#### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

#### Product Specification

- Color: Black
- Hs Code: 40082100
- Easy To Use: Yes
- No Adhesive Required: Yes
- Application: For Repair Work
- Material: Silicone
- Feature: Uv-Resistant
- Width: 5CM
- Highlight: **UV Resistant Self Fusing Silicone Tape,  
Self Fusing Silicone Tape 5cm,  
Flame Retardant Black Silicone Tape**

## Product Description

### Product Description:

One of the key benefits of this product is that it requires no adhesive, making it easy to use and mess-free. It is designed to stick to itself, creating a tight, long-lasting seal that is ideal for a wide range of applications.

Whether you need to repair a leaking pipe, seal a broken cable, or fix a damaged hose, the No-Residue Self Fusing Tape is up to the task. Its unique self-fusing design means that it can bond to itself without leaving any residue, ensuring that your repair work is neat and professional-looking.

Another advantage of this product is its durability. Made from high-quality silicone, it is resistant to heat, chemicals, and weathering, making it ideal for use in harsh environments. It is also flexible and stretchy, allowing it to conform to the shape of the object you are repairing, ensuring a secure and long-lasting bond.

The No-Residue Self Fusing Tape is incredibly versatile, making it a must-have item in any toolbox. It can be used for everything from repairing leaky hoses and pipes to sealing electrical connections and protecting against corrosion.

In summary, the No-Residue Self Fusing Tape is a high-quality, self-adhesive silicone tape that is perfect for repair work. Its no-residue design makes it easy to use and mess-free, while its durability and versatility ensure that it can be used in a wide range of applications. If you're looking for a reliable and effective solution for your repair needs, then the No-Residue Self Fusing Tape is the perfect choice.

### Features:

Product Name: Self Fusing Silicone Tape

Color: Black

Classification: Inorganic Insulation Material

Flexible: Yes

Easy To Use: Yes

Application: For Repair Work

Keywords: Stretchable Silicone Repair Tape, Self Adhesive Silicone Tape, Non-Tacky Silicone Tape

### Technical Parameters:

Attribute	Value
Product Name	Self Bonding Silicone Tape
Material	Silicone
Feature	UV-Resistant
HS Code	40082100
Width	5cm
Easy To Use	Yes
Pressure Sensitive	Yes
Tear Resistant	Yes
Color	Black
Insulating	Yes
No Adhesive Required	Yes

### Applications:

The self-fusing silicone tape is designed to bond quickly to itself and create a watertight seal. This feature makes it ideal for use in humid environments or for outdoor repair work. The tape is pressure-sensitive, which means that it sticks to itself without the need for any additional adhesive. It is easy to apply and requires no special tools or equipment.

The tape is 5 CM wide, which makes it perfect for small to medium-sized repair jobs. It can be easily cut to size with scissors or a knife.

The self-fusing silicone tape is classified as an inorganic insulation material that can withstand high temperatures, making it perfect for use in electrical applications.

One of the key benefits of the Zhonglei Self Sealing Silicone Tape is its versatility. It can be used for a wide range of repair work, including plumbing, automotive, and electrical repairs. The tape is also ideal for emergency repairs, as it can be applied to wet or damp surfaces and will create a watertight seal.

Some common application occasions and scenarios for the Zhonglei Self Sealing Silicone Tape include:

Repairing leaking pipes or hoses

Sealing electrical wires or connections

Fixing automotive hoses or belts

Creating a temporary seal on a leaking roof

Repairing outdoor equipment in humid environments

Emergency repairs when a quick fix is needed

In conclusion, the Zhonglei Self Sealing Silicone Tape is a highly versatile and durable product that is perfect for repair work in various industries. Its self-fusing and self-adhesive properties make it easy to apply and create a watertight seal. The tape is pressure-sensitive and requires no additional adhesive, making it ideal for emergency repairs.

### Customization:

Customize your Insulating Self Fusing Tape with our product customization services! Our tape, made from high-quality silicone material, is stretchable and self-amalgamating, making it perfect for all your repair needs.

With a width of 5CM, this tape is suitable for various applications and is heat-resistant, making it ideal for use in high-temperature environments. Our tape is adhesive with a rubber backing, ensuring a secure and long-lasting hold.

Our zhonglei brand self-fusing silicone tape is proudly made in China and can be customized to meet your specific needs. Contact us today to learn more about our product customization services!

### Support and Services:

Our Self Fusing Silicone Tape is a versatile and durable product that is perfect for a variety of applications. Whether you need to seal a leaky pipe, insulate an electrical wire, or protect a surface from abrasion, our tape is up to the task.

Our team of product technical support specialists is available to answer any questions you may have about the tape's capabilities and recommended uses. We also offer a range of services to help you get the most out of your Self Fusing Silicone Tape, including:

Custom cutting and packaging to meet your specific needs

Technical training and support for your staff

On-site consultation to help you select the right product for your application

Product testing and analysis to ensure optimal performance

At every stage of your project, we are committed to providing you with the highest quality products and services. Contact us today to learn more about our Self Fusing Silicone Tape and how we can help you achieve your goals.

### Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape comes in a compact and durable box that is easy to store and transport. The box is made of high-quality cardboard and features a clear plastic window that allows customers to see the tape inside. The box includes all the necessary information about the product, such as instructions for use, size, and color, to help customers make an informed purchase.

Shipping:

We offer fast and reliable shipping options for our Self Fusing Silicone Tape. All orders are carefully packaged and shipped within 24 hours of purchase. Customers can choose from standard or expedited shipping options depending on their needs. We use trusted carriers to ensure that orders are delivered safely and on time. Customers will receive a tracking number once their order has been shipped, so they can easily track their package.
