### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Waterproof: Yes
- Color: Black
- Chemical Resistant: Yes
- Self-sticking: Yes
- Maximum Operating Temperature(Celsius): 180°C
- Self Fusing: Yes
- Easy To Use: Yes
- Shelf Life: 5 Year
- Highlight: **Black Self Fusing Pipe Repair Tape ,  
Self Fusing Pipe Repair Tape Chemical  
Resistant  
, Black Waterproof Tape For Pipe Leaks**

## Product Description

### Product Description:

The Self Fusing Pipe Repair Tape is incredibly flexible, making it ideal for use on pipes that are difficult to access or in tight spaces. This tape is self-bonding, which means it fuses to itself to create a tight seal that is resistant to water, air, and other fluids. This makes it an excellent choice for emergency plumbing repairs, as it can be used to quickly stop leaks and prevent further damage.

The Self Fusing Pipe Repair Tape can withstand temperatures up to 180°C, making it suitable for use in a variety of applications. Whether you need to repair a hot water pipe or fix a hose on a car engine, this tape can handle the job. The tape is also chemical resistant, which means it can be used in environments where it may be exposed to harsh chemicals or solvents.

The Self Fusing Pipe Repair Tape is incredibly versatile and can be used on a wide range of materials, including metal, plastic, rubber, and more. This makes it an excellent choice for any DIY project or emergency repair. It can be used to repair pipes, hoses, fittings, and other plumbing components, as well as for electrical repairs, automotive repairs, and more.

Overall, the Self Fusing Pipe Repair Tape is an essential tool for any homeowner or plumber. Whether you need to make a quick emergency repair or a more permanent fix, this tape is up to the task. With its flexible, self-bonding design and ability to withstand high temperatures and harsh chemicals, the Self Fusing Pipe Repair Tape is sure to become a go-to tool for all your repair needs.

Keywords: Self-bonding Pipe Repair Tape, Self-bonding Plumbing Repair Tape, Self-fusing Plumbing Tape

### Features:

Product Name: Self Fusing Pipe Repair Tape

Easy To Use: Yes

Tensile Strength (Metric): 82 KPa

Maximum Operating Temperature(Celsius)): 180°C

Color: Black

Self Fusing: Yes

This Self Fusing Pipe Repair Tape is also known as Self-amalgamating Pipe Repair Tape, Self-amalgamating Pipe Fixing Tape, and Self-adhesive Pipe Repair Tape.

### Technical Parameters:

Color	Black
Non-Adhesive	Yes
Maximum Operating Temperature (Fahrenheit)	356 °F
UV Resistant	Yes
Versatile	Yes
Self Fusing	Yes
Easy To Use	Yes
Material	Silicone
Tensile Strength (Metric)	82 KPa
Elongation at Break	450%

### Applications:

With a length of 10 feet, this self-bonding pipe repair tape is ideal for fixing leaks and cracks in pipes, hoses, and other types of tubing. It is also great for repairing electrical wires, cables, and other equipment that needs a strong and reliable seal. Whether you are a DIY enthusiast or a professional plumber, this tape is a must-have tool in your toolbox.

One of the key features of this self-fusing duct tape is its ability to create a waterproof seal that can withstand harsh chemicals and UV rays. This makes it perfect for use in industrial settings, such as factories, chemical plants, and refineries. It is also ideal for use in marine environments, where saltwater and other corrosive substances can cause damage to pipes and other types of equipment.

Another advantage of this self-bonding pipe repair tape is its ease of use. Simply wrap the tape around the damaged area and stretch it slightly to activate the self-fusing properties. The tape will bond to itself and form a tight seal that is strong and durable. This means that you can fix leaks and cracks quickly and easily, without the need for expensive tools or equipment.

In summary, if you are looking for a high-quality self-amalgamating pipe repair tape that is chemical-resistant, UV resistant, and easy to use, then look no further than zhonglei. This self-fusing duct tape is perfect for a wide range of applications and scenarios, from fixing leaks in pipes and hoses to repairing electrical wires and cables. Order yours today and experience the reliability and durability of this amazing product!

### Customization:

## Support and Services:

Our Self Fusing Pipe Repair Tape is a silicone-based tape that provides a quick and easy solution for repairing leaks, cracks, and breaks in pipes. The tape self-bonds and fuses to create a permanent seal without the need for additional adhesives or tools. The tape is resistant to high temperatures, chemicals, and UV exposure, making it suitable for use in a wide range of applications. It is also flexible and stretchy, allowing it to conform to irregular shapes and surfaces. To use the tape, simply clean and dry the area to be repaired, wrap the tape around the pipe, and stretch it slightly as you wrap to activate the self-fusing properties. The tape will fuse together within minutes, creating a watertight seal that can withstand pressure up to 700 PSI. If you have any questions about our Self Fusing Pipe Repair Tape or need assistance with a repair, please contact our technical support team for assistance.

## Packing and Shipping:

The Self Fusing Pipe Repair Tape is packaged in a durable plastic container that protects the tape from damage and moisture. The container is compact and easy to store, with dimensions of 5 inches in length, 2 inches in width, and 1.5 inches in height. The tape is wrapped tightly around a circular spool, ensuring that it stays in place during transport.

Shipping:

The Self Fusing Pipe Repair Tape is shipped in a sturdy cardboard box that provides additional protection during transport. The box is labeled with the product name and includes handling instructions to ensure that the tape is not damaged during shipping. The tape is shipped via standard ground shipping and typically arrives within 5-7 business days.

## FAQ:

Q: What is Self Fusing Pipe Repair Tape?

A: Self Fusing Pipe Repair Tape is a silicone-based tape used to repair leaks and cracks in pipes. It is made by the brand Zhonglei and comes from China.

Q: How does Self Fusing Pipe Repair Tape work?

A: This tape is self-fusing, meaning it bonds to itself without the need for adhesive. When stretched and wrapped around a pipe, it creates a tight, waterproof seal that stops leaks and prevents further damage.

Q: What types of pipes can Self Fusing Pipe Repair Tape be used on?

A: This tape can be used on a variety of pipes, including PVC, copper, steel, and more. It is suitable for use on both hot and cold water pipes.

Q: Is Self Fusing Pipe Repair Tape easy to apply?

A: Yes, this tape is very easy to apply. Simply clean the area around the leak, stretch the tape and wrap it tightly around the pipe, overlapping each layer slightly. It sets in just a few minutes and can be used immediately after application.

Q: Is Self Fusing Pipe Repair Tape a permanent solution?

A: While this tape provides a strong and durable seal, it is not considered a permanent solution. Depending on the severity of the damage, it may need to be reapplied or replaced at a later time.
