• Self Fusing: Yes

• Shelf Life: 5 Year

• Self-sticking: Yes

• Highlight: Non Adhesive Plumbing Repair Tape,

Plumbing Repair Tape 10 Feet

Product Description:

The Self Fusing Pipe Repair Tape has a maximum operating temperature of 180°C, making it ideal for use in high-temperature applications. The tape is 10 feet long, providing you with enough material to fix multiple leaks and cracks. The gray and sky blue colors of the tape make it easy to identify and blend in with your plumbing fixtures.

One of the most significant advantages of the Self Fusing Pipe Repair Tape is its chemical resistance. The tape is resistant to a wide range of chemicals, including oils, acids, and solvents. This feature makes it an excellent choice for use in oil and gas pipelines, chemical plants, and other industrial applications.

The Self Fusing Pipe Repair Tape is incredibly easy to use. To apply the tape, simply stretch it and wrap it around the area that needs to be repaired. As you wrap the tape, it will fuse to itself, creating a strong, permanent bond. The tape can be used on both wet and dry surfaces, making it an ideal choice for emergency repairs.

In conclusion, the Self-bonding Plumbing Repair Tape is an excellent choice for anyone looking to repair leaks and cracks in their plumbing fixtures. Its high temperature resistance, chemical resistance, and ease of use make it a versatile and reliable solution for a wide range of applications. Whether you're a professional plumber or a DIY enthusiast, the Self Fusing Pipe Repair Tape is sure to become a valuable addition to your toolkit.

Features:

Product Name: Self Fusing Pipe Repair Tape

Self-sticking: Yes

Tensile Strength (Metric): 82 KPa

Durable: Yes

Minimum Operating Temperature (Celsius): -60°C

Self Fusing: Yes

This Self Fusing Pipe Repair Tape is also known as Self-sealing Pipe Leak Tape, Self-amalgamating Pipe Repair Tape, and Self-adhesive Pipe Repair Tape.

Technical Parameters:

Product Name	Self-bonding Plumbing Repair Tape
Length	10 Feet
Chemical-resistant	Yes
UV Resistant	Yes
Minimum Operating Temperature (Celsius)	-60°C
Tensile Strength (Metric)	82 KPa
Non-Adhesive	Yes
Versatile	Yes
Flexible	Yes
Elongation at Break	450%
Product Name	Self-amalgamating Pipe Fixing Tape
Product Name	Self-fusing Duct Tape

Applications:

What sets this product apart is its self-fusing and self-sticking properties. This means that it bonds to itself without the need for any adhesive. The tape creates a strong and long-lasting bond that can withstand harsh conditions and extreme temperatures. The self-bonding pipe repair tape is perfect for fixing leaks, cracks, and breaks in pipes, hoses, and other similar items.

The Zhonglei Self-Fusing Pipe Repair Tape is also waterproof, making it ideal for use in wet environments. Whether you need to repair a pipe in your home or in an industrial setting, this tape will keep your pipes secure and leak-free. With its gray and sky blue color options, you can choose the one that best fits your needs.

Here are some scenarios where you may find the Self-Fusing Pipe Repair Tape useful:

Emergency pipe repairs

Fixing leaks in hoses and pipes

Sealing joints and connections in pipes

Repairing PVC pipes

Sealing and insulating electrical wires

The Zhonglei Self-Adhesive Pipe Repair Tape is easy to use and can be applied quickly, making it a convenient option for your repair needs. Its self-fusing properties also make it a great choice for repairs in hard-to-reach areas. So whether you're a DIY enthusiast or a professional plumber, the Self-Fusing Pipe Repair Tape is a must-have in your toolkit.
