### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Uv Resistant: Yes
- Elongation At Break: 450%
- Color: Black
- Self-sticking: Yes
- Maximum Operating Temperature(Celsius): 180°C
- Versatile: Yes
- Chemical Resistant: Yes
- Tensile Strength (Metric): 82 KPa
- Highlight: **Black Self Adhesive Silicone Tape,  
Self Adhesive Silicone Tape UV Resistant,  
Pipe Silicone Tape Leak Repair**

## Product Description

### Product Description:

This Self-sealing Pipe Fix Tape is highly flexible and can wrap around any shape or size, making it perfect for emergency repairs. It can easily bond to itself, creating a strong, durable seal that will last for years. This Self-bonding Plumbing Repair Tape is perfect for use on plastic, metal, and rubber pipes, and can also be used on hoses, cables, and other fixtures.

The Self Fusing Pipe Repair Tape has a shelf life of five years, making it a reliable tool to keep in your toolbox for emergencies. Its self-sticking properties make it easy to apply, and it can be used even in wet conditions. This tape can withstand temperatures as low as -60°C, making it perfect for use in cold climates or in refrigeration systems.

This Self-sealing Pipe Fix Tape is also highly chemical-resistant, making it ideal for use in industrial settings or for repairing chemical pipes. It can withstand exposure to oils, solvents, acids, and alkalis, ensuring that your repairs are long-lasting and reliable.

In summary, the Self Fusing Pipe Repair Tape is a flexible, self-sticking, self-amalgamating pipe repair tape that is perfect for emergency repairs. It has a shelf life of five years, can withstand extreme temperatures, and is highly chemical-resistant, making it ideal for use in industrial settings or for repairing chemical pipes.

### Features:

Product Name: Self Fusing Pipe Repair Tape

Chemical Resistant: Yes

Color: Black

Self-sticking: Yes

Maximum Operating Temperature (Fahrenheit): 356 °F

Non-Adhesive: Yes

This Self Fusing Pipe Repair Tape is a **Self-sealing Pipe Fix Tape**, **Self-amalgamating Pipe Repair Tape**, and **Self-bonding Pipe Repair Tape**. It is resistant to chemicals and has a maximum operating temperature of 356 °F. The tape is black in color and is self-sticking. Additionally, it is non-adhesive.

### Technical Parameters:

Elongation at Break:	450%
Chemical Resistant:	Yes
Product Color:	Gray, Sky Blue
Color:	Black
Self-sticking:	Yes
Easy To Use:	Yes
Minimum Operating Temperature (Celsius):	-60°C
Material:	Silicone
Maximum Operating Temperature (Fahrenheit):	356 °F
Tensile Strength (Metric):	82 KPa

This Self-sealing Pipe Leak Tape, Self-amalgamating Pipe Fixing Tape, Self-adhesive Pipe Repair Tape product is perfect for fixing leaks and breaks in pipes. With an elongation at break of 450%, it is highly flexible and durable. It is also chemical resistant and comes in either gray, sky blue, or black color options. The self-sticking and easy to use design makes it a great option for quick repairs. It can withstand temperatures as low as -60°C and as high as 356 °F, and has a tensile strength of 82 KPa.

### Applications:

Self-sealing Pipe Fix Tape is an excellent product for repairing pipes that have leaks. The tape can be used to fix broken, cracked, or leaking pipes, and it creates a strong bond that seals the leak, preventing further leakage. The tape is also resistant to chemicals, making it perfect for use in chemical plants, factories, and other industrial settings where chemicals may cause pipe damage.

Self-bonding Plumbing Repair Tape is perfect for plumbing applications in homes and commercial buildings. The tape can be used to repair leaking pipes and joints, and it can also be used to secure pipes in place. The tape is easy to use and can be applied without any special tools or equipment. It creates a strong bond that seals the leak, preventing further damage.

Self-amalgamating Pipe Repair Tape is perfect for repair applications that require a strong bond. The tape bonds to itself, creating a tight seal that is resistant to water, chemicals, and other substances. The tape is ideal for use in outdoor applications where exposure to the elements may cause damage. It is also perfect for use in marine applications, where exposure to saltwater may cause damage to pipes and other equipment.

The Self-sealing Pipe Fix Tape, Self-bonding Plumbing Repair Tape, and Self-amalgamating Pipe Repair Tape from Zhonglei are versatile products that can be used in different applications. They are perfect for repairing pipes and other equipment that may require a strong bond. Whether you are a homeowner, a plumber, or an industrial worker, these tapes are essential products that you should have in your toolbox.

## Customization:

Brand Name: zhonglei

Place of Origin: China

Chemical Resistant: Yes

Self Fusing: Yes

Maximum Operating Temperature (Fahrenheit): 356 °F

Product Color: Gray, Sky Blue

Shelf Life: 5 Year

Our Self-sealing Pipe Fix Tape is ideal for repairing leaks and breaks in pipes, hoses, and tubing. Its self-fusing properties make it easy to apply and provide a tight, long-lasting seal. Our Self-fusing Duct Tape is also chemical-resistant, ensuring that it can withstand harsh environments and chemicals.

## Support and Services:

Our Self Fusing Pipe Repair Tape is designed to provide a quick and easy solution for repairing leaks and cracks in pipes. The tape is made from a specially formulated silicone rubber that fuses to itself when stretched and wrapped around a pipe, creating a permanent seal. It is suitable for use on a wide range of pipe materials, including copper, steel, plastic, and rubber.

To use the tape, simply clean and dry the damaged area of the pipe, then stretch and wrap the tape around it, overlapping each layer by at least half the width of the tape. The tape will bond to itself within minutes, and will fully cure within 24 hours. Once cured, the tape will provide a strong and flexible seal that can withstand high pressure and temperature changes.

If you have any questions or concerns about using our Self Fusing Pipe Repair Tape, our technical support team is available to assist you. We also offer a range of services, including product training, installation support, and custom solutions to meet your specific needs. Contact us today to learn more.

## FAQ:

### Q: What is Self Fusing Pipe Repair Tape?

A: Self Fusing Pipe Repair Tape is a silicone-based tape that is used to repair leaks in pipes, hoses, and other plumbing fixtures. It fuses to itself and creates a watertight seal without the need for adhesives or tools.

### Q: Is Self Fusing Pipe Repair Tape easy to use?

A: Yes, Self Fusing Pipe Repair Tape is very easy to use. Simply clean the area to be repaired, stretch the tape to the desired length, and wrap it around the damaged area. The tape will stick to itself and create a tight seal.

### Q: Where is Self Fusing Pipe Repair Tape made?

A: Self Fusing Pipe Repair Tape is made by the zhonglei brand in China.

### Q: What types of materials can Self Fusing Pipe Repair Tape be used on?

A: Self Fusing Pipe Repair Tape can be used on a variety of materials, including copper, PVC, rubber, and plastic. It is also heat-resistant and can be used on hot water pipes.

### Q: Is Self Fusing Pipe Repair Tape a permanent fix?

A: While Self Fusing Pipe Repair Tape can provide a long-lasting repair, it is not considered a permanent fix. It can be used as a temporary solution until a more permanent repair can be made.
