

0.8mm Tear Resistant Self Fusing Electrical Tape Silicone Waterproof Insulation Tape

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Uv Resistant: Yes
- Color: Black
- Adhesive: No
- Tear Resistant: Yes
- Application: Electrical Insulation And Sealing
- Temperature Resistance: Up To 260°C
- Material: Silicone
- Thickness: 0.8mm
- Highlight: **0.8mm Self Fusing Electrical Tape,
Tear Resistant Self Fusing Electrical Tape,
Silicone Waterproof Insulation Tape**

Product Description

Product Description:

The Self-Bonding Insulating Tape is designed to withstand high temperatures of up to 260°C, making it ideal for use in hot environments. It is also tear-resistant, ensuring that it stays intact even under extreme conditions.

This product comes in the color black, making it easy to blend in with other electrical components. Its thickness of 0.8mm provides a sturdy layer of insulation, protecting electrical wires and other components from damage and reducing the risk of electrical hazards. Whether you're an electrician, mechanic, or DIY enthusiast, the Self-Bonding Insulating Tape is an essential tool to have in your kit. Its unique self-bonding feature ensures that it stays in place, even in challenging conditions. It is perfect for use in electrical repairs, automotive repairs, and a wide range of other applications.

Features:

Product Name: Self Fusing Electrical Tape

Insulation: Yes

Color: Black

UV Resistant: Yes

Material: Silicone

Length: 5m

This Self Fusing Electrical Tape, also known as Self-Amalgamating Electrical Tape, Self-Amalgamating High Voltage Tape, or Self-Bonding Insulating Tape, is a black silicone tape that provides insulation and is UV resistant. It comes in a length of 5 meters.

Technical Parameters:

Length	5m
Stretchable	Yes
Waterproof	Yes
Width	50mm
Adhesive	No
Color	Black
Temperature Resistance	Up to 260°C
UV Resistant	Yes
Self-Fusing	Yes
Application	Electrical insulation and sealing

This Self-Fusing Silicone Tape, also known as Self-Sealing Electrical Tape or Self-Bonding Electrical Tape, is a high-quality product that provides excellent waterproofing and insulation for electrical applications. It is stretchable, UV resistant, and has a temperature resistance of up to 260°C. With its self-fusing properties, it creates a strong, permanent bond without the need for adhesive.

Applications:

The Self Fusing Electrical Tape is an essential tool for electricians, homeowners, and DIY enthusiasts. It is perfect for fixing and sealing electrical wires, cables, and hoses. This product is ideal for use in automotive, marine, and aerospace industries, as well as for household, commercial, and industrial applications.

This tape is stretchable, allowing it to conform to any surface, making it perfect for sealing and repairing leaks in pipes and hoses. It also provides excellent insulation, making it ideal for use in high-temperature environments. The Self Fusing Electrical Tape is also tear-resistant, ensuring that it will not break or tear easily, making it a reliable tool for all your electrical needs.

With its self-sealing properties, the Self Fusing Electrical Tape can be used to seal and protect electrical connections from moisture and corrosion. It is perfect for use in harsh and humid environments, ensuring that your electrical connections remain safe and secure.

The Self Fusing Electrical Tape is perfect for use in numerous occasions, including electrical wiring and repairs, automotive, marine, and aerospace industries, plumbing, and HVAC applications. It can also be used in household repairs and DIY projects.

So, whether you're a professional electrician, a homeowner, or a DIY enthusiast, the Self Fusing Electrical Tape from zhonglei is an essential tool to have in your toolkit. With its stretchable, tear-resistant, and insulating properties, it is perfect for all your electrical needs.

Customization:

Customize your zhonglei Self-Fusing Electrical Tape to meet your specific needs with our product customization services. Our Self-Sealing Rubber Tape, also known as Self-amalgamating Electrical Tape or Self-Bonding Silicone Tape, is a high-quality tape made in China that is perfect for electrical insulation and sealing.

Our customization options include:

UV resistance for added durability and longevity

Black color for a sleek and professional look

Waterproofing for maximum protection

Stretchability to ensure a tight and secure fit

Choose from our range of customization options to create a zhonglei Self-Fusing Electrical Tape that is tailored to your specific needs. Trust in the quality of our product, made in China, and enjoy reliable and long-lasting electrical insulation and sealing.

Support and Services:

Our Self Fusing Electrical Tape is a high-quality, silicone-based tape that provides superior insulation and protection for a wide range of electrical applications. It is designed to fuse to itself, creating a permanent, air and water-tight seal that helps prevent corrosion, moisture, and other environmental factors from damaging your electrical connections.

Our technical support team is available to answer any questions you may have about the product, including how to use it effectively for your specific application. We also offer a range of services to help you get the most out of your Self Fusing Electrical Tape, including installation and maintenance support, custom product development, and more.

Our goal is to ensure that you have the tools and resources you need to successfully complete your electrical projects with confidence. Contact us today to learn more about our Self Fusing Electrical Tape and the support and services we offer.

Packing and Shipping:

Product Packaging:

The Self Fusing Electrical Tape comes in a compact and sturdy plastic case. The case is designed to protect the tape from damage and to keep it safe from moisture and dirt. The case is lightweight and easy to carry, making it convenient for users to carry it around in their toolboxes or bags.

Shipping:

The Self Fusing Electrical Tape will be shipped in a secure and durable package to ensure that it arrives in perfect condition. The package will be carefully wrapped and sealed to prevent any damage during transit. We offer standard and expedited shipping options to our customers and provide tracking information for all orders.

FAQ:

Q: What is Self Fusing Electrical Tape?

A: Self Fusing Electrical Tape is a type of silicone rubber tape that fuses to itself when stretched and wrapped around a wire or cable. It provides electrical insulation and is commonly used in electrical applications.

Q: What makes zhonglei's Self Fusing Electrical Tape different from other brands?

A: zhonglei's Self Fusing Electrical Tape is made with high-quality silicone rubber and is designed to withstand extreme temperatures, moisture, and UV radiation. It is also easy to use and provides a strong, long-lasting bond.

Q: Where is zhonglei's Self Fusing Electrical Tape made?

A: zhonglei's Self Fusing Electrical Tape is made in China.

Q: What are the dimensions of zhonglei's Self Fusing Electrical Tape?

A: zhonglei's Self Fusing Electrical Tape is 1 inch wide and 10 feet long.

Q: What types of applications is zhonglei's Self Fusing Electrical Tape suitable for?

A: zhonglei's Self Fusing Electrical Tape is suitable for a wide range of electrical applications, including insulating wires and cables, sealing hoses and pipes, and wrapping tools and handles. It can be used in both indoor and outdoor environments.
