more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Self-sticking: Yes
- Flexible: Yes
- Maximum Operating Temperature (Fahrenheit): 356 °F
- Length: 10 Feet
- Uv Resistant: Yes
- Waterproof: Yes
- Elongation At Break: 450%
- Chemical-resistant: Yes
- Highlight: **Flexible Self Amalgamating Pipe Repair Tape ,  
Self Amalgamating Pipe Repair Tape Waterproof**

## Product Description

### Product Description:

With a minimum operating temperature of -60°C, this self-sealing pipe fix tape is ideal for use in extreme weather conditions. It's versatile and can be used on various surfaces, including metal, rubber, plastic, and PVC.

The Self Fusing Pipe Repair Tape is completely waterproof, making it perfect for fixing leaks and preventing water damage. It creates an airtight seal that guarantees long-lasting protection against leaks and damage.

With a shelf life of 5 years, this self-fusing plumbing tape is a reliable and practical investment for any plumbing repair kit. Its gray and sky blue color options provide a sleek and professional finish to any repair job.

Don't let plumbing problems hold you back. Get your hands on the Self Fusing Pipe Repair Tape and fix any pipe issues with ease.

### Features:

Product Name: Self Fusing Pipe Repair Tape

Shelf Life: 5 Year

Chemical-resistant: Yes

Color: Black

Product Color: Gray, Sky Blue

Non-Adhesive: Yes

Keywords: Self-bonding Pipe Repair Tape, Self-fusing Duct Tape, Self-amalgamating Pipe Fixing Tape

### Technical Parameters:

Product Name	Self-sealing Pipe Fix Tape
Technical Parameter	Description
Minimum Operating Temperature (Celsius)	-60°C
Product Color	Gray, Sky Blue
Durable	Yes
Versatile	Yes
Self-sticking	Yes
Chemical-resistant	Yes
Non-Adhesive	Yes
Maximum Operating Temperature(Celsius)	180°C
UV Resistant	Yes
Self Fusing	Yes
Product Name	Self-fusing Duct Tape
Product Name	Self-fusing Plumbing Tape

### Applications:

The zhonglei Self Fusing Pipe Repair Tape is manufactured in China and is designed to be used in a variety of scenarios. For instance, it can be used to repair damaged pipes, hoses, or wires in automotive, plumbing, and electrical applications. Its flexibility allows it to be wrapped tightly around the damaged area, creating a tight seal that prevents leaks and keeps the liquid or gas flowing.

This self-fusing duct tape is also suitable for use in outdoor settings, as it can withstand extreme temperatures and weather conditions. Its minimum operating temperature of -60°C makes it an ideal product for use in cold environments. For example, it can be used to repair pipes or hoses in refrigeration systems, preventing the loss of refrigerant gas.

Another application of the zhonglei Self Fusing Pipe Repair Tape is in the marine industry, where it can be used to repair damaged hoses or pipes on boats or ships. Its waterproof and saltwater-resistant properties make it an ideal product for use in these environments, where water damage is a common issue.

In summary, the zhonglei Self Fusing Pipe Repair Tape is a versatile and practical product that can be used in various applications and scenarios. Its durability, flexibility, and non-adhesive properties make it an excellent choice for repairing damaged pipes, hoses, or wires. It can be used in automotive, plumbing, electrical, marine, and many other industries, making it a must-have item for any tool kit.
