### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Flexible: Yes
- Maximum Operating Temperature(Celsius): 180°C
- Length: 10 Feet
- Material: Silicone
- Minimum Operating Temperature (Celsius): -60°C
- Easy To Use: Yes
- Waterproof: Yes
- Maximum Operating Temperature (Fahrenheit): 356 °F
- Highlight: **Silicone Tape Leak Repair 10ft ,  
Temperature Resistant Silicone Tape Leak**

## Product Description

### Product Description:

Our Self Fusing Pipe Repair Tape is made of high-quality silicone rubber that is both durable and versatile. It is self-adhesive, so there is no need for any messy glues or adhesives. The tape is easy to apply and can be used for a variety of applications, such as fixing leaks, patching holes, or reinforcing weak spots.

One of the key features of our Self Fusing Pipe Repair Tape is its flexibility. The tape can be stretched and molded to conform to any shape or size, making it perfect for repairing pipes and hoses that are difficult to access. It is also self-fusing, which means that it bonds to itself without the need for any additional tools or materials.

Our Self Fusing Pipe Repair Tape has an elongation at break of 450%, which means that it can stretch up to 4.5 times its original length before breaking. This makes it ideal for use in high-stress applications, such as repairing pipes that are subject to constant pressure or vibration.

In addition to its flexibility and self-bonding properties, our Self Fusing Pipe Repair Tape is also highly versatile. It can be used to repair a wide range of plumbing fixtures, including pipes, hoses, fittings, valves, and more. It is also suitable for use in a variety of industries, such as automotive, marine, and aerospace.

Our Self Fusing Pipe Repair Tape has a maximum operating temperature of 356 °F, making it suitable for use in high-temperature applications. It is resistant to water, oil, and most chemicals, which means that it can be used in a variety of harsh environments.

If you are looking for a reliable and easy-to-use solution for repairing pipes and other plumbing fixtures, look no further than our Self Fusing Pipe Repair Tape. With its flexible, self-bonding design, this tape is the perfect choice for any DIY enthusiast or professional plumber.

### Features:

Product Name: Self Fusing Pipe Repair Tape

Chemical-resistant: Yes

Length: 10 Feet

Material: Silicone

Minimum Operating Temperature (Celsius): -60°C

Shelf Life: 5 Years

Keywords: Self-bonding Plumbing Repair Tape, Self-sealing Pipe Fix Tape, Self-sealing Pipe Leak Tape

### Technical Parameters:

Product Name	Self-fusing Duct Tape
Product Type	Self-bonding Pipe Repair Tape
Material	Silicone
Color	Black
Product Color Options	Gray, Sky Blue
Non-Adhesive	Yes
Chemical Resistant	Yes
Elongation at Break	450%
Minimum Operating Temperature (Celsius)	-60°C
Maximum Operating Temperature (Celsius)	180°C
Maximum Operating Temperature (Fahrenheit)	356 °F
Easy To Use	Yes

### Applications:

One of the primary applications for this Self-bonding Pipe Repair Tape is in plumbing repairs. It can be used to fix leaks and cracks in pipes, fittings, and hoses. This tape adheres strongly to the surface, creating a tight and secure seal that prevents leaks and ensures efficient water flow. It is also suitable for repairing damaged or corroded pipes, making it a cost-effective solution for homeowners and professionals alike.

The Self-bonding Plumbing Repair Tape is also ideal for use in automotive repairs. It can be used to fix hoses, cables, and wires, creating a strong and durable bond that can withstand harsh conditions. This tape is resistant to high temperatures and chemicals, making it perfect for use in engine compartments and other harsh environments.

Another common application for the Self-bonding Pipe Repair Tape is in industrial settings. It can be used to repair pipes, machinery, and equipment, providing a quick and easy solution for maintenance and repair tasks. This tape is highly versatile and can be used in a wide range of industries, including manufacturing, construction, and agriculture.

The Self-bonding Pipe Repair Tape is also an excellent choice for DIY projects. It can be used to fix a variety of household items, including garden hoses, electrical cords, and outdoor furniture. This tape is easy to use and requires no special tools or equipment, making it a convenient solution for any homeowner.

Overall, the Self-bonding Pipe Repair Tape by Zhonglei is a versatile and reliable product that can be used in a wide range of

applications. Its self-sticking and chemical-resistant properties, combined with its high elongation at break, make it an ideal solution for plumbing, automotive, industrial, and DIY repairs. Choose this tape for a quick, easy, and cost-effective solution to all your repair needs.

## Customization:

## Support and Services:

The Self Fusing Pipe Repair Tape is a versatile and durable solution for repairing leaks and damage in pipes. Our tape is made from high-quality silicone rubber that fuses to itself, creating a strong and long-lasting bond. It is ideal for use on pipes that carry water, gas, oil, and other fluids.

Our tape is easy to use and requires no special tools or expertise. Simply wrap the tape tightly around the damaged area, stretching it slightly as you go. As the tape fuses to itself, it creates a seamless and waterproof seal that can withstand high pressure and extreme temperatures.

Our product is also resistant to UV rays, chemicals, and abrasion, making it ideal for use in harsh environments. It can be used on a wide range of materials, including metal, plastic, rubber, and fiberglass.

If you have any questions or concerns about our Self Fusing Pipe Repair Tape, please do not hesitate to contact our technical support team. We are available to provide assistance and answer any questions you may have about our product.

## Packing and Shipping:

### Product Packaging:

The Self Fusing Pipe Repair Tape comes in a compact, easy-to-store box that measures 3 inches by 3 inches by 1.5 inches. The tape is wrapped around a roll, with a total length of 10 feet. The box also includes instructions on how to use the tape for quick and easy repairs.

### Shipping Information:

All orders of Self Fusing Pipe Repair Tape are shipped within 24 hours of purchase. We offer standard shipping, which takes 3-5 business days for delivery, and expedited shipping, which takes 1-2 business days for delivery. Shipping costs vary based on the destination and the shipping method selected. We ship to all 50 states in the United States, as well as internationally.

## FAQ:

### Q: What is Self Fusing Pipe Repair Tape?

A: Self Fusing Pipe Repair Tape is a high-performance silicone tape that can be used to quickly and easily repair leaks and cracks in pipes and hoses.

### Q: What makes zhonglei Self Fusing Pipe Repair Tape different from other tapes?

A: Our Self Fusing Pipe Repair Tape is made from high-quality silicone rubber that is durable, flexible, and resistant to extreme temperatures and harsh chemicals.

### Q: Where is zhonglei Self Fusing Pipe Repair Tape made?

A: Our Self Fusing Pipe Repair Tape is proudly made in China, using only the highest quality materials and manufacturing processes.

### Q: How do I use zhonglei Self Fusing Pipe Repair Tape?

A: To use our Self Fusing Pipe Repair Tape, simply clean and dry the area around the leak or crack, wrap the tape tightly around the damaged area, and press it firmly into place. The tape will fuse to itself, creating a strong, watertight seal.

### Q: What types of pipes and hoses can zhonglei Self Fusing Pipe Repair Tape be used on?

A: Our Self Fusing Pipe Repair Tape can be used on a wide variety of pipes and hoses, including PVC, copper, steel, rubber, and more. It is also suitable for use on both hot and cold water systems, as well as many chemicals and fuels.
