- Durable: Yes
- Elongation At Break: 450%
- Material: Silicone
- Versatile: Yes
- Uv Resistant: Yes
- Self-sticking: Yes
- Highlight: Self Bonding Silicone Pipe Repair Tape ,  
Silicone Pipe Repair Tape UV Resistant ,  
Silicone Water Resistant Tape For Leaks

## Product Description

### Product Description:

This self-amalgamating pipe fixing tape is a must-have for any plumber or DIY enthusiast. It is a versatile product that can be used to fix a wide range of pipe materials, including copper, steel, PVC, and more. The tape is designed to create a permanent seal that is strong and durable, making it an ideal solution for both temporary and permanent repairs.

The Self Fusing Pipe Repair Tape is incredibly easy to use. Simply clean and dry the area where the tape is going to be applied, then wrap the tape around the pipe. The tape will begin to bond to itself, creating a tight seal that will prevent any leaks or cracks from forming. The tape is also easy to remove if needed, making it a great option for temporary repairs.

This self-bonding pipe repair tape comes in two different colors: gray and sky blue. The gray tape is perfect for use on pipes that are located in areas where it is not visible, while the sky blue tape is ideal for use on pipes that are located in areas where it is visible. This makes it easy to choose the right tape for your specific needs.

In summary, the Self Fusing Pipe Repair Tape is a versatile and reliable product that is perfect for fixing leaky or cracked pipes. Its waterproof and chemical-resistant properties make it an ideal solution for a wide range of pipe materials. Its maximum operating temperature of 180°C ensures that it can withstand high temperatures without melting or degrading. Additionally, its ease of use and availability in two different colors make it a great option for both professional plumbers and DIY enthusiasts alike.

### Features:

Product Name: Self Fusing Pipe Repair Tape

Versatile: Yes

Easy To Use: Yes

Chemical Resistant: Yes

Non-Adhesive: Yes

Material: Silicone

This Self Fusing Pipe Repair Tape is also known as Self-bonding Plumbing Repair Tape or Self-amalgamating Pipe Repair Tape. It is versatile, easy to use, chemical resistant, and non-adhesive. Made of silicone material, it is a reliable solution for repairing pipes.

### Technical Parameters:

Product Name	Self-bonding Plumbing Repair Tape

Tensile Strength (Metric)	82 KPa
Self Fusing	Yes
Flexible	Yes
Length	10 Feet
Waterproof	Yes
Minimum Operating Temperature (Celsius)	-60°C
Versatile	Yes
Material	Silicone
Color	Black
Alternate Names	Self-mending Pipe Bandage, Self-bonding Pipe Repair Tape

### Applications:

One of the best things about this Self-bonding Pipe Repair Tape is that it does not require any adhesive or glue. It has a self-bonding feature that allows it to stick to itself, creating a tight seal around the damaged area. The tape is easy to install, making it ideal for emergency repairs or quick fixes.

The zhonglei Self-bonding Pipe Repair Tape is designed to withstand high temperatures up to 356 °F, making it suitable for use in hot water pipes, exhaust systems, and other high-temperature applications. Its flexibility also allows it to conform to any shape or surface, making it ideal for odd-shaped pipes and fittings.

This Self-bonding Pipe Repair Tape is perfect for fixing leaks, cracks, and other damages in your pipes, hoses, and other equipment. It can be used in various occasions and scenarios, including:

Home plumbing repairs

Industrial equipment maintenance

Automotive repairs

Boating and marine applications

HVAC systems

The zhonglei Self-bonding Pipe Repair Tape is a cost-effective solution that helps you save time and money. It provides a long-lasting fix that prevents further damage and extends the life of your pipes and equipment.

## Customization:

## Support and Services:

The Self Fusing Pipe Repair Tape is a versatile and easy-to-use product that provides a quick and durable solution for repairing leaks and breaks in pipes. The tape is made of high-quality silicone rubber that fuses to itself, creating a permanent seal that can withstand high pressure and extreme temperatures.

Our product technical support team is available to assist with any questions or concerns you may have about using the Self Fusing Pipe Repair Tape. We can provide guidance on how to properly apply the tape for optimal results, as well as troubleshoot any issues that may arise during the repair process.

In addition to technical support, we also offer a range of services to help ensure that your pipe repair is successful. Our team can provide on-site training for your staff, as well as custom solutions for unique repair situations. We also offer warranty options for added peace of mind.

## Packing and Shipping:

Our Self Fusing Pipe Repair Tape is the perfect solution for any plumbing emergency.

The tape can be used to quickly repair leaks, cracks, and holes in pipes of all sizes.

Its self-fusing design means that it creates a permanent, watertight seal without the need for additional adhesives.

The tape is made from a high-quality silicone material that is resistant to heat, cold, and chemicals.

Each roll of tape is 10 feet long and 1 inch wide, providing ample coverage for any repair job.

The product packaging includes one roll of Self Fusing Pipe Repair Tape.

Orders are shipped within 24 hours and typically arrive within 3-5 business days.

Shipping is free for orders over \$50 and a flat rate of \$5 for all other orders.

## FAQ:

### Q: What is Self Fusing Pipe Repair Tape?

A: Self Fusing Pipe Repair Tape is a silicone-based tape that bonds to itself to create a permanent seal. It is ideal for repairing leaks and cracks in pipes, hoses, and plumbing systems.

### Q: What are the dimensions of the tape?

A: The tape is 1 inch wide and 10 feet long.

### Q: Is the tape easy to use?

A: Yes, the tape is very easy to use. Simply wrap the tape around the damaged area, stretching it slightly to activate the self-fusing properties. The tape will bond to itself and create a permanent seal within minutes.

### Q: Is the tape waterproof?

A: Yes, the tape is waterproof and can be used on both wet and dry surfaces.

### Q: Where is the Self Fusing Pipe Repair Tape made?

A: The tape is manufactured by Zhonglei, a company based in China that specializes in producing high-quality repair products.
