### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Flexible: Yes
- Material: Silicone
- Classification: Inorganic Insulation Material
- Insulating: Yes
- Pressure Sensitive: Yes
- No Adhesive Required: Yes
- Hs Code: 40082100
- Feature: Flame-retardant
- Highlight: **5cm Self Fusing Silicone Tape ,  
25kv Self Fusing Silicone Tape ,  
5cm Flame Retardant Insulation Tape**

## Product Description

### Product Description:

This Self Amalgamating Silicone Tape is flexible and can easily conform to any shape, making it ideal for use on irregular surfaces. It is 5cm in width, providing enough coverage for most repair jobs. The rubber adhesive ensures a strong bond, making sure that the tape stays in place even under extreme conditions.

Whether you're repairing a damaged hose, insulating electrical wires, or bundling cables, our Self Fusing Silicone Tape is the perfect tool for the job. It is easy to use, simply wrap it around the area that needs to be repaired, and the tape will fuse together, creating a strong and durable seal.

The versatility of this tape makes it a must-have for all DIY enthusiasts, electricians, plumbers, and automotive mechanics. It can be used on a variety of surfaces, including metal, rubber, plastic, and glass. It is also resistant to water, chemicals, and UV rays, making it suitable for use in harsh environments.

In conclusion, our Insulating Self Fusing Tape is a reliable and cost-effective solution for all your repair work needs. Its flexibility, heat resistance, and strong adhesive make it an essential tool for any toolkit. Whether you're a professional or a DIY enthusiast, this tape is perfect for all your repair work needs. So why wait? Get your hands on our Self Fusing Silicone Tape today and start repairing!

### Features:

Product Name: Self Fusing Silicone Tape

Flexible: Yes

Tear Resistant: Yes

No Adhesive Required: Yes

Classification: Inorganic Insulation Material

Material: Silicone

This Self Fusing Silicone Tape is a Self Adhesive Silicone Tape, which is also known as an Insulating Self Fusing Tape or Self Amalgamating Silicone Tape. It is highly flexible and tear-resistant, making it perfect for a wide range of applications. No adhesive is required, as it fuses to itself, creating a tight, secure bond. Made from high-quality silicone, this tape is classified as an Inorganic Insulation Material, making it ideal for use in electrical and industrial applications.

### Technical Parameters:

Feature	Heat-Resistant
Application	For Repair Work
No Adhesive Required	Yes
Color	Blue
Easy To Use	Yes
Material	Silicone
Adhesive	Rubber
Insulating	Yes
Classification	Inorganic Insulation Material
Width	5cm

### Applications:

One of the standout features of this product is that it does not require any adhesive. The tape is designed to bond to itself, creating a strong and secure seal that is perfect for a wide range of applications. The tape is also incredibly flexible, making it easy to use in a variety of different scenarios.

The Heat-Resistant properties of this tape make it perfect for use in high-temperature environments. It can withstand temperatures of up to 500°F, meaning it is ideal for use in automotive, electrical, and plumbing applications.

The Easy To Use design of this tape ensures that it can be used by anyone, regardless of their level of experience. Simply wrap the tape around the item you wish to repair or insulate and watch as it bonds to itself, creating a strong and secure seal that will last for years to come.

The HS Code for this product is 40082100, making it easy to import into a wide range of different countries.

Some of the different Product Application Occasions and Scenarios for this Self Fusing Silicone Tape include:

Automotive repairs - this tape is perfect for fixing leaks in hoses, repairing wiring, and insulating exhaust pipes.

Electrical repairs - the tape can be used to insulate wires and cables, making it ideal for use in a variety of different electrical applications.

Plumbing repairs - the tape can be used to seal leaks in pipes and fittings, providing a quick and easy fix for a wide range of plumbing issues.

Outdoor repairs - the tape is waterproof and can be used to repair awnings, tents, and other outdoor equipment.

Emergency repairs - the tape is ideal for use in emergency situations, providing a fast and effective way to repair a wide range of different items.

In conclusion, the Stretchable Silicone Repair Tape from zhonglei is an incredibly versatile product that is perfect for use in a wide range

of different situations. Its unique No-Residue Self Fusing Tape design makes it easy to use and incredibly flexible, while its Heat-Resistant properties make it ideal for use in high-temperature environments. So why not add it to your toolbox today and start enjoying the benefits of this amazing product?

## Customization:

## Support and Services:

Our Self Fusing Silicone Tape product comes with comprehensive technical support and services to ensure you get the most out of your purchase. Our team of experts is available to provide guidance on product installation, usage, and maintenance. In addition, we offer product training and troubleshooting services to help you overcome any challenges you may encounter. We also provide product warranties and repair services to ensure your product remains in good working condition. Contact us for more information on our technical support and services.

## Packing and Shipping:

### Product Packaging:

The Self Fusing Silicone Tape product comes in a compact and sturdy plastic case to ensure safe storage and easy transport. The case is designed to protect the tape from damage and keep it tightly sealed to prevent moisture and dirt from entering. The package includes one roll of silicone tape with a length of 5m and a width of 5cm.

### Shipping:

We offer worldwide shipping for the Self Fusing Silicone Tape product. The tape is carefully packed in a bubble wrap and then placed in a sturdy cardboard box to ensure it arrives at its destination safely. We take every precaution to ensure that the product is delivered in perfect condition and on time to meet your needs. Shipping times may vary depending on your location.
