Product Description

Product Description:

This tape is available in six different colors - red, yellow, grey, black, green, and white - so you can choose the one that best suits your needs. Each roll is 10 feet in length, making it easy to use and apply as needed. The tape is also incredibly stretchy, with a stretchability of up to 400%, meaning it can be wrapped tightly around any area of the body without restricting movement.

At 20 mil thick, our Self Fusing Sports Silicone Tape is incredibly durable and long-lasting, making it perfect for use during intense physical activity. It is also self-fusing, meaning it will bond to itself once wrapped around an area, creating a strong and secure hold that won't come undone during exercise.

Whether you're an athlete looking for a reliable sports tape to support and protect your body during physical activity, or simply someone who needs a flexible and durable tape solution for everyday use, our Self Fusing Sports Silicone Tape is the perfect choice. Order yours today and experience the benefits of a high-quality, self-adhesive sports tape.

Features:

Product Name: Self Fusing Sports Silicone Tape

Thickness: 20 Mil

Material: Silicone

Tear Resistant: Yes

Self Fusing: Yes

Temperature Resistance: Up To 500°F

Introducing our Flexible Self-Bonding Sports Tape, also known as Adhesive Silicone Athletic Tape or Athletic Self-Fusing Silicone Bandage. This tape is made from durable silicone material and is tear resistant, ensuring strong support for your sports and athletic needs. With a thickness of 20 Mil, it offers reliable protection and self-fusing capabilities that bond to itself, providing a secure and long-lasting hold. Plus, it can withstand high temperatures up to 500°F, making it ideal for use during intense physical activity.

Self-adhesive Sports Silicone Tape	

Applications:

Whether you're a professional athlete, a fitness enthusiast, or a recreational sports player, this Self-Fusing Sports Silicone Tape is perfect for a wide variety of occasions and scenarios. Here are some of the most common applications of this versatile tape:

Protective Wrapping: Use this tape to wrap around any part of your body that needs protection or support, such as ankles, wrists, fingers, or elbows. Its self-bonding feature ensures that the tape adheres firmly to your skin or clothing without causing any irritation or discomfort.

Equipment Repair: Use this tape to repair any damaged sports equipment, such as hockey sticks, baseball bats, or golf clubs. Its stretchable and self-fusing properties make it an ideal solution for fixing cracks, chips, or holes in any type of equipment.

Water Sports: Use this tape to protect your skin and clothing from water-related damage during water sports activities, such as swimming, diving, or surfing. Its waterproof and UV-resistant properties ensure that the tape stays intact even in harsh water conditions.

Outdoor Sports: Use this tape to protect your skin and clothing from sunburn, windburn, or chafing during outdoor sports activities, such as hiking, camping, or climbing. Its UV-resistant and temperature-resistant properties make it suitable for use in extreme weather conditions.

Industrial Applications: Use this tape to seal, insulate, or protect any type of machinery or equipment in industrial settings. Its high-temperature resistance (up to 500°F) and self-bonding properties make it an ideal solution for a wide range of industrial applications. This Self-Fusing Sports Silicone Tape comes in a variety of colors, including red, yellow, grey, black, green, and white, making it easy to match with your team colors or personal preferences. Its self-bonding feature eliminates the need for adhesives or glue, making it easy to

use and mess-free. So, whether you're looking for a reliable sports tape for your personal use or for your team, zhonglei's Self-Bonding Athletic Silicone Tape is the perfect choice for you.

Customization:

Customize your zhonglei Flexible Self-Bonding Sports Tape with our product customization services. Our Self-Sealing Sport Tape is stretchable and tear resistant, with a thickness of 20 Mil. Made in China, this tape has a temperature resistance of up to 500°F and comes in a length of 10 feet and a width of 1 inch.

Support and Services:

Packing and Shipping:

Product Packaging:

The Self Fusing Sports Silicone Tape comes in a compact and sturdy box that ensures the tape stays protected during transportation. The box is made of high-quality cardboard material that is durable and eco-friendly. The product name and key features are printed on the box for easy identification.

Shipping:

Our shipping process is efficient and reliable. The product is carefully packed and shipped within 24 hours of receiving the order. We use trusted shipping partners to deliver the product to your doorstep within the promised time frame. You will receive a tracking number once the product is shipped so you can keep track of its delivery status.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is zhonglei.

Q: Where is this product made?

A: This product is made in China.

Q: What is the Self Fusing Sports Silicone Tape used for?

A: The Self Fusing Sports Silicone Tape is used for wrapping and protecting sports equipment, such as tennis rackets, hockey sticks, and golf clubs, as well as for repairing hoses and pipes.

Q: How does the Self Fusing Sports Silicone Tape work?

A: The Self Fusing Sports Silicone Tape creates a permanent, airtight, and watertight seal by fusing to itself when stretched and wrapped around a surface. No adhesive is needed.

Q: What is the temperature range for using the Self Fusing Sports Silicone Tape?

A: The Self Fusing Sports Silicone Tape can withstand temperatures from -60°C to 260°C (-76°F to 500°F), making it suitable for use in extreme weather conditions.
