## Silicone Self Amalgamating Repair Tape 35kv Max Voltage 5cm Width Flame Retardant

Our Product Introduction

more products please visit us on [siliconerubber-product.com](http://siliconerubber-product.com)

### Basic Information

- Place of Origin: China
- Brand Name: zhonglei
- Model Number: zl6030si
- Minimum Order Quantity: 500 rolls
- Supply Ability: 50000 Rolls per month

### Product Specification

- Tear Resistant: Yes
- Color: Green
- Flexible: Yes
- Insulating: Yes
- Feature: Heat-Resistant
- Easy To Use: Yes
- Classification: Inorganic Insulation Material
- Highlight: **Silicone Self Amalgamating Repair Tape ,  
Self Amalgamating Repair Tape 5cm**

## Product Description

### Product Description:

One of the most significant advantages of this non-tacky silicone tape is its insulating properties. It provides an excellent barrier against moisture, dust, and other contaminants, keeping your cables, pipes, and connections safe from damage. Its tear-resistant construction ensures that it won't easily break or peel, providing long-lasting protection against wear and tear.

The Self Fusing Silicone Tape is also heat-resistant, making it suitable for use in high-temperature environments. You can wrap it around hot pipes, exhaust systems, or electrical components without worrying about it melting or degrading over time. This feature makes it an excellent choice for automotive, industrial, and marine applications.

This product is classified under HS Code 40082100, which covers all self-adhesive tapes made of plastics. The Self Fusing Silicone Tape is made of high-quality silicone, which is known for its durability and reliability. Its non-tacky surface ensures that it won't stick to your hands or other surfaces, making it easy to handle and apply.

In summary, the Self Fusing Silicone Tape is an essential product for anyone who needs a reliable, flexible, and insulating tape that can withstand high temperatures and tear resistance. Its waterproof and non-tacky properties make it an excellent choice for a wide range of applications, from home repairs to industrial installations. Get yours today and experience the benefits of this versatile and reliable tape!

### Features:

Product Name: Self Fusing Silicone Tape

Flexible: Yes

Easy To Use: Yes

Feature: Heat-Resistant

Insulating: Yes

HS Code: 40082100

Self Sealing Silicone Tape

No-Residue Self Fusing Tape

Self Sealing Silicone Tape

### Technical Parameters:

Insulating:	Yes
Tear Resistant:	Yes
Material:	Silicone
Easy To Use:	Yes
Application:	For Repair Work
Color:	Green
Adhesive:	Silicone-rubber
Width:	5cm
Classification:	Inorganic Insulation Material
No Adhesive Required:	Yes

### Applications:

Thanks to its stretchable and tear-resistant properties, this silicone tape is extremely versatile and can be used in a variety of applications. It is perfect for repairing electrical wires, hoses, and other equipment that requires a strong and reliable seal. The tape can withstand high temperatures, making it ideal for use in automotive, marine, and aviation industries.

The heat-resistant feature of this silicone tape makes it perfect for application in scenarios where high temperatures are present. It can withstand temperatures up to 500 degrees Fahrenheit, which makes it perfect for use in industrial settings such as factories, power plants, and chemical plants. This tape is also perfect for use in the home, for sealing leaks in pipes and hoses, and repairing appliances such as kettles, irons, and coffee makers.

The zhonglei stretchable silicone repair tape is made in China and is available in black color. Its pressure-sensitive property ensures it adheres perfectly to all kinds of surfaces, making it easy to use. The tape is extremely easy to apply and can be used by anyone, regardless of their level of expertise. It is also easy to remove, making it perfect for temporary repairs.

In conclusion, the zhonglei stretchable silicone repair tape is a versatile and reliable solution for all kinds of repairs. Its heat-resistant and tear-resistant properties make it perfect for use in a variety of applications, from industrial settings to home repairs. Its non-tacky silicone material ensures it leaves no residue behind, making it perfect for temporary repairs. Get your hands on this amazing tape today and experience its many benefits firsthand!

### Customization:

## Support and Services:

Our Self Fusing Silicone Tape product is designed to provide superior protection and insulation for a wide range of applications. Its unique self-fusing properties allow it to create a strong, permanent bond without the need for adhesives or other bonding agents. This makes it ideal for use in harsh environments where traditional tape products may fail.

Our technical support team is available to assist with any questions or issues you may encounter when using our product. We can provide guidance on proper installation techniques, as well as troubleshooting assistance if needed.

In addition to our technical support services, we also offer a range of other services to help you get the most out of our Self Fusing Silicone Tape. These services include custom cutting and packaging options, as well as private labeling and custom branding opportunities.

## Packing and Shipping:

Product Packaging:

The Self Fusing Silicone Tape is packaged in a compact, easy-to-open box that contains one roll of tape. The box is made of durable cardboard material to protect the tape from damage during shipping and handling. The box also includes instructions on how to use the tape.

Shipping:

The Self Fusing Silicone Tape is shipped in a secure, corrugated cardboard box to prevent damage during transport. The box is clearly labeled with the product name, quantity, and handling instructions to ensure safe and timely delivery. Orders are shipped within 24-48 hours of purchase and customers can track their shipment using the provided tracking number.
