

## Waterproof Self Fusing Electrical Tape Tear / UV Resistant Self Bonding Electrical Tape

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei

### Product Specification

- Insulation: Yes
- Stretchable: Yes
- Waterproof: Yes
- Length: 5m
- Uv Resistant: Yes
- Temperature Resistance: Up To 260°C
- Voltage Resistance: Up To 30KV
- Tear Resistant: Yes
- Highlight: **Waterproof Self Fusing Electrical Tape ,  
Self Fusing Electrical Tape Tear Resistant ,  
UV Resistant Self Bonding Electrical Tape**

## Product Description

### Product Description:

The Self-Bonding Electrical Tape is quick and easy to apply, making it an essential tool for any electrician or DIY enthusiast. Its self-fusing properties make it ideal for use in emergency situations, where a quick fix is needed. The tape fuses to itself to create a strong, permanent bond that is resistant to water, heat, and chemicals.

Whether you are working on a high voltage project or need to repair a damaged cable, the Self-Bonding Electrical Tape is the perfect solution. Its stretchable and tear-resistant properties ensure that it can handle the toughest of jobs, while its self-amalgamating properties make it an essential tool for any electrician.

Overall, the Self-Bonding Electrical Tape is a must-have for anyone working with electrical equipment. Its superior quality, ease of use, and excellent insulation properties make it the go-to choice for professionals and DIY enthusiasts alike. So why wait? Get your hands on the Self-Bonding Electrical Tape today and take the first step towards hassle-free electrical repairs!

### Features:

Product Name: Self Fusing Electrical Tape

Temperature Resistance: Up To 260°C

UV Resistant: Yes

Application: Electrical Insulation And Sealing

Width: 50mm

Adhesive: No

### Technical Parameters:

Voltage Resistance	Up To 30KV
Waterproof	Yes
UV Resistant	Yes
Color	Black
Tear Resistant	Yes
Width	50mm
Temperature Resistance	Up To 260°C
Stretchable	Yes
Length	5m
Insulation	Yes

### Applications:

The Self-Fusing Electrical Tape from zhonglei is a self-amalgamating high voltage tape, making it ideal for use in high voltage applications. It has a strong self-bonding ability, which means that it fuses to itself upon application, creating a strong and secure bond that is resistant to moisture, chemicals, and UV light. It is also waterproof, making it suitable for use in damp and wet environments. Whether you are an electrician, a handyman, or a DIY enthusiast, the Self-Fusing Electrical Tape from zhonglei is a must-have product in your toolbox. It can be used for a variety of applications, including sealing and repairing electrical wires and cables, splicing, and insulation. Its stretchable nature makes it perfect for use in tight spaces, while its self-bonding ability ensures a secure and long-lasting hold.

The Self-Fusing Electrical Tape from zhonglei comes in a convenient 5m length, making it perfect for both small and large projects. It is easy to use and can be applied by hand, giving you complete control over the application process. Its versatility and durability make it an essential product for any electrical or maintenance professional.

In summary, the Self-Fusing Electrical Tape from zhonglei is a self-amalgamating high voltage tape that is made with high-quality silicone material. It is stretchable, waterproof, and has excellent insulation properties, making it ideal for a variety of applications. Its self-bonding ability ensures a strong and secure hold, while its convenient 5m length makes it perfect for both small and large projects. Add this self-sealing rubber tape to your toolbox today and experience the convenience and durability it has to offer.

### Customization:

Customize your zhonglei Self-Bonding Silicone Tape with our Product Customization Services! Our Self-Bonding Silicone Tape, also known as Self-Sealing Rubber Tape, is made in China and comes in black with a width of 50mm. It has a temperature resistance of up to 260°C, a thickness of 0.8mm, and is stretchable for easy application.

### Support and Services:

Our Self Fusing Electrical Tape is designed to provide a strong, waterproof seal for electrical connections and other applications. It is made from high-quality silicone rubber that is self-bonding and self-fusing, creating a permanent, non-conductive seal that is resistant to heat, cold, and chemicals.

The tape is easy to use and can be applied quickly and easily by hand. Simply stretch and wrap the tape around the area to be sealed, overlapping each layer by half the width of the tape. The tape will fuse to itself, creating a tight, durable seal that will not come apart. In addition to its use in electrical applications, our Self Fusing Electrical Tape is also ideal for use in plumbing, automotive, and marine applications. It can be used to seal hoses, pipes, and other connections, as well as to provide a waterproof seal for boats, trailers, and other outdoor equipment.

If you have any questions or concerns about our Self Fusing Electrical Tape, please do not hesitate to contact our technical support team for assistance. We are committed to providing our customers with the highest level of service and support, and we will work with you to ensure that you get the most out of your purchase.

## Packing and Shipping:

### Product Packaging:

The Self Fusing Electrical Tape product is packaged in a compact and durable plastic case, which protects the tape from moisture, dust, and other potential damages. The case contains one roll of 10 feet of self fusing electrical tape.

### Shipping:

The Self Fusing Electrical Tape product is shipped in a sturdy cardboard box to ensure its safe delivery. The box is labeled with the product name, quantity, and handling instructions. The tape is shipped within 24-48 hours of order placement and delivery time varies based on location.

## FAQ:

### Q: What is Self Fusing Electrical Tape?

A: Self Fusing Electrical Tape is a type of tape that can be used to insulate and seal electrical connections. It is made from a special type of silicone rubber that is self-bonding, meaning it sticks to itself without the need for any adhesive.

### Q: What makes zhonglei Self Fusing Electrical Tape different from other brands?

A: zhonglei Self Fusing Electrical Tape is made in China using high-quality silicone rubber that is designed to provide superior insulation and sealing performance. It is also highly resistant to moisture, heat, and chemicals, making it ideal for use in a variety of harsh environments.

### Q: How do I use Self Fusing Electrical Tape?

A: To use Self Fusing Electrical Tape, simply wrap it around the area that needs to be insulated or sealed, stretching it slightly as you go. The tape will bond to itself, creating a tight seal that is both waterproof and airtight.

### Q: What applications is Self Fusing Electrical Tape suitable for?

A: Self Fusing Electrical Tape is suitable for a wide range of applications, including electrical insulation and sealing, automotive repair, plumbing, and even emergency repairs in the field. Its self-bonding properties make it ideal for situations where traditional adhesive tapes may not be suitable.

### Q: Is Self Fusing Electrical Tape safe to use?

A: Yes, Self Fusing Electrical Tape is safe to use. It is made from non-toxic silicone rubber that is non-conductive and flame-retardant, making it ideal for use in electrical and other sensitive applications.
