Maximum Operating Temperature(Celsius): 180°C

Durable: Yes

Minimum Operating Temperature (Celsius): -60°C

Keywords: Self-amalgamating Pipe Fixing Tape, Self-fusing Duct Tape, Self-mending Pipe Bandage

Technical Parameters:

Product Name	Self-fusing Pipe Repair Tape
Product Type	Self-bonding Plumbing Repair Tape
Chemical-resistant	Yes
Color	Black
Flexible	Yes
Non-Adhesive	Yes
Material	Silicone
Length	10 Feet
Self-sticking	Yes
Easy To Use	Yes
Versatile	Yes

Applications:

One of the most common applications for this self-fusing duct tape is in the repair of pipes. Whether it's a leaky water pipe or a damaged gas line, this self-adhesive pipe repair tape can provide a quick and easy solution. The tape is designed to create a permanent, watertight seal that can withstand high pressure and extreme temperatures.

In addition to pipe repair, this self-sealing pipe fix tape can also be used for a variety of other applications. It can be used to seal and protect electrical connections, repair hoses and tubing, and even patch holes in roofs and gutters. The versatility of this product makes it an essential tool for any DIY enthusiast or professional tradesperson.

The zhonglei Self-fusing Pipe Repair Tape is available in two attractive colors: gray and sky blue. The 10-foot length of tape provides ample material for most repair jobs, while the durable construction ensures that the tape will last for years to come. Whether you're a homeowner, plumber, or electrician, this self-fusing duct tape is a must-have for your toolkit.

Customization:

Looking for a reliable solution to fix your pipes? Try our self-fusing plumbing tape from zhonglei, made in China. This self-adhesive pipe repair tape is designed to stick to itself, creating a strong and durable bond that can withstand extreme temperatures as low as -60°C. With a length of 10 feet, you can easily customize the size of the tape to fit your specific needs. Available in the colors of gray and sky blue, our self-bonding pipe repair tape is also flexible, allowing it to conform to any shape or angle for a secure fit. Trust our product customization services to create a tailored solution for your plumbing needs.

Support and Services:

The Self Fusing Pipe Repair Tape is a high-quality, silicone-based tape designed to provide a quick and easy solution for repairing leaks and cracks in pipes. The tape is self-fusing, which means that it bonds to itself when wrapped around a pipe, creating a permanent seal. This makes it an ideal solution for emergency repairs or for situations where traditional pipe repair methods are not possible.

In addition to its sealing properties, the Self Fusing Pipe Repair Tape is also highly resistant to heat, cold, and other harsh environmental

conditions. This makes it ideal for use in a wide range of applications, including plumbing, automotive, and electrical repairs.

To use the Self Fusing Pipe Repair Tape, simply clean and dry the area around the leak or crack, then wrap the tape tightly around the affected area. The tape will begin to fuse to itself within minutes, creating a strong, permanent seal. For best results, it is recommended that you wrap the tape several times around the affected area, ensuring that it is tightly sealed.

If you have any questions or concerns about the Self Fusing Pipe Repair Tape, please do not hesitate to contact our technical support team. Our team of experts is always available to provide assistance and answer any questions you may have.
