Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Easy To Use: Yes
- Product Color: Gray, Sky Blue
- Chemical Resistant: Yes
- Maximum Operating Temperature (Fahrenheit): 356 °F
- Tensile Strength (Metric): 82 KPa
- Flexible: Yes
- Material: Silicone
- Length: 10 Feet
- Highlight: Self Bonding Plumbing Repair Tape ,
10 Feet Plumbing Repair Tape ,
Silicone Leak Seal Self Fusing Tape

Product Description

Product Description:

One of the key features of this self-amalgamating pipe repair tape is its maximum operating temperature of 356 °F. This makes it ideal for use in high-temperature applications that require a strong and reliable repair solution. Additionally, the tape has a minimum operating temperature of -60°C, ensuring that it can be used in a wide range of environments and conditions.

The Self Fusing Pipe Repair Tape is also incredibly durable. It is designed to withstand the rigors of everyday use, including exposure to water, chemicals, and UV light. The tape is resistant to corrosion, making it an ideal solution for use in pipes that are exposed to harsh environments or corrosive substances.

Another advantage of this self-amalgamating pipe fixing tape is its versatility. It can be used to repair a wide range of pipe materials, including metal, PVC, and rubber. The tape is also suitable for use on both hot and cold water pipes, making it a versatile solution for a range of plumbing applications.

Overall, the Self Fusing Pipe Repair Tape is an excellent choice for anyone looking for a reliable and easy-to-use solution for fixing leaks and cracks in pipes. Its durable design, high-temperature resistance, and versatility make it a top choice for both DIYers and professionals alike.

Features:

Product Name: Self Fusing Pipe Repair Tape

Chemical Resistant: Yes

Color: Black

UV Resistant: Yes

Waterproof: Yes

Elongation at Break: 450%

This Self Fusing Pipe Repair Tape is perfect for quick and easy repairs on plumbing and pipes. It is self-fusing, self-bonding, and self-adhesive, making it easy to apply. The tape is chemical resistant, UV resistant, and waterproof, ensuring a long-lasting repair.

Additionally, it has an elongation at break of 450%, providing flexibility for any application.

Technical Parameters:

Versatile	Yes
UV Resistant	Yes
Self-sticking	Yes
Product Color	Gray, Sky Blue
Waterproof	Yes
Tensile Strength (Metric)	82 KPa
Minimum Operating Temperature (Celsius)	-60°C
Chemical Resistant	Yes
Color	Black
Durable	Yes

Applications:

The Self Fusing Pipe Repair Tape is a self-sealing pipe fix tape that bonds quickly and easily to provide a long-lasting repair solution for damaged pipes. With its self-bonding and self-amalgamating properties, this tape creates a strong, flexible, and permanent seal that can withstand harsh environmental conditions and high-pressure situations. It's perfect for fixing leaks, cracks, and holes in pipes made of various materials, including metal, PVC, rubber, and more.

This product is an ideal solution for a wide range of occasions and scenarios, including but not limited to:

Emergency Repairs: When sudden leaks or damages occur, the Self Fusing Pipe Repair Tape can provide a quick and reliable fix to prevent water damage and save money on costly repairs.

DIY Projects: Whether you're a professional plumber or a DIY enthusiast, this tape is an excellent addition to your toolbox. Its flexible and easy-to-use nature makes it perfect for fixing pipes in tight spaces or hard-to-reach areas.

Industrial Applications: The Self Fusing Pipe Repair Tape is widely used in various industries, including automotive, marine, aerospace, and construction. It can be used to fix pipes, hoses, cables, and other equipment that require a strong and durable seal.

Household Repairs: From fixing a leaky faucet to repairing a broken pipe, this tape is a versatile product that every homeowner should have in their toolkit. It can also be used to seal air leaks in ducts and insulate pipes from freezing temperatures.

This Self Fusing Pipe Repair Tape comes in two different colors, gray and sky blue, and is available in a length of 10 feet. Its flexible nature allows it to conform to any shape or surface, making it an excellent choice for irregularly shaped pipes or fittings. With its high-quality materials and superior performance, this tape is a must-have for anyone who needs a reliable and long-lasting solution for their plumbing repair needs.

Customization:

Support and Services:

Our Self Fusing Pipe Repair Tape product is designed to provide a quick and easy solution for repairing leaks and breaks in pipes. Made of a special silicone rubber material, this tape fuses to itself to create a permanent, watertight seal that can withstand high pressure and extreme temperatures.

Our technical support team is available to assist with any questions or issues you may have with the product. We also offer a range of services to help ensure that you get the most out of your purchase, including installation guidance, troubleshooting assistance, and ongoing maintenance and repair support.

Whether you're a professional plumber or a DIY enthusiast, our Self Fusing Pipe Repair Tape product is a reliable and effective solution for all your pipe repair needs.

Packing and Shipping:

Product Packaging:

The Self Fusing Pipe Repair Tape comes in a compact and sturdy cardboard box that protects the tape from external damage during shipping and storage.

Shipping:

The product will be shipped within 24 hours of placing the order. We use reliable and fast shipping services to deliver the product to your doorstep in the shortest possible time. We take great care in packaging the product to ensure that it reaches you in perfect condition.

FAQ:

Q: What is Self Fusing Pipe Repair Tape?

A: Self Fusing Pipe Repair Tape is a high-quality silicone tape designed to repair leaks in pipes, hoses, and other plumbing fixtures. It is made from self-fusing silicone rubber and provides a permanent, watertight seal.

Q: What makes zhonglei Self Fusing Pipe Repair Tape special?

A: zhonglei Self Fusing Pipe Repair Tape is made from high-quality materials sourced from China. It is designed to be easy to use and provides a strong, long-lasting seal. The tape is also heat-resistant, making it ideal for use in high-temperature environments.

Q: How do I use zhonglei Self Fusing Pipe Repair Tape?

A: To use zhonglei Self Fusing Pipe Repair Tape, simply wrap the tape around the area you want to repair. The tape will bond to itself, creating a strong, permanent seal. Make sure to apply the tape tightly and evenly to ensure a strong seal.

Q: What types of pipes can I use zhonglei Self Fusing Pipe Repair Tape on?

A: zhonglei Self Fusing Pipe Repair Tape can be used on a variety of pipes, including copper, PVC, rubber, and more. It is also suitable for use on hoses, fittings, and other plumbing fixtures.

Q: Is zhonglei Self Fusing Pipe Repair Tape safe to use?

A: Yes, zhonglei Self Fusing Pipe Repair Tape is safe to use. It is made from non-toxic materials and is designed to be safe for use in drinking water systems. However, it is always important to follow the instructions carefully and use the tape as directed.
