

Green Self Sealing Electrical Tape UV / Tear Resistant Self Fusing Silicone Tape

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Self-Fusing: Yes
- Uv Resistant: Yes
- Tear Resistant: Yes
- Adhesive: No
- Voltage Resistance: Up To 30KV
- Insulation: Yes
- Material: Silicone
- Waterproof: Yes
- Highlight: **Green Self Sealing Electrical Tape,
Self Sealing Electrical Tape UV Resistant,
Tear Resistant Self Fusing Silicone Tape**

Product Description

Product Description:

One of the key features of this Self-amalgamating Electrical Tape is its thickness. With a thickness of 0.8mm, this tape is strong and durable enough to provide excellent insulation and protection against electrical current and voltage. It also helps to prevent short circuits, making it an essential tool for any electrician.

Another important attribute of this Self-Sealing Electrical Tape is its width. At 50mm, this tape is wide enough to cover large areas and provide a tight, secure seal. This makes it ideal for use in a wide range of electrical applications, including wire splicing, cable bundling, and electrical insulation.

This Self-Fusing Electrical Tape is also self-fusing, which means that it creates a strong, permanent bond when wrapped around itself. This feature makes it easy to use and allows for quick, hassle-free installation. It is also tear-resistant, which means that it can withstand wear and tear, making it an excellent choice for long-term use.

The Self-Sealing Rubber Tape is an excellent insulator, providing superior protection against electrical current and voltage. It also helps to prevent short circuits, making it an essential tool for any electrician. It is also resistant to water, oil, and chemicals, making it ideal for use in harsh environments.

In conclusion, the Self-Fusing Electrical Tape is a reliable and long-lasting solution for various electrical applications. Its thickness, width, and self-fusing properties make it an excellent choice for any electrical or mechanical project that requires a high-quality tape that can withstand harsh weather conditions and extreme temperatures. Whether you are an electrician or a DIY enthusiast, the Self-Sealing Electrical Tape is an essential tool that should be in your toolkit.

Features:

Product Name: Self Fusing Electrical Tape

Color: Black

Insulation: Yes

Adhesive: No

Voltage Resistance: Up To 30KV

Tear Resistant: Yes

Keywords: Self-Sealing Rubber Tape, Self-Bonding Insulating Tape, Self-Bonding Electrical Tape

Technical Parameters:

Product Attribute	Description
Product Name	Self-amalgamating Electrical Tape / Self-Bonding Electrical Tape / Self-Amalgamating High Voltage Tape
Tear Resistant	Yes
Thickness	0.8mm
Width	50mm
Temperature Resistance	Up To 260°C
Material	Silicone
UV Resistant	Yes
Stretchable	Yes
Insulation	Yes
Color	Black
Waterproof	Yes

Applications:

The zhonglei Self Fusing Electrical Tape is a self-amalgamating high voltage tape that bonds to itself, creating a strong and reliable seal. The tape is designed to be used in various applications, including electrical repairs, automotive repairs, and plumbing repairs. The self-amalgamating electrical tape is perfect for use in environments where high voltage is present, such as in power stations and substations. The zhonglei Self Fusing Electrical Tape is UV resistant, making it ideal for outdoor use. It can withstand extreme weather conditions and exposure to sunlight without deteriorating. Additionally, the tape is tear-resistant, ensuring that it stays in place and maintains its integrity even under strain. The self-bonding electrical tape is also easy to use, making it a popular choice for DIY enthusiasts and professionals alike.

The zhonglei Self Fusing Electrical Tape is a must-have for anyone who needs to make quick and reliable repairs. Its versatility and durability make it suitable for various applications, including sealing, insulating, and waterproofing. From electrical wires to pipes and hoses, this tape can be used to fix almost anything.

Some common scenarios where the zhonglei Self Fusing Electrical Tape can be used include repairing damaged wires, sealing leaks in pipes, and insulating electrical connections. It can also be used to protect cables and hoses from abrasion and wear. The self-

amalgamating high voltage tape is also an excellent option for emergency repairs, as it can be used to fix leaks and other issues quickly and easily.

In conclusion, the zhonglei Self Fusing Electrical Tape is a versatile and reliable product that can be used in various applications. Its exceptional voltage resistance, UV resistance, and tear resistance make it an ideal option for high-stress environments. Whether you're a DIY enthusiast or a professional, this self-bonding electrical tape is a must-have in your toolkit.

Customization:

Customize your Self-Bonding Electrical Tape with our product customization services! Our tape, made by zhonglei in China, is UV resistant and tear resistant, with a length of 5m. It has a temperature resistance of up to 260°C and comes in black color.

With our customization services, you can add your own branding or logo to the tape, choose a different color, or even add additional features such as a printed measurement scale or extra UV resistance. Our Self-Sealing Rubber Tape is perfect for electrical insulation, splicing, and sealing, and our Self-Amalgamating High Voltage Tape is ideal for high voltage applications.

Support and Services:

Our technical support team is available to assist with any questions or issues related to the use of our Self Fusing Electrical Tape. They can provide guidance on proper application techniques, as well as troubleshooting assistance for any problems that may arise. In addition to our technical support services, we also offer a range of other support resources for our Self Fusing Electrical Tape product. This includes product documentation, instructional videos, and other helpful materials that can assist with installation and maintenance.

Packing and Shipping:

Product Packaging:

Dimensions: 2 inches x 10 feet

Material: Silicone rubber

Color: Black

Quantity: 1 roll

Shipping Information:

Weight: 0.2 pounds

Dimensions: 2.5 inches x 2.5 inches x 2 inches

Shipping method: Standard shipping

Delivery time: 3-5 business days

FAQ:

Q: What is Self Fusing Electrical Tape?

A: Self Fusing Electrical Tape is a type of tape that is used for electrical insulation, sealing, and repair. It is made of silicone rubber and is self-adhesive, meaning it sticks to itself without the need for additional adhesive.

Q: What are the features of zhonglei Self Fusing Electrical Tape?

A: zhonglei Self Fusing Electrical Tape is highly durable, resistant to moisture and temperature changes, and can be used in a wide range of applications. It is also easy to apply and remove, and can be stretched and molded to fit around irregular shapes.

Q: What is the width and length of zhonglei Self Fusing Electrical Tape?

A: The width of zhonglei Self Fusing Electrical Tape is typically 25mm, and the length is 3 meters.

Q: What is the country of origin of zhonglei Self Fusing Electrical Tape?

A: zhonglei Self Fusing Electrical Tape is made in China.

Q: What are some common uses for zhonglei Self Fusing Electrical Tape?

A: zhonglei Self Fusing Electrical Tape is commonly used for sealing and insulating electrical connections, repairing hoses and pipes, and even for emergency repairs on boats and automobiles. It can also be used in plumbing and HVAC applications.
