

2Inch Width Black Water-proof Sealing Self-stick Silicone Tape for Pipeline Emergency Repairs

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Easy To Use: Yes
- Classification: Inorganic Insulation Material
- Width: 2 Inch
- Water-proof: Yes
- Insulating: Yes
- Tear Resistant: Yes
- Material: Silicone
- Hs Code: 40082100
- Highlight: **silicone self fusing waterproof tape,
insulation self fusing silicone tape,
insulation self fusing waterproof tape**

Product Description

Product Description:

Our Self Sealing Silicone Tape is pressure-sensitive and easy to use, making it a great choice for both professional and DIY use. It is an excellent insulator and can be used to seal electrical connections, pipes, hoses, and much more. The tape fuses to itself, creating a seal that is both watertight and airtight, making it ideal for outdoor and indoor use.

The Self Fusing Silicone Tape is highly flexible, allowing it to conform to any shape, making it an excellent solution for irregularly shaped objects. It is also heat-resistant, making it ideal for use in high-temperature environments. With its superior insulating properties, this tape is perfect for use in electrical and electronic applications.

This Self Sealing Silicone Tape is easy to apply and does not require any additional tools or adhesive. Just wrap the tape around the object you want to seal, and it will automatically fuse to itself, creating a strong and durable bond that will last for years. The tape remains flexible even after it has been applied, ensuring that the seal will not crack or peel over time.

Our Insulating Self Fusing Tape is available in a variety of widths and lengths, making it easy to find the perfect size for your project. It is a versatile and durable solution that can be used in a wide range of applications.

In conclusion, if you are looking for a high-quality, pressure-sensitive, and easy-to-use Self Sealing Silicone Tape that is heat-resistant, flexible, and has excellent insulating properties, our Self Fusing Silicone Tape is the perfect solution for you. Order now and experience the many benefits of this incredible product!

Features:

Product Name: Self Fusing Silicone Tape

Application: For Repair Work

Pressure Sensitive: Yes

Classification: Inorganic Insulation Material

Feature: Heat-Resistant

HS Code: 40082100

This waterproof silicone wrapping tape is also known as self amalgamating silicone tape and self adhesive silicone tape. It is perfect for repair work and is made of inorganic insulation material that is heat-resistant and pressure sensitive.

Technical Parameters:

| Product Attribute | Value |
|----------------------|---|
| Product Name | Non-Tacky Silicone Tape, Self Amalgamating Silicone Tape, No-Residue Self Fusing Tape |
| Easy To Use | Yes |
| Feature | Heat-Resistant |
| Adhesive | Rubber |
| Color | Black |
| Width | 2 Inch |
| Insulating | Yes |
| No Adhesive Required | Yes |
| Hs Code | 40082100 |
| Application | For Repair Work |
| Classification | Inorganic Insulation Material |

Applications:

The Self-Fusing Silicone Tape is a versatile product that can be used in many different scenarios and occasions. Its self-fusing properties make it ideal for use in emergency situations when a quick fix is required. The tape can seal leaks in pipes, hoses, and other equipment, preventing further damage and ensuring that operations can continue without interruption.

The Self-Fusing Silicone Tape is also an excellent choice for electrical applications. As an insulating self-fusing tape, it can be used to insulate wires and other electrical connections, preventing short circuits and other potentially dangerous situations. The flexibility of the tape makes it easy to use in hard-to-reach areas, ensuring that all connections are properly insulated.

Another great application for the Self-Fusing Silicone Tape is in the automotive industry. The tape can be used to seal and insulate hoses and pipes in cars, trucks, and other vehicles, preventing leaks and ensuring that the vehicle runs smoothly. The tape is also resistant to high temperatures, making it ideal for use in engine compartments and other areas where heat is a concern.

The Self-Fusing Silicone Tape is perfect for use in DIY projects as well. The tape can be used to repair and seal a wide range of items, from garden tools and outdoor equipment to household appliances and electronics. Its self-adhesive properties make it easy to use and handle, and its flexibility ensures a tight, secure seal.

Overall, the Self-Fusing Silicone Tape from zhonglei is a must-have for anyone who needs a reliable, flexible, and insulating self-fusing tape. Whether you are a DIY enthusiast, a mechanic, or an engineer, this tape is sure to come in handy in a wide range of scenarios and occasions.

Customization:

Whether you need a Self Amalgamating Silicone Tape for electrical insulation or sealing, zhonglei's Self Fusing Silicone Tape has got you covered.

Support and Services:

The Self Fusing Silicone Tape is a versatile and durable tape that is perfect for electrical, plumbing, and automotive repairs. It fuses to itself, creating a strong and permanent seal that is resistant to water, heat, and chemicals. It is easy to apply and can be used in temperatures ranging from -60°C to 260°C.

Our technical support team is available to answer any questions you may have about the product and its applications. We also offer a range of services, including custom sizing and packaging, to meet your specific needs.

Whether you are a professional contractor or a DIY enthusiast, our Self Fusing Silicone Tape is the ideal solution for all your repair needs.

Packing and Shipping:

Product Packaging:

Self fusing silicone tape roll

Dimensions: 2 inch x 16.5 feet

Color: Black

Quantity: 1 roll per package

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a type of tape made from silicone rubber that fuses to itself to form a tight seal. It is ideal for repairing leaks, insulating wires, and wrapping tools and handles.

Q: What makes zhonglei Self Fusing Silicone Tape different from other brands?

A: zhonglei Self Fusing Silicone Tape is made from high-quality silicone rubber, ensuring a strong and long-lasting bond. It is also manufactured in China, where strict quality standards are upheld.

Q: How do I use zhonglei Self Fusing Silicone Tape?

A: First, clean and dry the surface you wish to apply the tape to. Then, stretch the tape to activate the self-fusing properties and wrap it tightly around the area you wish to seal or repair. The tape will fuse to itself to create a permanent seal.

Q: Is Self Fusing Silicone Tape heat-resistant?

A: Yes, zhonglei Self Fusing Silicone Tape can withstand temperatures up to 260°C (500°F). It is also resistant to UV rays, moisture, and chemicals, making it a versatile and durable solution for various applications.

Q: Can zhonglei Self Fusing Silicone Tape be removed?

A: While zhonglei Self Fusing Silicone Tape forms a permanent bond, it can be removed with a sharp blade or scissors if necessary. However, removing the tape may damage the surface it was applied to.
