Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Durable: Yes
- Color: Black
- Self-sticking: Yes
- Chemical Resistant: Yes
- Shelf Life: 5 Year
- Chemical-resistant: Yes
- Uv Resistant: Yes
- Versatile: Yes
- Highlight: **Non Adhesive Self Fusing Pipe Repair Tape ,
Durable Self Fusing Pipe Repair Tape ,
Chemical Resistant Pipe Fix Tape**

Product Description

Product Description:

The Self-sealing Pipe Fix Tape is UV-resistant, making it suitable for use in outdoor environments where sunlight is present. This means that the tape will not degrade or break down when exposed to UV rays, ensuring that it remains effective for a long time.

The tape is also chemical-resistant, which makes it resistant to the corrosive effects of chemicals and other substances that may be present in the pipes. This feature makes the tape ideal for use in a wide range of applications, including industrial settings where chemical exposure is common.

The Self-sealing Pipe Fix Tape has a shelf life of five years, which means that it can be stored for a long time without degrading or losing its effectiveness. This makes it a useful addition to any toolkit or emergency repair kit, as it can be kept on hand for quick and easy repairs when needed.

The tape is available in black, which makes it easy to blend in with most pipes and plumbing fixtures. This allows for a seamless repair that does not detract from the appearance of the plumbing system.

The Self-sealing Pipe Fix Tape has a tensile strength of 82 kPa, which means that it can withstand a significant amount of pressure without breaking or tearing. This makes it a reliable solution for fixing minor leaks and cracks in pipes, ensuring that the repair is long-lasting and effective in preventing further damage.

Overall, the Self-sealing Pipe Fix Tape is a valuable tool for any homeowner or plumber who needs to fix minor pipe leaks quickly and efficiently. Its UV and chemical resistance, long shelf life, black color, and high tensile strength make it a reliable and effective solution for repairing leaking pipes.

Features:

Product Name: Self Fusing Pipe Repair Tape

Minimum Operating Temperature (Celsius): -60°C

Non-Adhesive: Yes

Flexible: Yes

Versatile: Yes

Tensile Strength (Metric): 82 KPa

This Self Fusing Pipe Repair Tape is a must-have for any plumber or DIY enthusiast. It is a self-bonding, self-amalgamating, and self-adhesive tape that can be used to repair any leaky pipes or fittings. With a minimum operating temperature of -60°C, this tape can withstand extreme temperatures and is perfect for both indoor and outdoor use. Its non-adhesive nature makes it easy to handle and apply, and its flexibility allows it to conform to any shape or size. This versatile tape can also be used to repair hoses, electrical wires, and other similar items. With a tensile strength of 82 KPa, this Self Fusing Pipe Repair Tape is a reliable and durable solution for all your pipe repair needs.

Technical Parameters:

| Product Attribute | Value |
|---|------------------------------------|
| Product Name | Self-amalgamating Pipe Repair Tape |
| Self-sticking | Yes |
| Tensile Strength (Metric) | 82 KPa |
| Flexible | Yes |
| Minimum Operating Temperature (Celsius) | -60°C |
| Elongation at Break | 450% |
| Versatile | Yes |
| Color | Black |
| Length | 10 Feet |
| Self Fusing | Yes |
| Material | Silicone |

Applications:

One of the most important features of this tape is its self-fusing capability, which allows it to bond to itself and create a strong seal around the damaged area. This means that you do not need any adhesives or tools to apply the tape, making it a quick and easy solution for emergency repairs.

The Zhonglei Self-fusing Plumbing Tape is also highly flexible, which means that it can conform to the shape of the pipe and create a tight seal even in hard-to-reach areas. Its elongation at break of 450% and tensile strength of 82 KPa make it a robust and reliable solution that can withstand various pressures and stresses.

Moreover, this tape is chemical-resistant, which means that it can withstand exposure to various chemicals and substances without deteriorating or losing its effectiveness. This makes it an ideal solution for fixing leaks and damages in chemical processing plants, water treatment facilities, and other industrial settings.

So, whether you need to fix a leaky pipe in your home or repair a damaged pipe in an industrial facility, the Zhonglei Self-sealing Pipe Fix

Tape is the perfect solution for all your plumbing repair needs. Its self-fusing, flexible, and chemical-resistant features make it a reliable and long-lasting solution that can save you time and money on costly repairs.

Customization:

Support and Services:

Our Self Fusing Pipe Repair Tape is a high-quality product designed to provide a quick and easy solution for repairing leaks in pipes. Made from self-fusing silicone rubber, this tape bonds to itself to create a tight seal that is resistant to water, oil, and other chemicals. The tape is easy to use and requires no special tools or skills. Simply clean and dry the surface to be repaired, wrap the tape around the damaged area, and stretch it slightly to activate the self-fusing properties. The tape will adhere to itself and create a strong, long-lasting seal.

Our technical support team is available to provide assistance with any questions or concerns you may have about using our Self Fusing Pipe Repair Tape. We also offer a range of services to help you get the most out of our product, including product training, installation support, and repair services.

At our company, we are committed to providing our customers with high-quality products and excellent customer service. Contact us today to learn more about our Self Fusing Pipe Repair Tape and how we can help you with your pipe repair needs.
