Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Shelf Life: 5 Year
- Self-sticking: Yes
- Product Color: Gray, Sky Blue
- Minimum Operating Temperature (Celsius): -60°C
- Tensile Strength (Metric): 82 KPa
- Flexible: Yes
- Non-Adhesive: Yes
- Waterproof: Yes
- Highlight: Flex Self Fusing Pipe Repair Tape ,
Sky Blue Self Fusing Pipe Repair Tape ,
Non Adhesive Leakage Repair Waterproof Tape

Product Description

Product Description:

One of the most impressive features of this product is its waterproof capability. It is an ideal solution for repairing leaks in pipes that carry water or other fluids, making it a popular choice for plumbing professionals and DIY enthusiasts alike. The tape can create a tight seal around the damaged area, preventing any further leaks or damage.

The Self-fusing Plumbing Tape is also highly resistant to chemicals, making it a great option for use in industrial settings where pipes and hoses are exposed to a variety of corrosive substances. This tape can withstand exposure to acids, bases, solvents, and other harsh chemicals, ensuring that your repairs will last even in the toughest conditions.

In addition to being waterproof and chemical-resistant, this self-sealing pipe fix tape is also highly flexible. It can conform to the shape of the pipe or hose it is applied to, creating a tight and secure seal that can withstand vibrations and other movements. This flexibility is particularly important in situations where the pipe or hose is exposed to frequent changes in temperature or pressure.

The Self-fusing Plumbing Tape is also designed to be incredibly durable, with an elongation at break of 450%. This means that it can stretch and flex without breaking or losing its adhesive properties, ensuring that your repairs will last for a long time. The tape is rated for use in temperatures as low as -60°C, making it a great option for use in cold environments where other tapes may fail.

Overall, the Self-fusing Plumbing Tape is an excellent choice for anyone looking for a reliable and versatile solution for fixing leaks and cracks in pipes, hoses, and other plumbing systems. Its waterproof, chemical-resistant, and flexible properties make it an ideal option for use in a variety of applications, while its durability and strength ensure that your repairs will last for a long time. Whether you're a professional plumber or a DIY enthusiast, this tape is a must-have in your toolbox!

Features:

Product Name: Self Fusing Pipe Repair Tape

Length: 10 Feet

Shelf Life: 5 Years

Self Fusing: Yes

Durable: Yes

Self-sticking: Yes

This Self Fusing Pipe Repair Tape is a durable and self-sticking tape that can be used to fix pipes and other items. With a length of 10 feet, it is perfect for small repairs. The tape is self-fusing, which means it bonds to itself and creates a tight seal. It is also durable and has a shelf life of 5 years. This tape is also known as Self-fusing Duct Tape, Self-sealing Pipe Fix Tape, and Self-bonding Pipe Repair Tape.

Technical Parameters:

| Product Attribute | Value |
|--------------------|-----------------------------------------------------------------------------------------------|

| Self-sticking | Yes |
| Waterproof | Yes |
| Self Fusing | Yes |

Applications:

Emergency pipe repairs: This Self-amalgamating Pipe Fixing Tape is ideal for emergency pipe repairs, especially when the damage occurs in hard-to-reach areas. The tape can create an airtight and watertight seal around the pipe, preventing any further leakage or damage.

Plumbing repairs: The Self-bonding Plumbing Repair Tape is perfect for repairing leaks, cracks, and holes in pipes, fittings, and joints. The tape can withstand high pressure and temperature, making it suitable for use in plumbing systems.

Automotive repairs: The Self-mending Pipe Bandage is also useful for automotive repairs. It can fix leaks in hoses, pipes, and other automotive components. The tape is resistant to chemicals, oils, and fuels, ensuring a reliable and long-lasting repair.

Marine repairs: The zhonglei Self Fusing Pipe Repair Tape is suitable for marine repairs. It can fix leaks in hoses, pipes, and fittings in boats and other watercraft. The tape is resistant to saltwater, UV rays, and extreme temperatures, making it ideal for use in harsh marine environments.

Industrial repairs: The Self-amalgamating Pipe Fixing Tape is also useful for industrial repairs. It can fix leaks and cracks in pipes and fittings in industrial equipment and machinery. The tape is resistant to chemicals, oils, and fuels, ensuring a reliable and long-lasting repair.

The zhonglei Self Fusing Pipe Repair Tape is made of high-quality silicone material that can withstand a maximum operating temperature of 180°C (356 °F). It is available in two colors, gray and sky blue, and is chemical-resistant, making it suitable for use in various applications. Whether you need to fix a leak in your plumbing system, repair a hose in your car, or patch a damaged pipe in your industrial equipment, the zhonglei Self Fusing Pipe Repair Tape is an ideal solution.

Customization:

Brand Name: zhonglei

Place of Origin: China

Flexible: Yes

Minimum Operating Temperature (Celsius): -60°C

Length: 10 Feet

Durable: Yes

Tensile Strength (Metric): 82 KPa

Our Self-fusing Duct Tape is perfect for repairing leaking pipes and hoses. With our customizations, you can ensure that your tape is durable, flexible, and able to withstand extreme temperatures. Our Self-bonding Pipe Repair Tape is easy to use and will bond to itself, creating a strong seal around your pipe or hose. Choose zhonglei for high-quality, customizable tape for all your repair needs.

Support and Services:

Our Self Fusing Pipe Repair Tape is designed to provide quick and easy repairs for leaks and cracks in pipes. The tape is made of a high-strength silicone material that fuses to itself, creating a permanent seal without the need for any additional adhesive or tools. It is suitable for use on a wide range of pipes, including copper, PVC, and galvanized steel.

To use the tape, simply clean and dry the area around the leak or crack, then wrap the tape tightly around the affected area. The tape will begin to fuse to itself within minutes, creating a strong and durable seal that can withstand high pressure and extreme temperatures. In addition to its repair capabilities, our Self Fusing Pipe Repair Tape also has excellent electrical insulation properties, making it ideal for use in electrical applications. It is resistant to moisture, UV light, and most chemicals, ensuring that it will provide long-lasting performance in even the harshest environments.

If you have any questions or concerns about our Self Fusing Pipe Repair Tape, please do not hesitate to contact our technical support team. We are dedicated to providing the highest level of customer service and support, and we are committed to ensuring that our customers are satisfied with their purchase.
