solution for all your repair needs, look no further than the Self Fusing Silicone Tape from zhonglei. This product is perfect for repairing leaks, sealing damaged wires, and much more. It is easy to use, requires no additional adhesive, and is perfect for use in a wide range of scenarios. So why wait? Get your Self Fusing Silicone Tape today and start repairing with ease!

Customization:

Support and Services:

The Self Fusing Silicone Tape is a high-performance, silicone-based tape that provides an air and watertight seal for a wide range of applications. It is self-fusing, which means that it bonds to itself when stretched and wrapped around an object, creating a permanent

seal. The tape is ideal for use in electrical, plumbing, automotive, and marine applications, as well as for general household repairs. Our Product Technical Support team is available to answer any questions you may have about the tape's performance, compatibility, and application. We can provide guidance on how to use the tape effectively and troubleshoot any issues you may encounter. Our team is knowledgeable and experienced, and we are committed to providing you with the highest level of support possible. In addition to our Product Technical Support, we offer a range of services to ensure that you get the most out of your Self Fusing Silicone Tape. Our services include product training, custom packaging and labeling, and technical documentation. We can work with you to develop customized solutions that meet your specific needs and requirements.

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape comes in a compact, easy-to-carry box that measures 4 inches in length, 2 inches in width, and 1.5 inches in height. The box is made of sturdy cardboard and features a clear plastic window that allows customers to see the product inside. The tape is neatly coiled and secured inside the box to prevent it from unraveling or getting damaged during transport.

Shipping:

The Self Fusing Silicone Tape is shipped in a durable corrugated cardboard box that measures 6 inches in length, 4 inches in width, and 3 inches in height. The tape is securely packed inside the box with additional cushioning material to prevent it from moving around or getting damaged during transit. The box is sealed with packing tape and includes a shipping label with the customer's address and tracking information.

FAQ:

Q: What is the brand name of this self fusing silicone tape?

A: The brand name of this product is **zhonglei**.

Q: Where is this self fusing silicone tape manufactured?

A: This product is made in **China**.

Q: Is this self fusing silicone tape waterproof?

A: Yes, this tape is waterproof and can be used for sealing and repairing water pipes and other water-related applications.

Q: Can this self fusing silicone tape be used for electrical insulation?

A: Yes, this tape can be used for electrical insulation and can withstand high voltage and temperature.

Q: How does this self fusing silicone tape work?

A: This tape is made of a special silicone material that fuses to itself when wrapped around an object. It provides a strong, flexible, and durable bond that is resistant to heat, water, and other environmental factors.
