Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 1000 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Material: Silicone
- Color: Green
- Insulating: Yes
- Hs Code: 40082100
- Tear Resistant: Yes
- Easy To Use: Yes
- No Adhesive Required: Yes
- Tensile Strength: ≥ 7.0 MPa
- Operating Temperature: $-60^{\circ}\text{C} \sim +200^{\circ}\text{C}$
- Highlight: **Self Stick Heat Resistant Silicone Tape,
Heat Resistant Silicone Tape 1 Inch,
Self Fusing No Residue Waterproof Tape**

Product Description

Product Description:

One of the most impressive features of this No-Residue Self Fusing Tape is its pressure-sensitive nature. This means that the tape will stick to itself upon application, without the need for any additional adhesives. This makes the application process quick and easy, without the mess and fuss of traditional tapes.

In addition to its easy application, the Self Fusing Silicone Tape is also incredibly flexible. It can bend and stretch to fit any shape or size, making it perfect for wrapping around irregular surfaces. This flexibility also allows the tape to maintain its tight seal, even in extreme temperatures and weather conditions.

Another great benefit of this Self Bonding Silicone Tape is its width. Measuring 1 inch in width, it provides ample coverage for any repair job. This means that you can use less tape overall, saving you time and money in the long run.

Whether you're a DIY enthusiast or a professional repairman, the Self Fusing Silicone Tape is an essential tool to have in your kit. Its waterproof properties and durable seal make it perfect for use in any situation where a strong, long-lasting bond is needed. So why wait? Order your Self Fusing Silicone Tape today and experience the convenience and reliability of this amazing product!

Features:

Product Name: Self Fusing Silicone Tape

Feature: Heat-Resistant

HS Code: 40082100

Application: For Repair Work

Insulating: Yes

Easy To Use: Yes

Waterproof Silicone Wrapping Tape

Self Amalgamating Silicone Tape

Self Sealing Silicone Tape

Technical Parameters:

Product Name	Self Sealing Silicone Tape
Width	1 Inch
Flexible	Yes
Easy To Use	Yes
Material	Silicone
Adhesive	Rubber
Tear Resistant	Yes
Insulating	Yes
Pressure Sensitive	Yes
Color	Green
HS Code	40082100
Other Attributes	Heat Resistant Silicone Tape, Self Adhesive Silicone Tape

Applications:

One of the main applications of this product is for electrical repairs. Its pressure-sensitive and insulating properties make it ideal for protecting wiring and other electrical components from moisture, dust, and other contaminants. It can also be used to repair damaged wires and cables, providing a strong and flexible seal that can withstand harsh environments.

Another common use for the Self Bonding Silicone Tape is for plumbing repairs. Its ability to bond to itself without any adhesive makes it perfect for sealing leaks and cracks in pipes and hoses. It is also resistant to high temperatures and chemicals, making it ideal for use in industrial and automotive applications.

For outdoor enthusiasts, this tape is a must-have in their toolkit. Its flexibility and ability to adhere to itself make it perfect for repairing tents, tarps, and other camping gear. It is also resistant to UV rays and extreme temperatures, making it ideal for use in harsh outdoor environments.

The Self Bonding Silicone Tape is also perfect for DIY enthusiasts who want to tackle various projects around the house. It can be used to repair tools, seal leaks, and even create custom grips for handles and other objects. Its flexibility and easy-to-use design make it a versatile tool that can be used for a wide range of applications.

In conclusion, the Self Bonding Silicone Tape by zhonglei is an excellent product that offers a wide range of applications and scenarios. Its non-tacky silicone design, flexibility, and easy-to-use features make it a must-have for anyone who needs a reliable and durable tape for various repairs and projects. Its HS code is 40082100, making it a quality product for your needs.

Customization:

Customize your Self Amalgamating Silicone Tape with zhonglei! This waterproof silicone wrapping tape is made in China and comes in black. With no adhesive required, it is easy to use for repair work. The pressure-sensitive tape is non-tacky, making it a great option for various applications. Trust zhonglei for your Self Fusing Silicone Tape needs!

Support and Services:

Our Self Fusing Silicone Tape is designed to provide a secure, long-lasting seal for a wide range of applications. The tape is made of high-quality silicone that fuses to itself, creating a strong, waterproof bond that can withstand extreme temperatures and harsh environments.

Our technical support team is available to assist with any questions or issues you may encounter with the product. We can provide guidance on proper installation techniques and offer troubleshooting advice to ensure you get the most out of your tape.

In addition to technical support, we also offer a range of services to help you get the most out of your Self Fusing Silicone Tape. These include custom cutting and packaging options, as well as private labeling for businesses looking to create their own branded tape products.

Packing and Shipping:

Product Packaging:

The self fusing silicone tape comes in a compact and durable plastic case that keeps the tape clean and protected during storage and transportation. The case is labeled with the product name and features a convenient hanging loop for easy display and storage.

Shipping:

The self fusing silicone tape is shipped in a sturdy cardboard box with cushioning material to prevent damage during transit. The box is labeled with the product name, quantity, and handling instructions to ensure safe delivery. Shipping options include standard ground shipping and expedited shipping for urgent orders.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a type of tape that is made of silicone rubber and has the ability to bond to itself without the need for additional adhesive. It is commonly used for electrical insulation and sealing applications.

Q: What are the benefits of using Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is highly resistant to heat, cold, and other extreme environmental conditions. It is also waterproof and can be used for both indoor and outdoor applications. Additionally, it is easy to apply and can be used to seal leaks and repair damaged surfaces.

Q: Is Self Fusing Silicone Tape safe to use?

A: Yes, Self Fusing Silicone Tape is safe to use. It is made of non-toxic materials and is free from harmful chemicals such as lead and mercury. It is also flame retardant and meets international safety standards.

Q: Where is Self Fusing Silicone Tape manufactured?

A: Self Fusing Silicone Tape is manufactured in China by the zhonglei brand.

Q: What are the specifications of Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is available in various widths and thicknesses. It can withstand temperatures ranging from -60°C to 200°C and has a tensile strength of up to 700 PSI. It is also available in different colors such as black, red, and blue.
