Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Material: Silicone
- Easy To Use: Yes
- Product Color: Gray, Sky Blue
- Uv Resistant: Yes
- Maximum Operating Temperature(Celsius): 180°C
- Durable: Yes
- Chemical Resistant: Yes
- Flexible: Yes
- Highlight: **Silicone Pipe Repair Tape Self Fusing ,
Self Adhesive Silicone Pipe Repair Tape ,
Flexible Self Fusing Silicone Tape High
Temperature**

Product Description

Product Description:

One of the key features of this Self-sealing Pipe Fix Tape is its maximum operating temperature of 356 °F, making it perfect for use in high-temperature environments. This means that it can withstand the heat generated by hot water pipes or other heating systems, ensuring a long-lasting repair.

In addition to its high-temperature tolerance, this Self-bonding Pipe Repair Tape is also UV resistant, which means that it is ideal for outdoor use. Whether you need to repair a damaged pipe in your garden or fix an outdoor plumbing fixture, this Self-sealing Pipe Fix Tape will provide a durable and long-lasting repair solution.

This Self-sealing Pipe Fix Tape is available in two colors - Gray and Sky Blue. This ensures that it can blend in with the color of your pipes or fixtures, making it less noticeable. This is especially important if you are repairing a pipe in a visible location and want to ensure that it looks neat and tidy.

Another great feature of this Self-bonding Pipe Repair Tape is that it is non-adhesive. This means that it will not stick to your fingers or any other surface, making it easy to handle and install. The tape will only adhere to itself, ensuring a secure and leak-free repair.

Finally, this Self-sealing Pipe Fix Tape is also chemical-resistant, making it ideal for use in industrial or commercial settings. It can resist the effects of most chemicals, ensuring that it can withstand exposure to harsh substances without deteriorating or breaking down.

In conclusion, the Self-sealing Pipe Fix Tape is a versatile and reliable tool that every DIY or professional plumber should have in their toolkit. With its high-temperature tolerance, UV resistance, non-adhesive properties, and chemical resistance, this Self-bonding Pipe Repair Tape is the perfect solution for repairing any pipe leakages or damages.

Features:

Product Name: Self Fusing Pipe Repair Tape

Length: 10 Feet

Durable: Yes

Self-sticking: Yes

Easy To Use: Yes

Product Color: Gray, Sky Blue

This Self Fusing Pipe Repair Tape is perfect for fixing leaky pipes and other plumbing issues. It is a Self-adhesive Pipe Repair Tape that is both durable and self-sticking. This Self-sealing Pipe Leak Tape can seal up any leaks and hold up for a long time. It is also very easy to use, making it a great choice for any DIY project. The tape comes in two colors, gray and sky blue, so you can choose the one that matches your pipes. Get your hands on this Self-sealing Pipe Fix Tape today and fix your pipes quickly and easily!

Self-sticking	Yes
Minimum Operating Temperature (Celsius)	-60°C
Maximum Operating Temperature (Fahrenheit)	356 °F
Flexible	Yes
Waterproof	Yes
Durable	Yes
Maximum Operating Temperature (Celsius)	180°C
Tensile Strength (Metric)	82 KPa

Applications:

With a length of 10 feet, the Zhonglei Self-Fusing Pipe Repair Tape is perfect for both small and large repairs. Its self-sealing properties make it an ideal choice for fixing leaks and cracks in your pipes. Whether you are a professional plumber or a DIY enthusiast, this tape is perfect for all your pipe repair needs.

One of the key features of this tape is its waterproof properties. Once applied, it creates a tight, waterproof seal that prevents any further damage to your pipes. This makes it an ideal choice for repairing pipes in areas that are prone to moisture, such as basements and bathrooms.

The Zhonglei Self-Fusing Pipe Repair Tape has an elongation at break of 450%, which means it can stretch and conform to the shape of your pipes without losing its effectiveness. This makes it an ideal choice for repairing pipes that are located in hard-to-reach areas or have irregular shapes.

Whether you are dealing with a leaky faucet, a cracked pipe, or a damaged hose, the Zhonglei Self-Fusing Pipe Repair Tape is the perfect solution. It is a self-amalgamating pipe repair tape that can be used in a variety of applications, including plumbing, automotive, and marine repairs.

In conclusion, the Zhonglei Self-Fusing Pipe Repair Tape is an essential product for anyone who needs to repair their pipes quickly and effectively. Its self-sealing, waterproof, and self-sticking properties make it an ideal choice for a variety of applications. So, whether you are a professional plumber or a DIY enthusiast, make sure to add this tape to your toolbox today!
