Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

Product Specification

- Color: Blue
- Material: Silicone
- Adhesive: Rubber
- Flexible: Yes
- Application: For Repair Work
- No Adhesive Required: Yes
- Tear Resistant: Yes
- Width: 2 Inch
- Highlight: **Waterproof Self Stick Sealing Tape ,
2 Inch Self Stick Sealing Tape ,
Silicone Emergency Pipe Repair Tape**

Product Description

Product Description:

Our Heat Resistant Silicone Tape is made of high-quality silicone material that is durable, flexible, and self-fusing. It can withstand extreme temperatures of up to 500 degrees Fahrenheit and remains stable and functional under harsh conditions. Whether you're working on electrical wiring, repairing pipes, or sealing leaks, this tape will provide a strong and long-lasting bond.

One of the main advantages of our Non-Tacky Silicone Tape is that it is easy to use and apply. Unlike traditional adhesives or tapes, this tape does not require any additional tools or equipment. Simply wrap it around the desired area and press firmly to create a tight seal. The silicone material fuses together to create a strong, permanent bond that is resistant to water, chemicals, and UV rays.

Our Heat Resistant Silicone Tape is also highly versatile and can be used for a wide range of applications. It is ideal for use in electrical wiring, where it can provide insulation and protection against short circuits and other hazards. It can also be used to repair pipes, hoses, and other plumbing fixtures, providing a secure and leak-proof seal. Additionally, it can be used in automotive applications, including engine repairs, exhaust systems, and radiator hoses.

Our Non-Tacky Silicone Tape is also compliant with HS Code 40082100, which makes it easy to import and export to various countries. It is a reliable and cost-effective alternative to other sealing and insulating solutions, such as epoxy resins and heat shrink tubing. With its easy-to-use design, high-temperature resistance, and versatile applications, our Heat Resistant Silicone Tape is a must-have for any DIY enthusiast or professional tradesperson.

Features:

Product Name: Self Fusing Silicone Tape

Easy To Use: Yes

Classification: Inorganic Insulation Material

Insulating: Yes

Material: Silicone

Feature: Heat-Resistant

This Self Sealing Silicone Tape is made from heat resistant silicone material. It is easy to use and classified as an inorganic insulation material. This tape is also insulating, making it perfect for a variety of applications.

Technical Parameters:

Tear Resistant	Yes
Flexible	Yes
Feature	Heat-Resistant
Easy To Use	Yes
Material	Silicone
Pressure Sensitive	Yes
No Adhesive Required	Yes
Width	2 Inch
Adhesive	Rubber
Color	Blue

Applications:

One of the key features of this No-Residue Self Fusing Tape is its ease of use. Unlike other tapes that require a lot of preparation and can be difficult to apply, this tape is designed to be easy to use. Simply wrap the tape around the object you want to insulate, and it will stick to itself, creating a tight seal. This makes it an ideal choice for DIY enthusiasts and professionals alike.

Another advantage of this No-Residue Self Fusing Tape is that it leaves no residue behind. This means that you can remove it without leaving any sticky residue behind, which is particularly important in applications where cleanliness is essential. And because it is self-fusing, it creates a strong bond that can withstand high temperatures and pressure.

This No-Residue Self Fusing Tape is also available in black, which makes it ideal for applications where appearance is important. And because it is made in China, you can be assured of its quality and reliability.

The potential application occasions and scenarios for this No-Residue Self Fusing Tape are endless. It can be used for electrical insulation, plumbing repairs, automotive repairs, and much more. It is particularly useful in situations where a strong, reliable bond is required, and where cleanliness is essential.

So if you are looking for a high-quality, easy-to-use, and versatile tape that can be used in a wide range of applications, look no further than the Self Adhesive Silicone Tape from zhonglei. Its insulating properties, pressure-sensitive adhesive, and no-residue design make it the perfect choice for all your bonding needs.

HS Code: 40082100

Customization:

Choose from a variety of colors and sizes to fit your specific needs. Whether you need a Heat Resistant Silicone Tape or a Waterproof Silicone Wrapping Tape, we can customize it for you. Contact us today for more information on our product customization services.

Support and Services:

Our Self Fusing Silicone Tape is a high-quality product designed to provide reliable and durable performance in a variety of applications. To ensure our customers get the most out of their purchase, we offer a range of technical support and services:

Product installation guidance and instructions

Technical troubleshooting assistance

Product performance testing and evaluation

Customized product development and engineering

Expert consultation on product selection and application

Our team of experienced professionals is dedicated to providing superior customer service and technical support. If you have any questions or concerns about our Self Fusing Silicone Tape, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape comes in a compact and durable plastic container, ensuring the tape stays protected and free from damage during shipping and storage. The container includes a clear window to easily identify the color of the tape.

Shipping:

The Self Fusing Silicone Tape is carefully packaged to ensure safe delivery to our customers. The tape is wrapped in protective bubble wrap and placed in a sturdy cardboard box. We offer various shipping options to accommodate our customers' needs and deliver the product in a timely and efficient manner.

FAQ:

Q: What is Self Fusing Silicone Tape?

A: Self Fusing Silicone Tape is a versatile and durable tape that can be used to seal, repair, and insulate various surfaces. It is made of silicone rubber and does not require any adhesive, as it fuses to itself when wrapped around an object.

Q: What are the dimensions of the zhonglei Self Fusing Silicone Tape?

A: The zhonglei Self Fusing Silicone Tape is available in a width of 25mm and a length of 3 meters.

Q: What are the benefits of using zhonglei Self Fusing Silicone Tape?

A: The zhonglei Self Fusing Silicone Tape is a high-quality product that offers many benefits, including excellent insulation properties, high temperature resistance, water resistance, and easy application. It is also flexible and can conform to irregular shapes and surfaces.

Q: What type of surfaces can zhonglei Self Fusing Silicone Tape be used on?

A: The zhonglei Self Fusing Silicone Tape can be used on a wide range of surfaces, including metal, plastic, rubber, glass, and ceramics. It is ideal for use in automotive, plumbing, electrical, and marine applications.

Q: Where is the zhonglei Self Fusing Silicone Tape manufactured?

A: The zhonglei Self Fusing Silicone Tape is manufactured in China.
