### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Color: Red
- Material: Silicone
- Insulating: Yes
- Classification: Inorganic Insulation Material
- Easy To Use: Yes
- Tear Resistant: Yes
- Feature: Water-proof
- Width: 1 Inch
- Highlight: red self fusing silicone tape,  
red self fusing waterproof tape,  
silicone self fusing waterproof tape

## Product Description

### Product Description:

One of the key features of this tape is its tear-resistant properties. The Self Fusing Silicone Tape is made from high-quality materials that make it incredibly durable and able to withstand harsh conditions. This makes it an ideal solution for outdoor applications where extreme weather conditions can cause damage to other types of tapes.

Another advantage of this tape is that it is pressure-sensitive. This means that it can be easily applied to a range of surfaces without the need for additional adhesives or tools. The Self Fusing Silicone Tape has a strong adhesive that creates a tight seal around the area being repaired, ensuring that it remains water-tight and secure.

The Self Fusing Silicone Tape is available in red, which makes it perfect for applications where a high level of visibility is required. Its color ensures that it can be easily seen even in low light conditions, making it an ideal solution for emergency repairs.

This tape is also incredibly easy to use. Simply stretch the tape around the area to be repaired, and it will automatically bond to itself, creating a strong and durable seal. This makes it an ideal solution for those who may not have a lot of experience with DIY or repair work.

Finally, the Self Fusing Silicone Tape is heat-resistant, making it an ideal solution for a range of applications where high temperatures may be present. This feature ensures that the tape remains stable and secure, even in extreme conditions.

In summary, the Self Fusing Silicone Tape is a versatile and essential tool that should be in every DIY enthusiast or professional tradesperson's toolbox. Its tear-resistant properties, pressure-sensitive adhesive, black color, ease of use, and heat-resistant features make it an ideal solution for a range of applications. Whether you are repairing leaks, insulating electrical connections, or protecting wires from abrasion, the Self Fusing Silicone Tape is the perfect tool for the job.

### Features:

Product Name: Self Fusing Silicone Tape

Pressure Sensitive: Yes

Material: Silicone

Easy To Use: Yes

Insulating: Yes

Width: 1 Inch

Features:

Non-Tacky Silicone Tape

Stretchable Silicone Repair Tape

### Technical Parameters:

Attribute	Description
Product Name	Self Adhesive Silicone Tape
Material	Silicone
Width	1 Inch
Insulating	Yes
Easy To Use	Yes
Pressure Sensitive	Yes
No Adhesive Required	Yes (Non-Tacky Silicone Tape)
Waterproof	Yes (Waterproof Silicone Wrapping Tape)
Hs Code	40082100
Application	For Repair Work
Adhesive	Rubber
Classification	Inorganic Insulation Material

### Applications:

One ideal application for this product is in plumbing. The waterproof silicone wrapping tape can be used to seal leaks or cracks in pipes, preventing water damage and reducing the risk of mold growth. It can also be used to wrap around fittings or joints to ensure a tight and secure seal.

Another use for this versatile tape is in electrical work. The insulating self-fusing tape provides an excellent barrier against moisture, making it ideal for protecting and repairing exposed wires. It can also be used to wrap around cords or cables to provide extra reinforcement and protection.

The flexible nature of the tape makes it perfect for automotive work as well. It can be used to seal leaks in hoses or pipes, or to wrap around damaged wires or cables. The tear-resistant quality of the tape ensures that it can withstand the harsh conditions of the engine compartment.

Aside from these specific applications, the waterproof silicone wrapping tape can be used in a variety of scenarios. It can be used to

repair outdoor equipment such as garden hoses or camping gear. It can also be used to wrap around tools or handles to provide a non-slip grip.

Overall, the Zhonglei waterproof silicone wrapping tape is a reliable and versatile product that can be used in a variety of situations. Its non-tacky nature and self-fusing properties make it easy to use and long-lasting. Whether in plumbing, electrical, automotive, or general use, this insulating self-fusing tape is sure to get the job done.

## Customization:

Customize your Stretchable Silicone Repair Tape with our product customization services! Our Self Fusing Silicone Tape, made with high-quality silicone material and rubber adhesive, is perfect for insulating and repairing electrical wires and piping. With a width of 2 inch and a classic red color, you can personalize your tape with your own logo or design. Our product is proudly made in China under the brand name zhonglei, ensuring the best quality and durability. Get your Insulating Self Fusing Tape customized today!

## Support and Services:

Our Self Fusing Silicone Tape product comes with comprehensive technical support and services to ensure that you get the most out of your purchase. Our team of experts are available to provide you with assistance and advice on how to use the product effectively and troubleshoot any issues that you may encounter. Our technical support includes:

Installation guidance and support

Troubleshooting and problem-solving

Product training and tutorials

Product updates and upgrades

Warranty and repair services

We are committed to providing you with the highest level of support and service to ensure that you are completely satisfied with your purchase.

## Packing and Shipping:

Product Packaging:

Each roll of self fusing silicone tape is wrapped in plastic to keep it clean and protected.

The roll is then placed in a cardboard box with the product name and information printed on it.

The box is sealed with tape to prevent it from opening during shipping.

Shipping:

All orders are shipped within 24 hours of purchase.

We use standard shipping methods to ensure your order arrives in a timely manner.

All packages are tracked to ensure they arrive safely and on time.

## FAQ:

### Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a self-adhesive, self-fusing silicone tape that is used for emergency and permanent repairs on a wide range of materials. It is a flexible, waterproof, and durable tape that can withstand extreme temperatures and pressure.

### Q: What makes zhonglei Self Fusing Silicone Tape different from other brands?

A: zhonglei Self Fusing Silicone Tape is made in China and is known for its high-quality and reliability. It is made from a unique blend of silicone and rubber that provides superior strength and durability, and it can be used on a wide range of surfaces.

### Q: What surfaces can zhonglei Self Fusing Silicone Tape be used on?

A: zhonglei Self Fusing Silicone Tape can be used on a wide range of surfaces, including metal, plastic, rubber, fiberglass, and more. It is ideal for use on pipes, hoses, cables, and other applications where a waterproof and durable seal is needed.

### Q: How do I apply zhonglei Self Fusing Silicone Tape?

A: To apply zhonglei Self Fusing Silicone Tape, clean the surface to be repaired and remove any debris or moisture. Then, stretch the tape to two times its length and wrap it tightly around the area to be repaired. The tape will bond to itself and form a waterproof and airtight seal.

### Q: Is zhonglei Self Fusing Silicone Tape safe to use?

A: Yes, zhonglei Self Fusing Silicone Tape is safe to use and is made from non-toxic materials. It is also resistant to chemicals, UV rays, and high temperatures, making it a reliable choice for a wide range of applications.
