

Black Silicone Self Fusing Electrical Tape 5m Waterproof Electrical Sealing Tape

Our Product Introduction

more products please visit us on siliconerubber-product.com

Basic Information

- Place of Origin: China
- Brand Name: zhonglei

Product Specification

- Application: Electrical Insulation And Sealing
- Adhesive: No
- Waterproof: Yes
- Color: Black
- Tear Resistant: Yes
- Length: 5m
- Material: Silicone
- Stretchable: Yes
- Highlight: **Black Self Fusing Electrical Tape,
Self Fusing Electrical Tape 5m,
Waterproof Electrical Sealing Tape**

Product Description

Product Description:

With a width of 50mm, this Self-Bonding Insulating Tape can be used for a variety of applications. It is perfect for sealing electrical connections, splicing wires, and repairing damaged cables. The tape is easy to use and can be wrapped around any object to create a tight, secure seal.

The Self-Bonding Insulating Tape is designed to bond to itself, creating a strong, permanent seal. It does not require any additional adhesive or heat to bond, making it an easy and convenient solution for all your insulation needs.

This Self-Sealing Electrical Tape is also highly flexible and can conform to any shape or contour. This makes it ideal for use in tight, hard-to-reach areas where traditional insulation methods may not be possible.

Overall, the Self-Bonding Insulating Tape is a reliable and effective solution for all your electrical insulation and sealing needs. Its high-quality silicone material, waterproof feature, and self-bonding capabilities make it the perfect choice for any application.

Features:

Product Name: Self Fusing Electrical Tape

Material: Silicone

Waterproof: Yes

Stretchable: Yes

Self-Fusing: Yes

Width: 50mm

The Self Fusing Electrical Tape, also known as Self-Amalgamating High Voltage Tape or Self-amalgamating Electrical Tape, is made of silicone and features a waterproof and stretchable design. The self-fusing feature allows for easy application and a secure hold. The tape has a width of 50mm.

Technical Parameters:

Product Attribute	Value
Product Name	Self-Sealing Rubber Tape
Insulation	Yes
Width	50mm
Color	Black
Adhesive	No
Application	Electrical Insulation And Sealing
Stretchable	Yes
Length	5m
Thickness	0.8mm
Temperature Resistance	Up To 260°C
Waterproof	Yes

Applications:

Whether it's sealing a leaky pipe or repairing damaged electrical wires, the Self-Fusing Electrical Tape is the perfect solution. Its self-bonding silicone material allows it to fuse to itself, creating a tight and secure seal. This eliminates the need for messy adhesives or special tools, making it a convenient choice for both professionals and DIY enthusiasts.

The Self-Fusing Electrical Tape is also UV resistant, making it suitable for outdoor use. Its insulation properties make it ideal for protecting electrical connections from moisture, dust, and other environmental factors. The tape is durable and long-lasting, ensuring that your repairs will stand the test of time.

Here are some examples of occasions and scenarios where the Self-Fusing Electrical Tape can be used:

Fixing damaged wires or cables in cars, boats, or other vehicles

Sealing leaking pipes or hoses

Insulating electrical connections in outdoor lighting fixtures

Repairing damaged electrical cords or appliances

Securing and protecting electrical connections in humid or wet environments

Overall, the Self-Fusing Electrical Tape from Zhonglei is a reliable and convenient solution for various electrical insulation and sealing needs. Its self-bonding silicone material, UV resistance, and insulation properties make it a versatile and durable choice for both professionals and DIY enthusiasts. Whether you're fixing a leaky pipe or repairing damaged wires, the Self-Fusing Electrical Tape is a must-have in your toolkit.

Customization:

Customize your self-amalgamating high voltage tape with our product customization services. Our self-amalgamating electrical tape is manufactured by the trusted brand, zhonglei, and originates from China. Made from silicone material, this tape boasts a temperature resistance of up to 260°C and is UV resistant. With a width of 50mm and thickness of 0.8mm, our self-amalgamating electrical tape is perfect for a variety of applications. Contact us today to learn more about our product customization services.

Support and Services:

Our technical support team is available to assist with any questions or issues related to the installation or performance of the Self Fusing Electrical Tape. Additionally, we offer a range of services, including product training and custom solutions to meet specific application requirements. Our goal is to ensure that our customers have the support they need to achieve optimal results with our products.

Packing and Shipping:

The Self Fusing Electrical Tape product is packed in a durable plastic container. The container is designed to protect the tape from moisture, dust, and other environmental factors that can affect its quality. The container is also small and lightweight, making it easy to store and transport.

Shipping:

The Self Fusing Electrical Tape product will be shipped in a cardboard box that is appropriate for its size and weight. The box will be securely sealed to prevent any damage or tampering during transit. The shipping label will be clearly visible on the outside of the box, along with any necessary warnings or handling instructions.

FAQ:

Q: What is Self Fusing Electrical Tape?
