

## Black Self Amalgamating Electrical Tape 0.8mm Stretchable Insulated Tear Resistant

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Stretchable: Yes
- Temperature Resistance: Up To 260°C
- Width: 50mm
- Tear Resistant: Yes
- Thickness: 0.8mm
- Insulation: Yes
- Self-Fusing: Yes
- Color: Black
- Highlight: **Self Amalgamating Electrical Tape Stretchable,  
Self Amalgamating Electrical Tape 0.8mm,  
Black Self Amalgamating Tape Tear Resistant**

## Product Description

### Product Description:

The Self Fusing Electrical Tape is designed to withstand high voltage resistance of up to 30KV, making it ideal for use in various electrical applications. It is also capable of withstanding extreme temperatures and is UV resistant, ensuring that it can withstand even the toughest of weather conditions. This self-bonding silicone tape is perfect for outdoor use and can be used for sealing and repairing electrical wires, hoses, and pipes.

Whether you are a professional electrician or a DIY enthusiast, the Self Fusing Electrical Tape is an essential tool that you cannot afford to overlook. This tape is easy to use, and it bonds quickly and securely to itself, creating a permanent seal that can withstand even the harshest of conditions. The tape is also incredibly flexible and can be easily wrapped around irregular shapes and surfaces.

With a length of 5m, the Self Fusing Electrical Tape is sure to last you a long time. It is durable, reliable, and provides excellent value for money. This tape is perfect for use in electrical repairs, automotive repairs, and plumbing repairs. It is also an excellent choice for sealing and insulating wires and cables, providing excellent protection against moisture and water damage.

In conclusion, the Self Fusing Electrical Tape is an essential tool for anyone who works with electrical or plumbing applications. This self-sealing insulating tape, self-sealing electrical tape, and self-bonding silicone tape is waterproof, UV resistant, and can withstand high voltage resistance of up to 30KV. With a width of 50mm and a length of 5m, this tape is perfect for a wide range of applications and is an excellent value for money. So, whether you are a professional electrician or a DIY enthusiast, the Self Fusing Electrical Tape is a must-have tool that you cannot afford to overlook.

### Features:

Product Name: Self Fusing Electrical Tape

Application: Electrical Insulation And Sealing

Adhesive: No

Thickness: 0.8mm

Temperature Resistance: Up To 260°C

Width: 50mm

Also known as: Self-Fusing Silicone Tape, Self-Amalgamating High Voltage Tape, Self-amalgamating Electrical Tape

### Technical Parameters:

Product Attribute	Value
Product Name	Self-Amalgamating High Voltage Tape
Adhesive	No
Waterproof	Yes
Color	Black
Insulation	Yes
Material	Silicone
UV Resistant	Yes
Voltage Resistance	Up to 30KV
Temperature Resistance	Up to 260°C
Thickness	0.8mm
Alternative Names	Self-Sealing Rubber Tape, Self-Sealing Insulating Tape

### Applications:

One of the standout features of this tape is its self-fusing capability. This means that the tape bonds to itself without the need for additional adhesive, creating a strong and long-lasting seal. The self-fusing silicone tape is ideal for use in high-voltage applications where a secure and reliable seal is crucial.

Another great feature of this product is its UV resistance. This means that the tape can withstand exposure to sunlight and other UV sources without deteriorating or losing its effectiveness. This makes it a great choice for outdoor applications where exposure to the sun is likely.

Additionally, the Self-Sealing Electrical Tape from zhonglei is stretchable, allowing it to conform to a wide range of shapes and surfaces. This makes it a versatile product that can be used in a variety of scenarios.

Some common application occasions for this tape include electrical wiring, cable and pipe insulation, and sealing of hoses and tubing. It is also commonly used in automotive, marine, and construction applications. The Self-Sealing Electrical Tape is particularly useful in situations where a quick and reliable fix is needed, as it can be applied quickly and easily without the need for additional tools or materials.

In summary, the Self-Sealing Electrical Tape from zhonglei is a high-quality and versatile product that offers a reliable and long-lasting seal. Its self-fusing, UV-resistant, and stretchable features make it a go-to choice for electrical insulation and sealing in a variety of scenarios. Whether you're working on a DIY project or a professional job, the Self-Sealing Electrical Tape is a must-have item in your toolkit.

## Customization:

Customize your zhonglei Self-Fusing Silicone Tape according to your needs and preferences. Our product is made from high-quality silicone material from China, ensuring its durability and strength. It is ideal for electrical insulation and sealing applications. You can choose the width of your Self-Bonding Silicone Tape to be 50mm, perfect for various industrial and household projects. It is also waterproof and stretchable, providing excellent protection and flexibility.

## Support and Services:

The Self Fusing Electrical Tape is a high-quality tape that is designed to provide excellent electrical insulation and protection against moisture, heat, and chemicals. It is a self-amalgamating tape that fuses to itself when stretched and wrapped around an object, creating a strong, permanent bond that is resistant to weathering, tearing, and abrasion. This tape is easy to use and can be applied without the need for any special tools or adhesives.

Our product technical support and services for the Self Fusing Electrical Tape include:

Expert assistance to help you select the right tape for your application

Technical advice on how to properly apply the tape to ensure optimal performance

Information on the tape's electrical and mechanical properties, including its dielectric strength, adhesive strength, and elongation

Assistance with any issues or questions that may arise during the use of the tape

Guidance on how to store and handle the tape to ensure its longevity and performance

## Packing and Shipping:

### Product Packaging:

The Self Fusing Electrical Tape comes in a durable plastic container that keeps the tape clean and protected from dirt and moisture. The container has a secure snap closure that keeps the tape from unraveling and makes it easy to store in a toolbox or on a shelf. The container measures 3 inches in diameter and 1 inch in height, making it compact and easy to transport.

### Shipping:

The Self Fusing Electrical Tape is shipped in a sturdy cardboard box to ensure it arrives at its destination in excellent condition. We use a reliable shipping carrier to ensure that your order is delivered on time and in good condition. Shipping is available to all US states and territories, as well as to international customers. Shipping fees vary depending on the destination and the shipping method selected.

## FAQ:

### Q: What is the brand name of this electrical tape?

A: The brand name of this electrical tape is zhonglei.

### Q: Where is this electrical tape made?

A: This electrical tape is made in China.

### Q: What is the material of this electrical tape?

A: This electrical tape is made of self-fusing silicone rubber.

### Q: What is the temperature range that this electrical tape can withstand?

A: This electrical tape can withstand temperatures from -50°C to 260°C.

### Q: What is the length and width of this electrical tape?

A: This electrical tape comes in a length of 5 meters and a width of 25mm.
