Self Bonding Athletic Bandage Tape**

## Product Description

### Product Description:

The Self-Bonding Sport Silicone Bandage is designed to provide a reliable and long-lasting solution for all your taping needs. With its rubberized self-adhesive formula, this product is perfect for securing equipment, wrapping injuries, and protecting your skin from abrasions and blisters.

One of the key features of this product is its waterproof property. This means that the tape will not peel or come off when exposed to water, making it an ideal choice for water sports, swimming, and other activities that involve water. Additionally, the tape is available in a range of vibrant colors including red, yellow, grey, black, green, and white, allowing you to choose the right color for your needs.

The Self Fusing Sports Silicone Tape is also non-sticky, which means that it won't stick to your skin or hair. This makes it easy to remove the tape without causing any discomfort or pain. The tape is also tear-resistant, making it ideal for use in rugged outdoor environments.

In addition to its other features, the Self Fusing Sports Silicone Tape is also temperature-resistant, with a maximum temperature rating of up to 500°F. This means that it can withstand high temperatures without melting or losing its adhesive properties.

In summary, the Self Fusing Sports Silicone Tape is a versatile and reliable product that is perfect for anyone who engages in physical activities. Its rubberized self-adhesive formula, combined with its waterproof, tear-resistant, and temperature-resistant properties, make it an ideal choice for sports, outdoor activities, and everyday use. So whether you're an athlete, hiker, or just someone who needs a reliable tape, the Self Fusing Sports Silicone Tape is the perfect solution for you.

### Features:

Product Name: Self Fusing Sports Silicone Tape

Width: 1 Inch

Color: Red, Yellow, Grey, Black, Green, White

Tear Resistant: Yes

Waterproof: Yes

UV Resistant: Yes

This Self-Bonding Athletic Silicone Tape is tear-resistant and waterproof. It is available in six different colors: red, yellow, grey, black, green, and white. The adhesive silicone athletic tape is UV resistant, ensuring that it can withstand prolonged exposure to the sun. It has a width of 1 inch, making it ideal for use in sports and other physical activities.

### Technical Parameters:

Product Attribute	Value

Material	Silicone
Length	10 Feet
Thickness	20 Mil
Stretchability	400%
Waterproof	Yes
Tear Resistant	Yes
Temperature Resistance	Up To 500°F
UV Resistant	Yes
Non-Sticky	Yes
Color	Red, Yellow, Grey, Black, Green, White
Product Type	Adhesive Silicone Athletic Tape, Self-Bonding Athletic Silicone Tape

### Applications:

The Self-Fusing Sports Silicone Tape is a versatile product that can be used in a variety of application occasions and scenarios. Its self-fusing property makes it ideal for use in situations where traditional adhesive tapes would fail, such as in damp or wet conditions. It is perfect for use in sports like swimming, diving, and water polo, where athletes need a tape that can withstand water exposure.

This Fusion Sport Silicone Tape is also perfect for use in other sports like football, basketball, and soccer, where athletes need to protect their joints and muscles from injury. The self-sealing sport tape can be used to wrap ankles and wrists, providing support and stability to the joints. It is also useful for wrapping fingers and thumbs, providing protection from impact injuries.

The Fusion Sport Silicone Tape is not just limited to sports, however. It can be used in a variety of other scenarios as well. For instance, it can be used to repair damaged hoses, pipes, and cables. It is also useful for sealing leaks in pipes and other plumbing fixtures. It can even be used as an emergency repair tool for cars and other vehicles.

One of the unique features of this Self-Fusing Sports Silicone Tape is its UV-resistant property. This means that it can withstand exposure to sunlight without deteriorating or losing its adhesive properties. This makes it ideal for use in outdoor sports like tennis, golf, and beach volleyball.

In conclusion, the Self-Fusing Sports Silicone Tape is a versatile and reliable product that can be used in a wide range of application

occasions and scenarios. Its self-fusing property, combined with its UV resistance, makes it the perfect tape for athletes and outdoor enthusiasts alike. So, whether you're a professional athlete or a DIY enthusiast, the Fusion Sport Silicone Tape is a must-have in your toolkit.

## Customization:

Customize your Fusion Sport Silicone Tape with our product customization services! Our tape is the perfect solution for all your athletic needs. With a stretchability of 400%, it is perfect for wrapping around your wrists, ankles, or any other body parts that need support during physical activity.

## FAQ:

**Q:** What is Self Fusing Sports Silicone Tape?

**A:** Self Fusing Sports Silicone Tape is a versatile, self-adhering tape that can be used for a wide range of applications. It is made from premium-grade silicone and can bond to itself, creating a secure and reliable seal.

**Q:** What are the benefits of using Self Fusing Sports Silicone Tape?

**A:** Self Fusing Sports Silicone Tape has many benefits, including its ability to form a watertight seal, its resistance to heat and cold, and its ability to withstand extreme weather conditions. It is also highly flexible and easy to use, making it ideal for a wide range of applications.

**Q:** What are some common uses for Self Fusing Sports Silicone Tape?

**A:** Self Fusing Sports Silicone Tape is commonly used in a variety of applications, including plumbing, electrical work, automotive repair, and more. It can be used to seal leaks, insulate wires, and protect against rust and corrosion.

**Q:** Where is Self Fusing Sports Silicone Tape made?

**A:** Self Fusing Sports Silicone Tape is manufactured by Zhonglei in China, ensuring high quality and reliable performance.

**Q:** How do I use Self Fusing Sports Silicone Tape?

**A:** To use Self Fusing Sports Silicone Tape, simply stretch and wrap the tape around the object you wish to seal. The tape will bond to itself, creating a tight, secure seal. It can be stretched up to 300% of its original length and will conform to any shape or surface.
