

## 2 Inch Width Self Stick Silicone Tape Waterproof Emergency Pipe Repair Sealing Tape

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Tear Resistant: Yes
- Application: For Repair Work
- Adhesive: Rubber
- Hs Code: 40082100
- No Adhesive Required: Yes
- Width: 2Inch
- Insulating: Yes
- Feature: Heat-Resistant
- Water-proof: Yes
- Highlight: **2 Inch Self Stick Silicone Tape ,  
Self Stick Silicone Tape Waterproof ,  
Emergency Pipe Repair Sealing Tape**

## Product Description

### Product Description:

Our Self Amalgamating Silicone Tape is incredibly flexible, making it ideal for use in a wide variety of applications. Whether you need to seal leaks, cover electrical connections, or repair hoses and pipes, this tape is up to the task. One of the key features of our Non-Tacky Silicone Tape is its heat-resistant properties. With a temperature range of -60°C to 200°C, this tape can withstand even the most extreme conditions, making it perfect for use in automotive, marine, and industrial settings. When it comes to repair work, you need a tape that you can rely on to provide a strong, secure seal. Our Insulating Self Fusing Tape is just that - with its unique self-fusing properties, it creates a bond that is stronger than the tape itself. And because it doesn't require any adhesive, you don't have to worry about any messy residue or cleanup. So if you're looking for a high-quality, versatile tape that can handle all of your repair needs, look no further than our Non-Tacky Silicone Tape. With its flexible, heat-resistant design and self-fusing properties, it's the perfect choice for any application.

### Features:

Product Name: Self Fusing Silicone Tape

Feature: Heat-Resistant

Width: 2 Inch

No Adhesive Required: Yes

Application: For Repair Work

Adhesive: Rubber

Other Names: Non-Tacky Silicone Tape, Self Bonding Silicone Tape, Self Amalgamating Silicone Tape

### Technical Parameters:

Attribute	Description
Product Name	Stretchable Silicone Repair Tape
Alternative Names	Self Sealing Silicone Tape, Self Amalgamating Silicone Tape
No Adhesive Required	Yes
HS Code	40082100
Tear Resistant	Yes
Insulating	Yes
Pressure Sensitive	Yes
Classification	Inorganic Insulation Material
Flexible	Yes
Application	For Repair Work
Material	Silicone
Color	Yellow

### Applications:

One of the most significant advantages of this product is its ability to withstand high temperatures. The Self-Fusing Silicone Tape is heat-resistant, making it perfect for applications that require a flexible and reliable solution. It can be used in automotive, electrical, and plumbing industries, among others. The tape's pressure-sensitive feature ensures that it sticks firmly to any surface, providing added security and protection.

The Self-Fusing Silicone Tape from zhonglei is also incredibly easy to use. It can be applied quickly and efficiently, without the need for additional tools or expertise. The tape's flexible nature allows it to conform to any surface, making it the perfect solution for uneven or irregular surfaces.

The Self-Fusing Silicone Tape is ideal for a variety of occasions and scenarios. It can be used to seal leaks in pipes, hoses, and fittings. It can also be used to insulate wires and cables, providing an extra layer of protection against environmental factors. The Self-Fusing Silicone Tape is also effective in preventing corrosion and abrasion, ensuring that your equipment and machinery last longer.

In summary, the Self-Fusing Silicone Tape from zhonglei is a reliable and flexible solution for a variety of applications. Its heat-resistant feature, pressure-sensitive nature, and easy-to-use design make it the perfect choice for professionals and DIY enthusiasts alike. Whether you need to seal a leak, insulate wires, or protect equipment, the Self-Fusing Silicone Tape is the product for you.

### Customization:

## Support and Services:

Our Self Fusing Silicone Tape is designed to provide a durable and long-lasting seal for a variety of applications. It is made of high-quality silicone material that is self-bonding, self-fusing, and waterproof.

The tape can withstand high temperatures, making it ideal for use in automotive, electrical, and plumbing applications. It is also resistant to UV radiation, ozone, and other environmental factors, ensuring reliable performance in harsh conditions.

If you encounter any issues with the product or have questions about its use, our technical support team is available to assist you. We offer a range of services, including troubleshooting, installation guidance, and product training.

Our goal is to ensure that you have a positive experience with our Self Fusing Silicone Tape and are able to use it to its full potential. Please do not hesitate to contact us if you need any assistance.

## Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape product comes in a compact and durable plastic case to ensure safe and secure storage. The case measures 3 inches in diameter and 1.5 inches in height, and is designed to fit easily in a toolbox or glove compartment. The product is packaged with a user manual that provides detailed instructions on how to use the tape.

Shipping:

The Self Fusing Silicone Tape product is shipped in a sturdy cardboard box to ensure that it arrives at its destination safely. The product is wrapped in protective material to prevent any damage during transit. Shipping is available to all locations within the United States and internationally. Shipping times vary depending on the destination, but customers can expect their order to be delivered within 3-7 business days for domestic shipping and 7-14 business days for international shipping.
